#### About Language Cambridge University Press

Students thrive in classrooms where they feel safe, welcome, and supported. Building a sense of community and teamwork is an effective means of facilitating student success. Burns skillfully blends community-building activities with real classroom content, providing students with opportunities to practice language skills while acclimatizing to the classroom. While intended primarily for language arts and English as a second language classrooms, Burns's activities readily adapt to a range of disciplines and age groups. Beginning with a section on setting classroom and instructor expectations, Burns moves on to team-building exercises focused on lesson content. His section on getting-to-know-you activities is designed to foster a sense of belonging, while the five get-to-know-your-teacher exercises introduce you to your students in a fun, relaxed manner. Supported by information on material requirements, time limits, and resources, Classroom Community Builders provides handouts and worksheets, available both within the book and online, offering new ideas to experienced and novice instructors alike.

The field of Second Language Teacher Education (SLTE) is mainly concerned with the professional preparation of L2 teachers. In order to improve teaching in the multilingual and multicultural classroom of the 21st century, both pre- and in-service L2 teachers as well as L2 teacher educators must be prepared to meet the new challenges of education under the current circumstances, expanding their roles and responsibilities so as to face the new complex realities of language instruction. This volume explores a number of key dimensions of EFL teacher education. The sixteen chapters discuss a wide variety of issues related to second language pedagogy and SLTE. Topics discussed include the importance of SLA research; competency-based teacher education approach; classroom-based action research; SLTE models; the value and role of practicum experience abroad; the models of pronunciation teaching; multicultural awareness and competence; the influence of teachers' cognitions, emotions and attitudes on their emerging and changing professional identities; the potential of classroom materials and technology; and CLIL and ESP teacher education.
