the education of young adolescents can be enhanced when teachers and students are members of classrooms and small team groups characterized by long-lasting relationships. This book describes how to offer students the benefits of smallness within increasingly larger schools by ensuring long-term teacher-student relationships. Three major ways of achieving such

relationships are detailed: (1) multiage grouping; (2) looping; and (3) schools-within-a-school. Research on middle school organizational patterns is summarized. Also presented are the findings of a national survey on long-term teacher-student relationships that gathered the opinions of 105 educators, 586 parents, and 1,100 students from 33 schools. Guidelines for practitioners

interested in implementing long-term teacher-student relationships to make big schools seem small conclude the book. (Contains 53 references.) (KB)

This up-to-date comprehensive and consolidated guideline on essential intrapartum care brings together new and existing WHO recommendations that when delivered as a package will ensure good-

quality and evidence-based care irrespective of the setting or level of health care. The recommendations presented in this guideline are neither country nor region specific and acknowledge the variations that exist globally as to the level of available health services within and between countries. The guideline highlights the importance of woman-centred care to optimize

the experience of labour and childbirth for women and their babies through a holistic human rights-based approach. It introduces a global model of intrapartum care which takes into account the complexity and diverse nature of prevailing models of care and contemporary practice. The recommendations in this guideline are intended to inform the development of relevant national- and

local-level health policies and clinical protocols. Therefore the target audience includes national and local public health policy-makers implementers and managers of maternal and child health programmes health care facility managers nongovernmental organizations (NGOs) professional societies involved in the planning and management of maternal and child

health services health care professionals (including nurses midwives general medical practitioners and obstetricians) and academic staff involved in training health care professionals.

 American democratic capitalism is in danger. How can we save it? For its first two

hundred years, the American economy exhibited truly impressive performance. The combination of democratically elected governments and a capitalist system worked, with ever-increasing levels of efficiency spurred by division of labor, international trade, and scientific management of companies. By the nation's bicentennial

celebration in 1976, the American economy was the envy of the world. But since then, outcomes have changed dramatically. Growth in the economic prosperity of the average American family has slowed to a crawl, while the wealth of the richest Americans has skyrocketed. This imbalance threatens the American democratic capitalist system and our way of life. In this bracing yet

constructive book, world-renowned business thinker Roger Martin starkly outlines the fundamental problem: We have treated the economy as a machine, pursuing ever-greater efficiency as an inherent good. But efficiency has become too much of a good thing. Our obsession with it has inadvertently shifted the shape of our economy, from a large middle class and smaller numbers of rich and poor

(think of a bell-shaped curve) to a greater share of benefits accruing to a thin tail of already-rich Americans (a Pareto distribution). With lucid analysis and engaging anecdotes, Martin argues that we must stop treating the economy as a perfectible machine and shift toward viewing it as a complex adaptive system in which we seek a fundamental balance of efficiency with resilience. To

achieve this, we need to keep in mind the whole while working on the component parts; pursue improvement, not perfection; and relentlessly tweak instead of attempting to find permanent solutions. Filled with keen economic insight and advice for citizens, executives, policy makers, and educators, *When More Is Not Better* is the must-read guide for saving

democratic capitalism. *When More Is Not Better* National Middle School Assn Atlanta magazine's editorial mission is to engage our community through provocative writing, authoritative reporting, and superlative design that illuminate the people, the issues, the trends, and the events that define our city.
