The art of sumi-e, which means "ink picture," combines calligraphy and ink-painting to produce brush painting compositions of rare beauty. This beauty is paradoxical—ancient but modern, simple but sophisticated, bold but subdued—no doubt reflecting the art's spiritual basis in Zen Buddhism. At the same time, sumi-e painting is firmly rooted in the natural world, its various techniques serving as the painter's language for describing the wonders of nature. Buddhist priests brought the ink stick and the bamboo-handled brush to Japan from China in the sixth century, and over the past fourteen centuries, Japan has developed a rich heritage of ink-painting. Today the artistry of sumi-e can be admired in books, reproductions, and museums, but the techniques of the art have been much less accessible. As a result, little information has been available to the inquisitive Western artist attracted to Japanese sumi-e. This book, designed to help remedy that deficiency, is the product of the author's study with her teacher, Ukai Uchiyama, master calligraphist and artist. It contains extensive explanations of technique as well as detailed painting instructions and diagrams.

Chinese painting is an ancient art that has evolved and become refined over many centuries. Artists brush ink and color pigments onto silk or paper using a variety of techniques, with two main approaches: gongbi a traditional and realistic style based on line drawing, and xieyi style, a freehand method that uses fewer strokes

to suggest objects in a less literal way. Painting themes generally fall into three categories: figure, landscaping, and bird-and-flower. Chinese brush painting is mainly presented in lines, shades and white space to express the feelings about nature, social phenomena, and the very essence of the universe. The framework for this expression is often traditional: certain subjects carry cultural connotations that are well-known and imbue the painting with a layer of meaning beyond face value of objects shown. The traditional subjects such as mandarin ducks, butterflies, and the 'Four Gentlemen' (plum blossoms, orchids, bamboos, and chrysanthemum) are examples that contain this rich cultural meaning. Readers will learn first about the tools and materials, then painting techniques. Early pages explore the very basic painting methods and subjects—perfect for beginning painters—but continue to build skills for painting plants and animals of increasing complexity. Chinese Brush Painting illustrates several Chinese brush painting techniques with the use of different tools, brushwork and color mixing. With the step-by-step projects, you can first follow the introductory lessons to learn the necessary skills of brushwork, usage of paper, and characteristics of water, ink and colors; then follow the advanced lessons to learn the compositions and more complicated color applications.
