Pink has become the hottest color in interiors. Quartz Pink was the Pantone color of 2016 and since then the hue has gone from strength to strength, playing a starring role at the 2018 Milan Design Week. "From advertising to design and fashion, millennial pink has taken popular culture by storm, and it isn't

going anywhere." House & Garden Pink House Living is a beautiful, practical guide to decorating with pink by Emily Murray of the award-winning The Pink House blog. Emily draws on her recent interiors projects to guide the reader through their own rose-tinted renovations and includes case studies on well-known interiors experts that reveal their use of pink, their go-to paint shades and where they glean "pinkspiration". Pink House Living is not about decorating your home in pink from rooftop to rugs, but a look at how the color can be used alongside other hues—sometimes sparingly, sometimes in spades. Divided up by room, the book uses the color pink and its history as a starting point from which to discuss the decorating process. Readers will be

entertained by Emily's interiors insights and witty turn of phrase while gaining invaluable advice on adding pink—and color in general—to their homes.

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance

capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises

of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

It's the trip of a lifetime—a textile-based tour of colorful Rajasthan, India featuring more than 200 lush photographs depicting everyday life in one of the most vibrant regions in the world. "Get lost in the beauty of the photographs in *Patterns of India*, a striking journey through the colorful Indian state of

Rajasthan.”—BuzzFeed Patterns of India is a visual experience that offers intimate insights into the diverse and richly hued Western Indian culture. Color is the thread that binds the vast country together, defining every aspect of life from religion and politics to food and dress. Organized by the five dominant colors royal blue, sandstone, marigold, ivory, and rose, this book explores how deeply color and pattern exist in a symbiotic relationship and are woven into every part of the culture. For instance, the fuchsia found in the draping fabric of a sari is matched by the vibrant chains of roses offered at temple, and the burnt orange spices in the marketplaces are reflected in the henna tattoos given to brides and wedding guests. While every color is imbued with

meaning, it is often within the details of patterns that the full story comes to light. Photographer and writer Christine Chitnis spent over a decade traveling through, getting to know, and falling in love with the intricate patterns of everyday Rajasthani life. With history and culture-based essays woven throughout the more than 200 stunning photographs of architecture, markets, cuisine, art, textiles, and everyday goings-on, Patterns of India captures the beauty and essence of this unique part of the world.

Carolyn Westbrook is a designer and decorator whose love affair with French styling began long before she ever traveled to France. Growing up in the US, her Southern heritage was infused with

French influencesâ€”from the chic elegance of New Orleans to the romance of southern plantation houses. Carolynâ€™s subsequent journeys to France have only fueled her passion for French interiors and have influenced her designs and interiors ever since. â€œThe French Inspiredâ€ has become her own signature style. Carolynâ€™s stunning plantation house, a sleek urban apartment, and a classically elegant town house showcase a variety of distinct styles that will leave you enamored with all that is French. Whether she has used a distressed and gilded mirror that oozes elegance, or a faded and frayed rug that exudes rustic charm, all of these ideas are essentially â€œFrenchâ€ in their inspiration. Carolyn Westbrook prides herself on

these classic and timeless French-inspired interiors, and rather than reflecting the latest trends, she hopes they inspire longevity and a true romance with your own home. The French have mastered the art of this time-worn, yet sophisticated, style of living, and you too will fall in love with the colors, the textures, and the inspiration that is truly French. *Bloom Wild* W. W. Norton & Company Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender

and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

Follow this unique programme to discover the joy of living with less items and discover how liberating and fulfilling life becomes when you learn to live with less. The premise of this book is simple: if you don't love it, lose it! Many people think that the more they own, the more contented and happy they will be - their lives become defined by their possessions. In fact, the opposite is often true: the more we have, the less happy and contented we are in mind, body and spirit. Decluttering expert Mary Lambert explains how having too much clutter can stop you moving forward in life, and

how learning to let go of items we neither love or need is liberating and fulfilling. The challenge starts with an inventory of your personal possessions, then you begin the process of clearing out your items, addressing each area at a time, from clothes, to jewellery, to hobby items. Once you've tackled your personal items, you can get started on the rest of your household goods.

The Joy of Living with Less Clarkson Potter Publishers

From the New York Times bestselling author of *Little Brother*, Cory Doctorow, comes *Pirate Cinema*, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling

footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that to happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media

conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

All That Glitters Ryland Peters & Small
If the soaring quotes of Elizabeth Gilbert, Marianne Williamson and other contemporary and classic creative luminaries were to fly together in a

beautifully minimalist landscape amongst vintage-inspired dresses, holy boots and top hats, you would have this book. Part memoir, part fairy tale and all inspiration, Magnolia Pearl's "And the Stars go With You" is far beyond your typical fashion tome. Delving deep into creator-visionary Robin Brown's childhood, influences and ethos, the book is a vital volume on a mission to spark a revolution. The fashion is featured in context amidst landscapes and showrooms dotting the countryside in Fredericksburg, Texas that Brown and the Magnolia Pearl family inhabit. 240 pages of images richly convey Magnolia Pearl's aesthetic as a sense of time and

place as opposed to a blip on the radar of an industry. Timely quotes from beloved masters and contemporary seers tie the pages together into a narrative with the feel of a movement; contributions from Magnolia Pearl's rebel sidekicks such as Donavon Frankenreiter sail this movement further towards the horizon. Magnolia Pearl is a "horizontal" brand-a work in progress instead of a destination, an elusive sense of a beauty that adheres to a curve even as others insist on a line. "And the Stars go With You" is a pair of binoculars and a backstage pass to the journey. You're already on it anyway, might as well bring a friend.
