Countless studies of the American West have been written from the viewpoint of history, psychology, sociology, and anthropology. But the West has seldom been written about with the reflective pen of a philosopher. Offering more than a fresh retelling, in thoroughly human terms, of the major historical events of the nineteenth-century West, Gerald Kreyche also leads the reader in a search for the spirit of the West itself. That spirit was one with the American Dream, which offered freedom, individualism, and self-sufficiency to those strong enough and gutsy enough to heed the call of Manifest Destiny. Although the West was and is the most American part of America itself, its natural wonders, its spacious grandeur, its myths and mystique have captured the hearts and imaginations of people the world over. We have all experienced the quickened pulse at the mention of things indelibly western—tumbleweed, mountain men, high plains, cowboys and Indians, sod houses, coyotes, and grizzlies. And who doesn't react to such bigger-than-life figures as Jim Bridger, Buffalo Bill, George

Armstrong Custer, Sitting Bull, and Crazy Horse? The personal humdrum of our times rapidly disappears when, through the magic of western films, TV shows, and books, we vicariously lose ourselves and then find ourselves in the American West of a bygone time. The West, then, produced a quasi-separate culture. And, as each culture must, it gave birth to its own ethos, its own special character, its own tone and set of guiding beliefs. Kreyche contends that in the process of "westerling," the veneer of the sophisticated easterner was sloughed off, leaving in sharp outline the frontiersman and the pioneer. In their own manner, these men and women produced a new species of homo americanus.

distinguished." Medal books enjoy an outsized influence on American children's literature, figuring perennially on publishers' lists, on library and bookstore shelves, and in school curricula. As such, they offer a compelling window into the history of US children's literature and publishing, as well as into changing societal attitudes about which books are "best" for America's schoolchildren. Yet literary scholars have disproportionately ignored the Medal winners in their research. This volume provides a critically- and historically-grounded scholarly analysis of representative but understudied Newbery Medal books from the 1920s through the 2010s, interrogating the disjunction between the books' omnipresence and influence, on the one hand, and the critical silence surrounding them, on the other. *Dust Off the Gold Medal* makes a case for closing these scholarly gaps by revealing neglected texts' insights into the politics of children's literature prizing and by demonstrating how neglected titles illuminate critical debates currently central to the field of children's literature. In particular, the essays shed light on the hidden elements of diversity apparent in the neglected Newbery canon while illustrating how the books respond—sometimes in quite subtle ways—to contemporaneous concerns around race, class, gender, disability, nationalism, and globalism.

The Cosmopolitan NATIONAL BESTSELLER A unique, unfiltered memoir from the NBA champion and fifteen-time all-star ahead of his induction into the Hall of Fame. Kevin Garnett was one of the most dominant players the game of basketball has ever seen. He was also one of its most outspoken. Over the course of his illustrious twenty-one-year NBA career, he elevated trash talk to an art form and never shied away from sharing his thoughts on controversial subjects. In *KG A to Z*, published ahead of Garnett's induction into the Basketball Hall of Fame, he looks back on his life and career with the same raw candor. Garnett describes the adversity he faced growing up in South Carolina before ultimately relocating to Chicago, where he became one of the top prospects in the nation. He details his headline-making decision to skip college and become the first player in two decades to enter the draft directly from high school, starting a trend that would be followed by future superstars like Kobe Bryant and LeBron James. He shares stories of playing with and against Bryant, James, Michael Jordan, and other NBA

greats, and he chronicles his professional ups and downs, including winning a championship with the Boston Celtics. He also speaks his mind on a range of topics beyond basketball, such as fame, family, racism, spirituality, and music. Garnett's draft decision wasn't the only way he'd forever change the game. His ability to play on the perimeter as a big man foreshadowed the winning strategy now universally adopted by the league. He applies this same innovative spirit here, organizing the contents alphabetically as an encyclopedia. If you thought Kevin Garnett was exciting, inspiring, and unfiltered on the court, just wait until you read what he has to say in these pages. Sunset Voyageur Press

A vivid, searching journey into California's capture of water and soil—the epic story of a people's defiance of nature and the wonders, and ruin, it has wrought *Mark Arax* is from a family of Central Valley farmers, a writer with deep ties to the land who has watched the battles over water intensify even as California lurches from drought to flood and back again. In *The Dreamt Land*, he travels the state to explore the one-of-a-kind distribution system, built in the 1940s, '50s and '60s, that is straining to keep up with California's relentless growth. *The Dreamt Land* weaves reportage, history and memoir to confront the "Golden State" myth in riveting fashion. No other chronicler of the West has so deeply delved into the empires of agriculture that drink so much of the water. The nation's biggest farmers—the nut king, grape king and citrus queen—tell their story here for the first time. *Arax*, the native son, is persistent and tough as he treks from desert to delta, mountain to valley. What he finds is hard earned, awe-inspiring, tragic and revelatory. In the end, his compassion for the land becomes an elegy to the dream that created California and now threatens to undo it.

A brilliant virtuoso of violence, Richard Marcinko rose through Navy ranks to create and command one of this country's most elite and classified counterterrorist units, SEAL TEAM SIX. Now this thirty-year veteran recounts the secret missions and Special Warfare madness of his worldwide military career -- and the riveting truth about the top-secret Navy SEALs. Marcinko was almost inhumanly tough, and proved it on hair-raising missions across Vietnam and a war-torn world: blowing up supply junks, charging through minefields, jumping at 19,000 feet with a chute that wouldn't open, fighting hand-to-hand in a hellhole jungle. For the Pentagon, he organized the Navy's first counterterrorist unit: the legendary SEAL TEAM SIX, which went on classified missions from Central America to the Middle East, the North Sea, Africa and beyond. Then Marcinko was tapped to create Red Cell, a dirty-dozen team of the military's most accomplished and decorated counterterrorists. Their unbelievable job was to test the defenses of the Navy's most secure facilities and installations. The result was predictable: all hell broke loose. Here is the hero who saw beyond the blood to ultimate justice --

and the decorated warrior who became
