Praised by the New Yorker and New York magazine, Saul Austerlitz’s fascinating behind-the-scenes look at Friends, is, according to Newsweek, the “next best thing” to a cast reunion. In September 1994, six friends sat down in their favorite coffee shop and began bantering about sex, relationships, jobs, and just about everything else. A quarter of a century later, new fans are still finding their way into the lives of Rachel, Ross, Joey, Chandler, Monica, and Phoebe, and thanks to the show’s immensely talented creators, its intimate understanding of its youthful audience, and its reign during network television’s last moment of dominance, Friends has become the most influential and beloved show of its era. Friends has never gone on a break, and this is the story of how it all happened. Noted pop culture historian Saul Austerlitz utilizes exclusive interviews with creators David Crane and Marta Kauffman, executive producer Kevin Bright, director James Burrows, and many other producers, writers, and cast members to tell the story of Friends’ creation, its remarkable decade-long run, and its astonishing Netflix-fueled afterlife. Readers will go behind the scenes to hear from the people who were present as the show was developed and cast, written and filmed. There will be talk of trivia contests, prom videos, trips to London, Super Bowls, lesbian weddings, wildly popular hairstyles, superstar cameos, mad dashes to the airport, and million-dollar contracts. They’ll also discover surprising details—that Monica and Joey were the show’s original romantic couple, how Danielle Steel probably saved Jennifer Aniston’s career, and why Friends is still so popular that if it was a new show, its over-the-air broadcast reruns would be the ninth-highest-rated program on TV. The show that defined the 1990s has a legacy that has endured beyond anyone’s wildest expectations. And in this hilarious, informative, and entertaining book, readers will now understand why.

In August 2004 a lonely married man with four children made an anonymous post to an on-line forum that he was gay. A month later he came out to his wife. Unflinchingly honest, Lester writes his memoirs of the following 22 months. He knew that by simply removing the barriers that had kept him closeted for over 30 years he would most likely destroy his marriage and alienate his children as he navigated the risks associated with a typical 'gay adolescence'. Lester describes in detail how he relied solely upon his core values and used boundaries instead of barriers to define his new life. In the end, it would appear that nothing had changed. He was still married, still had a tightly knit family, and was still gay. But nothing was the same. His relationship with his wife is so vastly improved that he no longer considers it the same marriage, his relationship with his children has been redefined, and the allure of gay sexual activity has abated and been replaced by healthy friendships with several men, both gay and straight. He no longer has Forbidden Friends.

When Love Stands Still, Move On!, is the story of all women living in relationships with men, the same men, for years, with no ring or marriage in sight. If you asked them why, they would probably not have an answer; they could not begin to explain, except to say, because I love him.When we fall in love, when we become comfortable with someone, and when we give our hearts completely to that person, we find ourselves doing so many things that we just can't explain; things that we will probably one day regret.Very few women can honestly say that the ring and the marriage are not important to them after being in a long term relationship. It's what we tell ourselves to get through the reality that, after years, the man that we've loved for so long has never asked us to marry and maybe never will.When a woman commits herself to loving a man for a long period of time; for years, and he does not ask her to marry him it's as if he is saying to her, the woman whose life he has coveted, whose body he has made use of, and whose love he has

accepted for years, that she is not worthy of marriage. For those women who are living in a life long courtship, you are not alone. This is the story of Gabriela Tymes. Like so many other women, Gabriela has been in a relationship with the same man for years, with no ring, no marriage and no asking in sight. His name is Donovan.

'There's never been a more honest or raw memoir ... and it may just save lives' Daily Mail 'Funny, fascinating, compelling ... also a wonderful read for fans of Friends' The Times The beloved star of Friends takes us behind the scenes of the hit sitcom and his struggles with addiction in this candid, funny, and revelatory memoir that delivers a powerful message of hope and persistence. 'Hi, my name is Matthew, although you may know me by another name. My friends call me Matty. And I should be dead.' So begins the riveting story of acclaimed actor Matthew Perry, taking us along on his journey from childhood ambition to fame to addiction and recovery in the aftermath of a life-threatening health scare. Before the frequent hospital visits and stints in rehab, there was five-year-old Matthew, who travelled from Montreal to Los Angeles, shuffling between his separated parents; fourteen-year-old Matthew, who was a nationally ranked tennis star in Canada; twenty-four-year-old Matthew, who nabbed a coveted role as a lead cast member on the talked-about pilot then called Friends Like Us. . . and so much more. In an extraordinary story that only he could tell - and in the heartfelt, hilarious, and warmly familiar way only he could tell it - Matthew Perry lays bare the fractured family that raised him (and also left him to his own devices), the desire for recognition that drove him to fame, and the void inside him that could not be filled even by his greatest dreams coming true. But he also details the peace he's found in sobriety and how he feels about the ubiquity of Friends, sharing stories about his castmates and other stars he met along the way. Frank, self-aware, and with his trademark humour, Perry vividly depicts his lifelong battle with addiction and what fuelled it despite seemingly having it all. Friends, Lovers, and the Big Terrible Thing is an unforgettable memoir that is both intimate and eye-opening - as well as a hand extended to anyone struggling with sobriety. Unflinchingly honest, moving, and uproariously funny, this is the book fans have been waiting for. 'An unflinching and often harrowing must-read for 90s pop culture fans' Guardian 'Written with Chandler's trademark sarcasm and self-deprecation' Telegraph 'A hopeful read ... I started to think of [it] not as a celebrity memoir about addiction, but as an addiction memoir written by a man who understands his own history through the prism of showbiz' Independent

All My Friends Are Dead Penguin

Mitchard's 'Still Summer' plunges into terror By Carol Memmott, USA TODAY Secure your life preserver. Tie yourself to the mast. It's late August, but it's still summer, and Jacquelyn Mitchard is taking you on a thrill ride you won't forget. Mitchard made her mark in the literary world in 1996 when *The Deep End of the Ocean* was chosen as the first pick for Oprah Winfrey's now-legendary book club. Since then, she has written six other novels, but none matches the suspenseful pitch of *Still Summer*. It's a tale of terror on the high seas, but this is no *Pirates of the Caribbean* wannabe. Readers know something terrible is going to happen, but Mitchard ratchets up the suspense by

allowing her story to unfold at a leisurely pace. She painstakingly fleshes out her characters, because as readers will discover, their temperaments and personalities are as crucial to the story as the mounting disasters. Tracy Kyle, Holly Solvig and Olivia Montefalco, lifelong friends in their early 40s, charter a yacht and two-man crew for a sailing vacation that will take them from St. Thomas to Grenada. The trip starts out as an innocent adventure in paradise until two accidents in quick succession strand the women without their crew. What else can go wrong? In a word, everything. The engine conks out, the sails are torn, lack of electricity spoils their food and limits their drinking water - and then there's the injury to Holly's leg. Nature's fury, murderous drug dealers and, possibly most deadly of all, their own frailties and secrets are added to the list. Readers will wring their hands with frustration, weep with sadness and second-guess the choices these women make. But since characters must do the bidding of the authors who create them, we can only sit back - or sit on the edge of our seats - and let Mitchard's terror-filled tale wash over us. Side-by-side, time-lapse photos and interviews, separated by twenty-five years, of people serving life sentences in prison, by the bestselling author of *The Little Book of Restorative Justice* "Shows the remarkable resilience of people sentenced to die in prison and raises profound questions about a system of punishment that has no means of recognizing the potential of people to change." —Marc Mauer, senior adviser, The Sentencing Project, and co-author (with Ashley Nellis) of *The Meaning of Life* "Life without parole is a death sentence without an execution date." —Aaron Fox (lifer) from *Still Doing Life* In 1996, Howard Zehr, a criminal justice activist and photographer, published *Doing Life*, a book of photo portraits of individuals serving life sentences without the possibility of parole at a prison in Pennsylvania. Twenty-five years later, Zehr revisited many of the same individuals and photographed them in the same poses. In *Still Doing Life*, Zehr and co-author Barb Toews present the two photos of each individual side by side, along with interviews conducted at the two different photo sessions, creating a deeply disturbing tableau of people who literally have not moved for the past quarter century. In the tradition of other compelling photo books including Milton Rogovin's *Triptychs* and Nicholas Nixon's *The Brown Sisters*, *Still Doing Life* offers a riveting longitudinal look at a group of people over an extended period of time—in this case with devastating implications for the American criminal justice system. Each night in the United States, more than 200,000 men and women incarcerated in state and federal prisons will go to sleep facing the reality that they may die without ever returning home. There could be no more compelling book to challenge readers to think seriously about the consequences of life sentences.
