An NYRB Classics Original First published in 1956, Zama is now universally recognized as one of the masterpieces of modern Argentine and Spanish-language literature. Written in a style that is both precise and sumptuous, weirdly archaic and powerfully novel, Zama takes place in the last decade of the eighteenth century and describes the solitary, suspended existence of Don Diego de Zama, a highly placed servant of the Spanish crown who has been posted to Asunción, the capital of remote Paraguay. There, eaten up by pride, lust, petty grudges, and paranoid fantasies, he does as little as he possibly can while plotting his eventual transfer to Buenos Aires, where everything about his hopeless existence will, he is confident, be miraculously transformed and made good. Don Diego's slow, nightmarish slide into the abyss is not just a tale of one man's perdition but an exploration of existential, and very American, loneliness. Zama, with its stark dreamlike prose and spare imagery, is at once dense and unforeseen, terse and fateful, marked throughout by a haunting movement between sentences, paragraphs, and sections, so that every word seems to emerge from an ocean of things left unsaid. The philosophical depths of this great book spring directly from its dazzling prose.

ACT - Adjunct compensatory Training for rock climbers: climbers' compensation training with a medical foundation Adjunct compensatory Training focuses on training the neglected muscle slings and innervation patterns within their specific range of motion, building up posture and core strength as well as balancing the athletic build of the body. The ACT concept was inspired by our long-time cooperation with high-level athletes. We combine our sports-medical and trainings-methodical knowledge to effectively prevent injuries and overstrain. Volker Schöffl, as the MD in the group, analyses the body from a sports-medical and biomechanical point of view. With his vast knowledge of climbing injuries (Volker Schöffl, Thomas Hochholzer, Sam Lightner Jr. "One Move Too Many") and as a highly active avid climber, he understands why certain conditions could and do lead to injuries in the long-term. Dicki and Patrick are world-renowned climbing trainers and coaches. Coming from a top-level climbing background themselves, they focus on climbing-specific training ("Gimme Kraft", "Kraftfactory") and biomechanical analysis of climbing. Weaknesses in certain climbers which can be reduced through specific and adjunct training are frequently revealed by the biomechanical aspects. Combining our two fields of expertise, we have collaborated to create Adjunct compensatory Training, which aims to rebuild neglected range of motion in muscle slings and to improve neuromuscular innervation patterns. Thus, it will help you to better withstand specific climbing training and reduce injury and the risk of overexertion. The ACT concept was born in 2015 and has been consistently developed further within our group since then. In our daily work with both elite athletes and "normal" climbers, we perpetually evaluated, restructured and remodelled our exercises, structuring and fine-tuning a program which we find most effective.

Steep verdant rice terraces, ancient rainforest and fire-breathing volcanoes create the landscape of the world's largest archipelago. Indonesia is a travellers' paradise, with cuisine as vibrant and thrilling as its scenery. For these are the original spice islands, whose fertile volcanic soil grows ingredients that once changed the flavour of food across the world. On today's noisy streets, chilli-spiked sambals are served with rich noodle broths, and salty peanut sauce sweetens chargrilled sate sticks. In homes, shared feasts of creamy coconut curries, stir-fries and spiced rice are fragrant with ginger, tamarind, lemongrass and lime. The air hangs with the tang of chilli and burnt sugar, citrus and spice. Eleanor Ford gives a personal, intimate portrait of a country and its cooking, the recipes exotic yet achievable, and the food brought to life by stunning photography.

If Kant had never made the "critical turn" of 1773, would he be worth more than a paragraph in the history of philosophy? Most scholars think not. But this text challenges that view by revealing a precritical Kant who was immensely more influential than the one philosophers think they know.

"An artist lives not only in a world of fantasy, but also in reality." Incorporating an unusual variety of influences, the work of Eko Nugroho (b. Yogyakarta, Indonesia, 1977; lives and works in Yogyakarta) envisions art as a participative process. Meandering between street art, traditional crafts, theater, comic strips, painting, and sculpture, the artist articulates a gentle yet insistent political critique. To convey his ideas, he marshals pink composite beings, lizard-like creatures, and infantile monsters that suggest theneoliberal alienation of our globalized society. Inventively mixing a range of media, Nugroho scrutinizes the structures of Indonesian society, visions of urban life, or forms of intergenerational community. Nugroho's presentation in the Indonesian pavilion at the 55th Venice Biennale first brought him to the attention of European audiences. Nugroho's second monograph documents his creative evolution over the past eight years and is the first book to include the numerous collaborative side projects on which he worked with the curator Enin Supriyanto. With an essay by Lisa Catt, a series of explanatory notes, a conversation with the artist by Matthias Arndt, and a foreword by Adelina Luft.

Weimar Germany Between Two Worlds New York Review of Books

This 1988 book examines the genesis and dissemination of the Italian madrigal in its formative stages. Iain Fenlon and James Haar have analysed this vast repertoire as it is found in manuscript and print offer information concerning the date and provenance of many fundamental sources together with a view of the subject which differs radically from previous treatments. Their study is divided into two parts. The first covers the rise and early cultivation of the madrigal, chiefly in Florence and Rome. The second contains a detailed descriptive inventory of all known manuscripts and printed editions, finishing with lists of contents and concordances in each case. This important study will serve those with an interest in Renaissance music and the changing cultural ambience of early sixteenth-century Florence and Rome.

During the interwar period America and Russia provided German travel writers with opposing visions

of Germany's future, as well as blank screens for the projections of their hopes and anxieties. The travel literature genre allowed authors and readers to approach Weimar Germany's social issues from a psychologically safe distance. This is the first book to analyze the American and Russian travels of Kisch, Toller, Holitscher, Goldschmidt, and Rundt from a psychogeographic and imagologic perspective. It is a work of particular interest to researchers and students of travel literature, cultural studies, the construction and perception of the «other, » and literary psychology.
