The target audience for the book includes policy-makers, practitioners, administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book focuses on the state of education and on the levels of inequality among gender, rural-urban and social groups. Taking into account the various findings from existing literature on the qualitative and quantitative aspects of education, it uses empirical findings based on a revised methodology to draw new conclusions. This revised method was devised to define the size of population eligible for enrollment and was then employed to estimate the Gross Enrollment Rate (GER) and Gross Literacy Rate (GLR) at various completed education levels, using age-wise data from the Population Census, 2011. This methodology is based on the concept that among those eligible for enrollment/literacy, a few never get chance to enrol and others achieve various levels of literacy by remaining engaged in formal or informal education up to various ages. The book comes up with findings that have deep significance so far as policy making is concerned towards improving the state of education in India. There are fourteen hypotheses that the book proposes based on the study and each hypothesis is accompanied with policy suggestions. Interestingly, one of the hypotheses is that arbitrariness of government policies creates more problems and, as such, before proposing a policy change the government needs to put in more effort and time in planning and come up with carefully chalked out processes. In addition to being a valuable resource for researchers working in this area, the book has huge policy implications and think tanks working towards improving education in India.

Melody Janie is hidden. Whether alone in her caravan in Bones Break or spying on the tourists who walk the Cornish cliffs she calls her own, she sees everything and yet remains unknown. When a stranger, Richard Brown, enters her life she is forced to confront both him but also the terrible tragedies of her past. Culminating in an unexpected twist, *The Lip* is an ultimately hopeful debut novel exploring themes of childhood, isolation and mental health, told in the unique and unforgettable voice of Melody Janie.'All of this is Bones Break. All of this is mine. I know every inch of it; I know it as intimately as the seagulls. I stand at dead-centre, my feet teetering on the edge of the lip. Below, the thundering tattoo of waves on rock. Wind catches the tips of my hair, lifting them above my ribs: less force than it takes to knock me down; enough to make me right myself with a step to the left, and then another back again. Here on the lip, it is vital to know where my feet are.'
