content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion

automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions.  Imagine what would happen if your inner voices could materialise and interact with the world around you, changing

shape and acting on their own will at the very time you needed to be at your most focused. Imagine if every antic, every argument, and every mishap these voices led you into was actually imprinting on your memory powerful visual associations ready to be recalled with ease as you walked into your driving theory test well equipped to pass with flying colours the first time. Imagine no more. Red,

Green, and Amber are three specialist drivers prepared to do whatever it takes to become the driver for The Big Boss's next job. They don't yet know what the job is, but Big Boss has promised the cargo will be priceless. First, they must compete against each other in a gruelling two day round-the-country road race until three become one. 'The rules of engagement are simple.

Avoid speeding fines, parking tickets... in fact, any violation that could draw attention to yourselves. If you are arrested at any point along the way, your participation in the interview process will end there.' Red suspected he was going to have a problem with all of the above. With every aspect of the theory test invisibly woven into each scene, The Demon Road packs a

genuinely memorable punch and delivers an explosive twist ending. It has been written with anyone studying to drive and pass their theory test in mind but is a must read for anybody driving on UK roads today. Author Richard reads widely, but is most inspired by the surreal writings of Haruki Murakami and Natsuo Kirino.
