This volume presents a comprehensive exposition of both the prehistory and medieval history of the whole of Scandinavia. The first part of the volume surveys the prehistoric and historic Scandinavian landscape and its natural resources, and tells how man took possession of this landscape, adapting culturally to changing natural conditions and developing various types of community throughout the Stone, Bronze and Iron Ages. The rest - and most substantial part of the volume - deals with the history of Scandinavia from the Viking Age to the end of the Scandinavian Middle Ages (c. 1520). The external Viking expansion opened Scandinavia to European influence to a hitherto unknown degree. A Christian church organisation was established, the first towns came into being, and the unification of the three medieval kingdoms of Scandinavia began, coinciding with the formation of the unique Icelandic 'Free State'.

The Indigenous Identity of the South

Saami Cambridge University Press
This Open Access biography chronicles the life and achievements of the Norwegian engineer and physicist Rolf Widerøe. Readers who meet him in the pages of this book will wonder why he isn't better known. The first of Widerøe's many pioneering contributions in the field of accelerator physics was the betatron. He later went on to build the first radiation therapy machine, an advance that would eventually revolutionize cancer treatment. Hospitals worldwide installed his machine, and today's modern radiation treatment equipment is based on his inventions. Widerøe's story also includes a fair share of drama, particularly during World War II when both Germans and the Allies vied for his collaboration. Widerøe held leading

positions in multinational industry groups and was one of the consultants for building the world's largest nuclear laboratory, CERN, in Switzerland. He gained over 200 patents, received several honorary doctorates and a number of international awards. The author, a professional writer and maker of TV documentaries, has gained access to hitherto restricted archives in several countries, which provided a wealth of new material and insights, in particular in relation to the war years. She tells here a gripping and illuminating story.

Academy and Literature Council of Europe
"From the acclaimed author of *Wintering*: a thrilling ode to the spirit of adventure and the vagaries of loss and love. In 1897 Norway, Odd Einar Eide returns home from a harrowing disaster in the northernmost Arctic only to witness his own funeral in full swing. His wife Inger, stunned to see him alive, is slow to return his devoted affection: she'd spent countless sleepless nights convinced she had now lost both her husband and their daughter, Thea, who'd emigrated to America two years before and has yet to answer their many anxious letters. Further complicating their reconciliation, a newspaperman gets wind of Eide's miraculous survival and invites them both to the city of Tromsø so he can write what he is sure will be a bestselling story. In 2017 Minnesota, Greta Nansen, desperately unhappy, decides to leave her children in her father's care and follow her husband to Oslo, where he's on assignment, in order to end their marriage. But for reasons mystifying even to her, she travels instead to the upper fringe of Norway--to the town where her great-great grandmother Thea was born. A dual narrative told by blood relatives separated by five generations, Northernmost confronts the darkest recesses of the human heart and celebrates our astonishing ability to endure the most excruciating trials--

Complete Norwegian is a comprehensive

language course that takes you from beginner to intermediate level. This book is for use with the accompanying audio CDs containing two hours of audio (ISBN 9781444195064). The new edition of this successful course has been fully revised and is packed with new learning features to give you the language, practice and skills to communicate with confidence. - Maps from A1 to B2 of the Common European Framework of Reference (CEFR) for languages -352-page book contains 16 learning units plus grammar reference and word glossary -Discovery Method - figure out rules and patterns to make the language stick -Teaches the key skills - reading, writing, listening and speaking - Learn to learn - tips and skills on how to be a better language learner -Culture notes - learn about the people and places of Norway -Outcomes-based learning - focus your studies with clear aims -Authentic listening activities - everyday conversations give you a flavour of real spoken Norwegian -Test Yourself - see and track your own progress Coming soon: get our companion app. Norwegian course: Teach Yourself is full of fun, interactive activities to support your learning with this course. Apple and Android versions available. Rely on Teach Yourself, trusted by language learners for over 70 years.

The Last Place on Earth John Wiley & Sons

At the beginning of the twentieth century, the South Pole was the most coveted prize in the fiercely nationalistic modern age of exploration. In the brilliant dual biography, the award-winning writer Roland Huntford re-examines every detail of the great race to the South Pole between Britain's Robert Scott and Norway's Roald Amundsen. Scott, who dies along with four of his men only eleven miles from his next cache of supplies, became Britain's beloved failure, while Amundsen, who not only beat Scott to the Pole but returned alive, was largely forgotten. This account of their race is a gripping, highly readable history that captures the driving ambitions of the era

and the complex, often deeply flawed men who were charged with carrying them out. **THE LAST PLACE ON EARTH** is the first of Huntford's masterly trilogy of polar biographies. It is also the only work on the subject in the English language based on the original Norwegian sources, to which Huntford returned to revise and update this edition.

This publication is part of a series of reviews of national youth policies carried out by the Council of Europe, in collaboration with researchers, non-governmental youth organisations and governmental agencies responsible for the development and implementation of youth policy. The review comprises of a national report produced by the individual country, together with a critical analysis of national policy and practice undertaken by a team of international experts in the subject. This report is the 10th in the series and focuses on national youth policies and programmes in Norway.

The Academy Eburon Uitgeverij B.V.

This open access book is a novel contribution in two ways: It is a multi-disciplinary examination of the indigenous South Saami people in Fennoscandia, a social and cultural group that often is overlooked as it is a minority within the Saami minority. Based on both historical material such as archaeological evidence, 20th century newspapers, and postcard motives as well as current sources such as ongoing land-right trials and recent works of historiography, the articles highlight the culture and living conditions of this indigenous group, mapping the negotiations of different identities through the interaction of Saami and non-Saami people through the ages. By illuminating this under-researched field, the volume also enriches the more general debate on global indigenous history, and sheds light on the construction of a Scandinavian identity and the limits of the welfare state and the myth of heterogeneity and equality.

Exploring the processes and phenomena of Earth's dayside magnetosphere Energy

and momentum transfer, initially taking place at the dayside magnetopause, is responsible for a variety of phenomenon that we can measure on the ground. Data obtained from observations of Earth's dayside magnetosphere increases our knowledge of the processes by which solar wind mass, momentum, and energy enter the magnetosphere. Dayside Magnetosphere Interactions outlines the physics and processes of dayside magnetospheric phenomena, the role of solar wind in generating ultra-low frequency waves, and solar wind-magnetosphere-ionosphere coupling. Volume highlights include: Phenomena across different temporal and spatial scales Discussions on dayside aurora, plume dynamics, and related dayside reconnection Results from spacecraft observations, ground-based observations, and simulations Discoveries from the Magnetospheric Multiscale Mission and Van Allen Probes era Exploration of foreshock, bow shock, magnetosheath, magnetopause, and cusps Examination of similar processes occurring around other planets The American Geophysical Union promotes discovery in Earth and space science for the benefit of humanity. Its publications disseminate scientific knowledge and provide resources for researchers, students, and professionals. *Naturupa* Words of Norway as The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910

Norway and National Liberation in Southern Africa Springer Nature

This book documents and analyses the involvement of Norway in the liberation struggle in Southern Africa. Apart from focussing on the formulation of official policies and the extensive cooperation with the liberation movements in the field of humanitarian assistance, mainly based on the Ministry of Foreign Affairs records, the study highlights the popular involvement and commitment to the struggle. Separate chapters are concerned with the churches, trade unions and solidarity movements, such as the Norwegian Council for Southern Africa and the Namibia Committee. The book also includes a case study on the battle for sanctions. The Study forms part of the Nordic Africa Institute's research and documentation project -National Liberation in Southern Africa: The Role of the Nordic Countries-

Like their counterparts in developing countries, rural people living on the periphery of developed nations are increasingly vulnerable to forces beyond their control. Farmers, miners, and fishermen must cope with periodic resource scarcities, fluctuating global markets, and neoliberal trade pacts. *Island Voices* explores this struggle through the perspective of people living on Arnøya, an island off northern Norway. John C. Kennedy spent years collecting their stories, each of which offers resounding proof of how change, both local and global, has unevenly benefited the island's four villages.

The Canadian Who's who Modern Library Explore magnificent fjords, museum-hop in Oslo, and bask in the glow of northern lights: Get to know your inner Viking with *Moon Norway*. The Current Digest of the Soviet Press University of Alaska Press J.K. Rowling, one of the world's most inspiring writers, shares her wisdom and advice. In 2008, J.K. Rowling delivered a deeply affecting commencement speech at Harvard University. Now published for the first time in book form, *VERY GOOD LIVES* presents J.K. Rowling's words of wisdom for anyone at a turning point in life. How can we embrace failure? And how can we use our imagination to better both ourselves and others? Drawing from stories of her own post-graduate years, the world famous author addresses some of life's most important questions with acuity and emotional force.

How to Find a Job in Norway John Murray The formation of the European nation states was deeply affected by the Reformation processes during the 16th century. In order to understand today's Europe, it is necessary to come to terms with the historical processes that shaped these emerging nation states. The book discusses such processes with particular attention to how they affected the northernmost parts of Europe. The book consists of three main parts: 1) Church

and State, 2) Interaction and Networks, 3) Ideas and Images. In the first part, the authors examine various aspects of the relationship between the church and the state, and how the Reformation processes contributed to reshape this relationship. In the second part, the development of the social and economic networks among the population of Northern Fennoscandia is mapped, taking account of how such networks were affected by different ethnic groups. The role of the church and the mission in the state integration of the Northern borderless areas is also examined, as well as the new Lutheran clergy and their social and material conditions. In the third part, the visual and material expressions of the Reformation period is analyzed, as well as the encounter between the Catholic, the Lutheran and the Sámi religion.

Northernmost Springer Science & Business Media

Adenovirus Methods and Protocols is designed to help new researchers to conduct studies involving adenoviruses and to help established researchers to branch into new areas. *Adenovirus Methods and Protocols, Volume II*, focuses on methods that elucidate and quantitate the interactions of adenoviruses with the host. This volume provides methods for analysis of transcription, splicing, RNA interference, subcellular localization of proteins during infection, and cell cycle effects.

Scientific and Technical Aerospace Reports Walter de Gruyter GmbH & Co KG Letters from Tromsø are dual-Norwegian-English short stories to help beginners learn Norwegian. The short stories follow a 13-year-old girl living in Tromsø, northern Norway. She has adventures with her family and meets new friends. This book is targeted towards A1 Norwegian learners. The parallel text is dual language -- Norwegian on the left, and English on the right.
