The Tragical History of the Life and Death of Doctor Faustus
Nazarene Publishing House

Since 9/11 politicians, preachers, conservatives and the media are all speaking about evil. In the past the dicourse about evil in our religious, philosophic and literary traditions has provoked thinking, questioning and inquiry. But today the appeal to evil is being used as a political tool to obscure complex issues, block serious thinking and stifle public discussion and debate. We are now confronting a clash of mentalities, not a clash of civilisations. One mentality is drawn to absolutes, moral certainties, and simplistic dichotomies of good and evil. The other seriously questions an appeal to absolutes in politics and criticizes the simplistic division of the world into the forces of evil and the forces of good. In *The Abuse of Evil* Bernstein challenges the claim that without an appeal to absolutes, we lack the grounds for acting decisively in fighting our enemies. The post 9/11 abuse of evil corrupts both democratic politics and religion. The stakes are high in this clash of mentalities in shaping how we think and act in the world today - and in the future.

The power of the commons as a free, fair system of provisioning and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. Free, Fair, and Alive presents a foundational re-thinking of the commons — the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. Free, Fair, and Alive provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.

Feynman's Rainbow Image

Some of the brightest minds in science have passed through the halls of the California Institute of Technology. In the early 1980s, Leonard Mlodinow joined their ranks to begin a postdoctoral fellowship. Afraid he was not smart enough to be there, despite his groundbreaking Ph.D. thesis, he took his insecurities to Richard Feynman, Caltech's intimidating resident genius and iconoclast. So began a pivotal year in a young man's life. Though a series of fascinating exchanges, Mlodinow and Feynman delve into the nature of science, creativity, love mathematics, happiness, God, art, pleasures and ambition, producing a moving portrait of a friendship and an affecting account of Feynman's final creative years.

This book, first published in 1945, is a fascinating personal account of the late U.S. Ambassador to Spain Carlton J. H. Hayes' diplomatic mission in Spain during World War II, from May 1942 to January 1945. Whilst briefly touching on Spain's internal affairs, the principal focus is firmly on American policy toward Spain during those three wartime years, and Spain's response thereto. Hayes provides the reader with a candid and factual record of this period, gleaned from firsthand eyewitness accounts and sensitive information he was privy to during his tenure. He draws in detail on excerpts from his personal diary kept for those three years, as well as various conversations, documents and correspondence from and with President Roosevelt and others. A fantastic historical record.

The late C. A. Tripp, a highly regarded sex researcher and colleague of Alfred Kinsey, and author of the runaway bestseller *The Homosexual Matrix*, devoted the last ten years of his life to an exhaustive study of Abraham Lincoln's writings and of scholarship about Lincoln, in search of hidden keys to his character. In *The Intimate World of Abraham Lincoln*, completed just weeks before he died, Tripp offers a full examination of Lincoln's inner life and relationships that, as Dr. Jean Baker argues in the Introduction, "will define the issue for years to come." Throughout this riveting work, new details are revealed about Lincoln's relations with a number of men. Long-standing myths are debunked convincingly -- in particular, the myth that Lincoln's one true love was Ann Rutledge, who died tragically young. Ultimately, Tripp argues that Lincoln's unorthodox loves and friendships were tied to his maverick beliefs about religion, slavery, and even ethics and morals. As Tripp argues, Lincoln was an "invert": a man who consistently turned convention on its

head, who drew his values not from the dominant conventions of society, but from within. For years, a whisper campaign has mounted about Abraham Lincoln, focusing on his intimate relationships. He was famously awkward around single women. He was engaged once before Mary Todd, but his fiancée called off the marriage on the grounds that he was "lacking in smaller attentions." His marriage to Mary was troubled. Meanwhile, throughout his adult life, he enjoyed close relationships with a number of men. He shared a bed with oshua Speed for four years as a young man, and -- as Tripp details here -- he shared a bed with an army captain while serving in the White House, when Mrs. Lincoln was away. As one Washington socialite commented in her diary, "What stuff!" This study reaches far beyond a brief about Lincoln's sexuality: it is an attempt to make sense of the whole man, as never before. It includes an Introduction by Jean Baker, biographer of Mary Todd Lincoln, and an Afterword containing reactions by two Lincoln scholars and one clinical psychologist and longtime acquaintance of C.A. Tripp. As Michael Chesson explains in one of the Afterword essays, "Lincoln was different from other men, and he knew it. More telling, virtually every man who knew him at all well, long before he rose to prominence, recognized it. In fact, the men who claimed to know him best, if honest, usually admitted that they did not understand him." Perhaps only now, when conventions of intimacy are so different, so open, and so much less rigid than in Lincoln's day, can Lincoln be fully understood.

The first book in the captivating Spanish Trilogy, focusing on the remarkable lives of Spain's most famous monarchs. In the 15th Century, Spain is full of intrigue and threatened by civil war. The independent young princess Isabella has become the pawn of her ambitious, half-crazed mother, kept as a virtual prisoner at the sordid court of her half-brother, France's Henry IV. Just sixteen years old, all seems lost: is Isabella fated to be the victim of the Queen's revenge, the Archbishop's ambition and the lust of Don Pedro Giron, one of the most notorious womanisers in Castile? Numbed with grief and fear, Isabella holds onto one cherished hope: that one day, she will escape her tormentors and marry Ferdinand, the handsome young Prince of Aragon - her only true betrothed. But the forces of Europe are ranged against them, and love's triumphs are rare...

This text is an introduction to Operations Management. Three themes are woven throughout the book: optimization or trying to do the best we can, managing tradeoffs between conflicting objectives, and dealing with uncertainty. After a brief introduction, the text reviews the fundamentals of probability including commonly used discrete and continuous distributions and functions of a random variable. The next major section, beginning in Chapter 7, examines optimization. The key fundamentals of optimization—inputs, decision variables, objective(s), and constraints—are introduced. Optimization is applied to linear regression, basic inventory modeling, and the newsvendor problem, which incorporates uncertain demand. Linear programming is then introduced. We show that the newsvendor problem can be cast as a network flow linear programming problem. Linear programming is then applied to the problem of redistributing empty rental vehicles (e.g., bicycles) at the end of a day and the problem of assigning students to seminars. Several chapters deal with location models as examples of both simple optimization problems and integer programming problems. The next major section focuses on queueing theory including single-and multi-server queues. This section also introduces a numerical method for solving for key performance metrics for a common class of queueing problems as well as simulation modeling. Finally, the text ends with a discussion of decision theory that again integrates notions of optimization, tradeoffs, and uncertainty analysis. The text is designed for anyone with a modest mathematical background. As such, it should be readily accessible to engineering students, economics, statistics, and mathematics majors, as well as many business students.

The Intimate World of Abraham Lincoln Oxford University Press
"This book is . . . my personal search 'for the face of the Lord.'" --Benedict XVI In this bold, momentous work, the Pope--in his first book written as Benedict XVI--seeks to salvage the person of Jesus from recent "popular" depictions and to restore Jesus' true identity as discovered in the Gospels. Through his brilliance as a theologian and his personal conviction as a believer, the Pope shares a rich, compelling, flesh-and-blood portrait of Jesus and incites us to encounter, face-to-face, the central figure of the Christian faith. From Jesus of Nazareth: ". . . the great question

that will be with us throughout this entire book: But what has Jesus really brought, then, if he has not brought world peace, universal prosperity, and a better world? What has he brought? The answer is very simple: God. He has brought God! He has brought the God who once gradually unveiled his countenance

first to Abraham, then to Moses and the prophets, and then in the wisdom literature—the God who showed his face only in Israel, even though he was also honored among the pagans in various shadowy guises. It is this God, the God of Abraham, of Isaac, and of Jacob, the true God, whom he has brought to the peoples of the

earth. He has brought God, and now we know his face, now we can call upon him. Now we know the path that we human beings have to take in this world. Jesus has brought God and with God the truth about where we are going and where we come from: faith, hope, and love.”
