Child/Family friendly questions: No sensitive topics are asked about within this book. Keep Score: Optional scoring system to measure your quizzing ability! Tackle the quiz alone, with your partner, or make it a social event with your friends and family! Quizzes are great on commutes, and long drives - and equally as great as a social fun event

for friends and family. You cannot go wrong with a quiz night! This book makes a perfect gift for adults and children with an interest in geography. Recommend age 12+ Question topics within The Ultimate Geography Quiz include, but not limited to: Country and continent names, size, borders and locations respective to each other. Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to

each other City, building, landmark and capital city names and location.

Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical

Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in

Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it

may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
