Getting the right answers in maths is only half the problem. Understanding why what you're doing works is the

part that often stumps students and teachers alike. The essential guide for mathematics teachers and those training

to teach, Yes, but why? answers all your questions, and sheds light on the hidden connections between everything in mathematics at school. This second edition includes:

- A new 'Test yourself' feature in every chapter
- More coverage of the four operations
- Enhanced discussion of fractions and proportionality
- Downloadable figures for use in the classroom

For the most efficient and safest outline, turn to the Teeline Gold Word List. In alphabetical order it contains recommended Teeline outlines for over 12,000 words - the

sort of words that might be expected to appear frequently in non-technical material.
