"In Bankrupt in America, Mary and Brad Hansen show that examination of how Americans have used bankruptcy law and the history of the law itself offers important perspective on the history of bankruptcy in America. Using new statistical and

documentary evidence, they illustrate the cycles of interaction between bankruptcy law's use and its own evolution. The authors first offer a broad overview of the laws at various levels governing the collection of debt and position their research in the literature on bankruptcy. They establish the need for a framework that integrates various lines of thought, and introduce of the methods of their approach, which incorporates new institutional economics

and cliometrics, that is, the incorporation of econometric data analysis. They then illustrate the general path to bankruptcy by discussing the series of decisions that creditors and debtors make at every stage and how various formal and informal institutions influence these decisions. The core of the book will comprise a generally chronological narrative from 1898, when the first major federal bankruptcy law was enacted to an end point of 2005. Hansen

and Hansen reach novel conclusions about causes and consequences of bankruptcy and raise nuances in the relationship between bankruptcy rates and economic growth. For instance, while higher bankruptcy rates are usually considered a negative, the authors show that higher bankruptcy may actually signal economic growth if it is due to an expansion of credit markets. Further, the authors contribute to our understanding of what drives differences in

bankruptcy rates among states by illustrating the influence of the broader legal framework. Ultimately, this work find that long-run growth in personal bankruptcy is the result of growth in credit and that the study of legal governance provides useful viewpoints from which to draw out patterns in bankruptcy"-- *Examples & Explanations for Sales and Leases* Considers. Supreme Court Record on Appeal

A complete and well-documented review of contract law in China. This in-depth introduction to the law of contracts of Mainland China was written for Western lawyers who have contacts with the People's Republic of China, for scholars and students of

comparative law or of Sinology. As stated above the book is merely an introduction, not a technical legal treatise for specialised private lawyers. It is therefore useful for businessmen too. Without using stale language, this work also places the law of contractual obligations in an historical and socio-political context. It sketches, besides the general theory of contractual obligations and the provisions on the several specific contracts, the Chinese case law on

international sales contracts, as well as the law on the dispute resolution. It can be said that with regard to the private law the book opens a window on the continental Chinese legal culture, as Zweigert and Kötz would call it. An essential handbook for all lawyers who wish to be fully involved in international relationships

ABOUT THE AUTHOR

Jacques H. Herbots devoted his PhD thesis to African law. Thereafter, for many years he taught contracts, obligations and

comparative law at the renowned university of Louvain. Besides his main tasks as a professor, he kept feeling the pulse of the living law as a deputy judge, as an assessor in the Belgian Council of State and as a member of the High Council for the Judiciary. He is currently still arbitrator in the Belgian Centre for Arbitration and Mediation, and he was appointed to

the panel of the CIETAC in Beijing. Ever since a visit to the People's Republic in 1974, one may safely say he has been fascinated by the Empire of the Middle. *Consumer Protection Legislation for D.C.
