Public Life in Renaissance

Florence Abingdon Press  
What role should students  
take in shaping their  
education, their  
university, and the wider  
society? These questions

have assumed new  
importance in recent  
years as universities are  
reformed to become more  
competitive in the “global  
knowledge economy.”

With Denmark as the prism, this book shows how negotiations over student participation — influenced by demands for efficiency, flexibility, and student-centered education — reflect broader concerns about democracy and citizen participation in increasingly neoliberalised states. Combining anthropological and historical research, Gritt B. Nielsen develops a novel approach to the study of policy processes and opens a timely

discussion about the kinds of future citizens who will emerge from current reforms.

Metuchen, N.J. : Scarecrow Press

The field of political science has not given sufficient attention to pedagogy. This book outlines why this is a problem and promotes a more reflective and self-critical form of political science pedagogy. To this end, the author examines innovative work on radical pedagogy such as critical race theory and feminist theory as well as more

traditional perspectives on political science pedagogy. Bridging the divide between this research and scholarship on both teaching and learning opens the prospect of a critical, radical and utopian form of political science pedagogy. With chapters on Socrates, Frantz Fanon, Paulo Freire, Leo Strauss, Sheldon S. Wolin, e-learning, and a prison field trip, this book outlines a new path for political science pedagogy.

The struggle against deadly microbes is

endless. Diseases that have plagued human beings since ancient times still exist, new maladies make their way into the headlines, we are faced with vaccine shortages, and the threat of germ warfare has reemerged as a worldwide threat. In this riveting account, medical historian Howard Markel takes an eye-opening look at the fragility of the American public health system. He tells the distinctive stories of six epidemics—tuberculosis, bubonic plague,

trachoma, typhus, cholera, and AIDS—to show how our chief defense against diseases from outside the United States has been to attempt to deny entry to carriers. He explains why this approach never worked, and makes clear that it is useless in today's world of bustling international travel and porous borders. Illuminating our foolhardy attempts at isolation and showing that globalization renders us all potential inhabitants of the so-called Hot Zone, Markel makes a compelling case

for a globally funded public health program that could stop the spread of epidemics and safeguard the health of everyone on the planet.

Writing First teaches the basics of writing and grammar in the context of students' own writing.

Along with a comprehensive treatment of the process of writing paragraphs and essays, it helps students develop the fundamental writing skills they need to

succeed in college and beyond. By providing students with more help in the areas they most need it -- grammar, ESL, and high-stakes test taking -- the third edition of *Writing First* better addresses the realities of the developmental writing course.

*Improving Sustainability in the Hospitality Industry*  
Duke University Press

How is it that in the twentieth century virtually all Americans came to think of themselves as “middle class”? In this cultural history of real

estate brokerage, Jeffrey M. Hornstein argues that the rise of the Realtors as dealers in both domestic space and the ideology of home ownership provides tremendous insight into this critical question. At the dawn of the twentieth century, a group of prominent real estate brokers attempted to transform their occupation into a profession. Drawing on traditional notions of the learned professions, they developed a new identity—the professional entrepreneur—and a

brand name, “Realtor.” The Realtors worked doggedly to make home ownership a central element of what became known as the “American dream.” Hornstein analyzes the internal evolution of the occupation, particularly the gender dynamics culminating in the rise of women brokers to predominance after the Second World War. At the same time, he examines the ways organized real estate brokers influenced American housing policy throughout the century.

Hornstein draws on trade journals, government documents on housing policy, material from the archives of the National Association of Realtors and local real estate boards, demographic data, and fictional accounts of real estate agents. He chronicles the early efforts of real estate brokers to establish their profession by creating local and national boards, business practices, ethical codes, and educational programs and by working to influence laws from local zoning ordinances to

national housing policy. A rich and original work of American history, *A Nation of Realtors®* illuminates class, gender, and business through a look at the development of a profession and its enormously successful effort to make the owner-occupied, single-family home a key element of twentieth-century American identity. *A Nation of Realtors®* Vintage  
Over the past few years the hospitality industry has become a lot more sustainable than it used to

be. However, the industry's contribution to the sustainable development of our societies is still significantly smaller than it could be. This book specifically addresses the links between operations, tactics and strategy from a sustainable development perspective and moves beyond describing what is to reflect on what could be or even what should be, thus providing students with a concise guide for improving sustainability concepts and businesses

in the hospitality industry. Each chapter uses specific cases and examples to reflect on different ways in which sustainability principles can be used for revisiting the host-guest relationship and improving the industry's business processes and models. In doing so, the book provides current and future professionals with guidelines, inspiration and a call for action to take sustainability within the hospitality industry to the next level, based on inclusiveness, equality and a sustainable

relationship with our natural environment.

The key role that farming plays in the economy of Indiana today owes much to the work of John Harrison Skinner (1874-1942). Skinner was a pioneering educator and administrator who transformed the study of agriculture at Purdue University during the first decades of the twentieth century. From humble origins, occupying one building and 150 acres at the start of his career, the agriculture program grew to spread over ten buildings and 1,000 acres

by the end of his tenure as its first dean. A focused, single-minded man, Skinner understood from his own background as a grain and stock farmer that growers could no longer rely on traditional methods in adapting to a rapidly changing technological and economic environment, in which tractors were replacing horses and new crops such as alfalfa and soy were transforming the arable landscape. Farmers needed education, and only by hiring the best

and brightest faculty could Purdue give them the competitive edge that they needed. While he excelled as a manager and advocate for Indiana agriculture, Skinner never lost touch with his own farming roots, taking especial interest in animal husbandry. During the course of his career as dean (1907-1939), the number of livestock on Purdue farms increased fourfold, and Skinner showed his knowledge of breeding by winning many times at the International Livestock Exposition.

Today, the scale of Purdue's College of Agriculture has increased to offer almost fifty programs to hundreds of students from all over the globe. However, at its base, the agricultural program in place today remains largely as John Harrison Skinner built it, responsive to Indiana but with its focus always on scientific innovation in the larger world.

Sociolinguistics is the study of the interaction between language and

society. In this classic introductory work, Janet Holmes examines the role of language in a variety of social contexts, considering both how language works and how it can be used to signal and interpret various aspects of social identity. Written with Holmes' customary enthusiasm, the book is divided into three sections which explain basic sociolinguistic concepts in the light of classic approaches as well as introducing more recent research. This fourth

edition has been revised and updated throughout using key concepts and examples to guide the reader through this fascinating area, including: - New sections on: koines and koineisation linguistic landscapes New Englishes Stylisation language and sexuality societal approaches to attitude research forensic linguistics - A new selection of informative examples, exercises and maps -Fully updated further reading and references sections An

Introduction to Sociolinguistics is an essential introductory text for all students of sociolinguistics and a splendid point of reference for students of applied linguistics. It is also an accessible guide for those who are simply interested in language and the many and varied uses we put it to. *For the Good of the Farmer* Lulu.com To find more information about Rowman and Littlefield titles, please visit [www.rowmanlittlefield.co](http://www.rowmanlittlefield.co)

Arihant Publications India limited Living Languages is simply bursting with practical and original ideas aimed at teachers and trainee teachers of foreign languages in secondary schools. Written by a team of experienced linguists, this book will inspire and motivate the foreign language classroom and the teachers who work within it. Living Languages comprises eight chapters and is structured around the

integrated classroom, merging language learning with different aspects of the wider curriculum such as multimedia, theatre and music, celebrations and festivals, sport, and alternative approaches to teaching languages. A DVD is also included with the book containing additional teaching materials and the associated films and audio recordings which make this a fully developed and effective teaching resource. Twenty-eight real-life case studies and

projects are presented, all of which have been tried and tested in the classroom with many having won recent educational awards. Ideas and activities outlined in this unique resource include: Languages and multi-media projects involving different uses of technology such as film-making, Digital Storytelling and subtitling in different languages; Languages and theatre and music including the work of the Théâtre Sans Frontières with its Marie Curie Science Project;

Motivating pupils to learn languages whilst keeping fit including examples from Score in French, The German Orienteering Festival and Handball in Spanish; Continuing Professional Development to inspire secondary language teachers to continue their individual professional development. The chapter contains concrete examples of others' experiences in this area and includes details of support organisations and practical opportunities. Each project is explored from

the teachers' perspective with practical tips, lesson plans and reflections woven throughout the text such as what to budget, how to organise the pre-event period, how to evaluate the activity and whom to contact for further advice in each case. Activities and examples throughout are given in three languages – French, German and Spanish.

*Welcome Speeches for Today* Springer

This report looks at improving visitor's access to Parliament, and

assesses what the focus of Parliament's visitor services should be and who should be the main target audience. The report sets out options for varying scales of visitor facilities and what kind of facilities should be provided, and what proposals for change are required. One part of the strategy is to improve public engagement with Parliament with an upgrade of the Parliamentary website. Also an upgrade of the new visitor route through the Visitor Reception

Building and Westminster Hall, along with a better welcome for visitors. Further, initiatives to explain the work of the select committees to the media, along with outreach programmes to schools and the wider public. The Committee is sceptical of the value for money of a full-scale visitor centre, and states that existing strategies, such as improved educational facilities about Parliament and its' working would provide better engagement with the public. School trips to

Parliament would be the best means of communicating the work and history of the institution. The Committee recommends improved facilities for the Parliamentary Education Service.

**Principles of Speech Communication** Purdue University Press

At long last here is a textbook for the basic public speaking course--one that integrates a Christian worldview with up-to-date scholarship in the field of communication.

Proclamation! covers the standard speech types: informative speech, persuasive speech, and ceremonial speech. In addition, Blake J. Neff recognizes that Christians need to know how to deliver an edifying speech and a personal testimony speech. Neff acknowledges that one of the reasons to study public address at the university level is that God has commanded His people to "always be prepared to give an account" (1 Peter 3:15). Proclamation! prepares

Christians to speak not only as one to many but also as members of interpersonal or small groups. Christian teachers of public speaking will appreciate the assistance this book offers toward integrating faith with learning. Students will applaud the practical and readable approaches found in Proclamation!

Based on in-depth

research and interviews with 30 tribal elders, this guidebook to whaikorero—or New Zealand's traditional Maori oratory—is the first introduction to this fundamental art form. Assessing whaikorero's

origin, history, structure, language, and style of delivery, this volume features a range of speech samples in Maori with English translations and captures the wisdom and experience of the Maori tribal groups,

including Ngai Tuhoe, Ngati Awa, Te Arawa, and Waikato-Maniapoto. Informative and noteworthy, this bilingual examination will interest both modern practitioners of whaikorero and Maori culture aficionados.
