Just as Masters and Johnson were pioneers in the study of human sexuality, so Dr. John Gottman has revolutionized the study of marriage. As a professor of psychology at the University of Washington and the founder and director of the Seattle Marital and Family Institute, he has studied the habits of married couples in unprecedented detail over the course of many years. His findings, and his heavily attended workshops, have already turned around thousands of faltering marriages. This book is the culmination of his life's work: the seven principles that guide couples on the path toward a harmonious and long-lasting relationship. Straightforward in their approach, yet profound in their effect, these principles teach partners new and startling strategies for making their marriage work. Gottman helps couples focus on each other, on paying attention to the small day-to-day moments that, strung together, make up the heart and soul of any relationship. Being thoughtful about ordinary matters provides spouses with a solid foundation for resolving conflict when it does occur and finding strategies for living with those issues that cannot be resolved. Packed with questionnaires and exercises whose effectiveness has been proven in Dr. Gottman's workshops, *The Seven Principles for Making Marriage Work* is the definitive guide for anyone who wants their relationship to attain its highest potential. *The Seven Principles for Making Marriage Work* is the result of Dr. John Gottman's many years of closely observing thousands of marriages. This kind of longitudinal research has never been done before. Based on his findings, he has culled seven principles essential to the success of any marriage. Maintain a love map. Foster fondness and admiration. Turn toward instead of away. Accept influence. Solve solvable conflicts. Cope with conflicts you can't resolve. Create shared meaning. Dr. Gottman's unique questionnaires and exercises will guide couples on the road to revitalizing their marriage, or making a strong one even better.

"Sophie is an amateur naturalist with a rare genetic gift: the ability to see a marvelous kingdom of invisible, sentient creatures that share a vital, symbiotic relationship with humankind. To record her observations, Sophie creates a personal bestiary and, as she relates the strange abilities of these endangered beings, her tales become extraordinary meditations on love, sex, evolution, extinction, truth, and self-knowledge"--

Explorer Academy: The Falcon's Feather (Book 2) Macmillan

Our modern idea of what a healthy landscape looks like and how it functions is distorted by the fur trade that once trapped out millions of beavers from North America's lakes and rivers. Goldfarb shares the powerful story about one of the world's most influential species. He explains how North America was colonized, how our landscapes have changed over the centuries, and how beavers can help us fight drought, flooding, wildfire, extinction, and the ravages of climate change. -- adapted from jacket

Independent Booksellers Association Award A New York Times Editors' Choice and Chicago Tribune top book for 2020 "Mill Town is the book of a lifetime; a deep-drilling, quick-moving, heartbreaking story. Scathing and tender, it lifts often into poetry, but comes down hard when it must. Through it all runs the river: sluggish, ancient, dangerous, freighted with America's sins." —Robert Macfarlane, author of *Underland* Kerri Arsenault grew up in the small, rural town of Mexico, Maine, where for over 100 years the community orbited around a paper mill that provided jobs for nearly everyone in town, including three generations of her family. Kerri had a happy childhood, but years after she moved away, she realized the price she paid for that childhood. The price everyone paid. The mill, while providing the social and economic cohesion for the community, also contributed to its demise. *Mill Town* is a book of narrative nonfiction, investigative memoir, and cultural criticism that illuminates the rise and collapse of the working-class, the hazards of loving and leaving home, and the ambiguous nature of toxics and disease with the central question; Who or what are we willing to sacrifice for our own survival?

The "heart-stopping" (*The Millions*), "richly layered" (*Brooklyn Rail*), "haunting, beautiful" (*BuzzFeed*) story of an escaped slave and the killer hound that pursues him Shortlisted for the National Book Critics Circle Award for Fiction, Patrick Chamoiseau's *Slave Old Man* was published to accolades in hardcover in a brilliant translation by Linda Coverdale, winning the French-American Foundation Translation Prize and chosen as a Publishers Weekly Best Book of 2018. *Slave Old Man* is a gripping, profoundly unsettling story of an elderly slave's daring escape into the wild from a plantation in Martinique, with his master and a fearsome hound on his heels. We follow them into a lush rain forest where nature is beyond all human control: sinister, yet entrancing and even exhilarating, because the old man's flight to freedom will transform them all in truly astonishing—even otherworldly—ways, as the overwhelming physical presence of the forest reshapes reality and time itself. Chamoiseau's exquisitely rendered new novel is an adventure for all time, one that fearlessly portrays the demonic cruelties of the slave trade and its human costs in vivid, sometimes hallucinatory prose. Offering a loving and mischievous tribute to the Creole culture of early nineteenth-century Martinique, this novel takes us on a unique and moving journey into the heart of Caribbean history.

Small Pleasures The New Press

An urgent and illuminating portrait of forest migration, and of the people studying the forests of the past, protecting the forests of the present, and planting the forests of the future. Forests are restless. Any time a tree dies or a new one sprouts, the forest that includes it has shifted. When new trees sprout in the same direction, the whole forest begins to migrate, sometimes at astonishing rates. Today, however, an array of obstacles—humans felling trees by the billions, invasive pests transported through global trade—threaten to overwhelm these vital movements. Worst of all, the climate is changing faster than ever before, and forests are struggling to keep up. A deft blend of science reporting and travel writing, *The Journeys of Trees* explores the evolving movements of forests by focusing on five trees: giant sequoia, ash, black spruce, Florida torrey, and

and Monterey pine. Journalist Zach St. George visits these trees in forests across continents, finding sequoias losing their needles in California, fossil records showing the paths of ancient forests in Alaska, domesticated pines in New Zealand, and tender new sprouts of blight-resistant American chestnuts in New Hampshire. Everywhere he goes, St. George meets lively people on conservation's front lines, from an ecologist studying droughts to an evolutionary evangelist with plans to save a dying species. He treks through the woods with activists, biologists, and foresters, each with their own role to play in the fight for the uncertain future of our environment. An eye-opening investigation into forest migration past and present, *The Journeys of Trees* examines how we can all help our trees, and our planet, survive and thrive.

What a Fish Knows UNC Press Books

At eighteen, Vermont-native Leath Tonino ventured west to attend college in Colorado. Upon hearing his destination, many of Tonino's friends and family predicted that he'd never come back; he'd make the "land of endless space and sky, its ranges and their storms" his home. "The West will swallow you," one said, in a tone that felt like part warning and part prophecy. More than a decade later Tonino continues to call Vermont his home. But despite his love of New England and his admiration for writers who sing the praises of their native ground, he concedes that he is, as Gary Snyder once phrased it, "promiscuous with landscapes." Tonino has spent the intervening years since college traversing "the alphabet of the American West from AZ to CA to UT to WY" and writing about its mysterious and powerful beauty. The resulting musings are collected in *The West Will Swallow You*, the title of which is a nod to the words that stayed with him and that, in many ways, turned out to be true. Although the adventures gathered here range widely in terrain and tone, the western landscape is always front and center—focusing on Arizona's remote Kaibab Plateau, where Tonino worked as a biologist studying raptor communities, in San Francisco's overgrown nooks and crannies and pigeon-flocked park benches, on ranches in Wyoming, at campsites in Nevada, in the mountains of Colorado, and "in libraries and national monuments, in people, in a midnight fox's eyes, in the rushing wind."

The Soul of an Octopus W. W. Norton & Company

The minute she had opened the trunk, she knew there wasn't anything like hope in it. Just awful musty things, but each one with a kind of terrible dark halo around it. She picked up that piece of old lace. She saw that stain -- pale, brownish in color. She knew it was blood. Somebody's blood. There was violence in that trunk, and dark secrets, and she did not want to know them. Curious about the old homestead where she now lives, Jerry finds an ancient trunk in the basement that contains, among other things, an old piece of bloodstained lace, some letters, and a battered doll. The objects in the trunk have stories to tell -- stories about the Spanish Inquisition spanning nearly five hundred years and stories of secrets locked deep in the bloodlines of Jerry's ancestors. Kathryn Lasky's powerhouse novel is a dramatic historical saga that brings the reader face-to-face with some of the worst atrocities ever committed against humankind in the name of God. But above all, it is an unforgettable coming-of-age story about a girl who, in connecting with her own past and faith, is at last able to face her own demons and liberate not only herself but also future generations of her family from the long chain of suffering and silence.

and physical world of the octopus—a surprisingly complex, intelligent, and spirited creature—and the remarkable connections it makes with humans. In pursuit of the wild, solitary, predatory octopus, popular naturalist Sy Montgomery has practiced true immersion journalism. From New England aquarium tanks to the reefs of French Polynesia and the Gulf of Mexico, she has befriended octopuses with strikingly different personalities—gentle Athena, assertive Octavia, curious Kali, and joyful Karma. Each creature shows her cleverness in myriad ways: escaping enclosures like an orangutan; jetting water to bounce balls; and endlessly tricking companions with multiple “sleights of hand” to get food. Scientists have only recently accepted the intelligence of dogs, birds, and chimpanzees but now are watching octopuses solve problems and are trying to decipher the meaning of the animal’s color-changing techniques. With her “joyful passion for these intelligent and fascinating creatures” (Library Journal Editors’ Spring Pick), Montgomery chronicles the growing appreciation of this mollusk as she tells a unique love story. By turns funny, entertaining, touching, and profound, *The Soul of an Octopus* reveals what octopuses can teach us about the meeting of two very different minds.

The Secrets We Kept DC Comics

Sharona Ben-Tov Muir discovered after the death of her father, inventor and New Age guru Itzhak Bentov, that he had created Israel’s first rocket. A secret group of scientists working in a rooftop shed, the “Science Corps,” of which he was a part, invented weapons during Israel’s war of independence and later developed Israel’s nuclear resources and other major scientific projects. Bentov, however, settled in Boston and made his fortune with such medical inventions as a cardiac catheter, which he created in his home laboratory, where Muir played as a child. Haunted by the question of why her father had never discussed his past, Muir traveled to Israel to find the Corps. Through her own memories and the memories they share, Muir comes to know the brilliant, impassioned, and creative young Bentov as he demonstrates his latest invention for her, takes her canoeing, and reveals his thoughts about consciousness and the cosmos. Muir elegantly evokes the hubbub of Jerusalem streets, the wartime adventures of her hosts, and the inner lives of Israelis. The resulting story of invention and self-invention, of the Corps’s wartime experience as told for the first time, and of a deep, abiding love between father and daughter is an incandescent memoir. The author provides a new preface for this new Bison Books edition.

The Journeys of Trees: A Story about Forests, People, and the Future Open Road Media
It’s an adventure of a lifetime when Cruz Coronado sets sail for the shores of Iceland and Norway aboard the Explorer Academy ship to continue his studies at sea. But, things take a turn while exploring the icy north, when he embarks on a dangerous mission to uncover the first piece of an important puzzle his mother left behind. In the exciting follow-up to *The Nebula Secret* in the 7-book Explorer Academy series, Cruz, Sailor, and Emmett, along with their new ally Bryndis, embark on their first globe-trotting mission aboard the ship Orion. Cruz jumps right back into school and starts using the latest technology in submersible underwater dives, but is soon reminded of the dangers of exploration when his equipment fails and he almost drowns. Determined to keep his eyes on the prize, Cruz sneaks away to try to find answers, but unknowingly lures his friends into bigger trouble. When a friend of Cruz’s mom meets an untimely end, Cruz’s luck really seems about to run out and the questions multiply. What does the message mean? Where will it lead? Who is following him? And why? This captivating book is the sequel every Explorer Academy fan is waiting to read!

Gray Morrow's Orion St. Martin's Press

In this book, Abby L. Goode reveals the foundations of American environmentalism and the enduring partnership between racism, eugenics, and agrarian ideals in the United States. Throughout the nineteenth century, writers as diverse as Martin Delany, Charlotte Perkins Gilman, and Walt Whitman worried about unsustainable conditions such as population growth and plantation slavery. In response, they imagined agrotopias—sustainable societies unaffected by the nation’s agricultural and population crises—elsewhere. Though seemingly progressive, these agrotopian visions depicted selective breeding and racial “improvement” as the path to environmental stability. In this fascinating study, Goode uncovers an early sustainability rhetoric interested in shaping, just as much as sustaining, the American population. Showing how ideas about race and reproduction were central to early sustainability thinking, Goode unearths an alternative environmental archive that ranges from gothic novels to Black nationalist manifestos, from Waco, Texas, to the West Indies, from city tenements to White House kitchen gardens. Exposing the eugenic foundations of some of our most well-regarded environmental traditions, this book compels us to reexamine the benevolence of American environmental thought.

Take a story and shrink it. Make it tiny, so small it can fit in the palm of your hand. Carry the story with you everywhere, let it sit with you while you eat, let it watch you while you sleep. Keep it safe, you never know when you might need it. In Kawakami’s super short ‘palm of the hand’ stories the world is never quite as it should be: a small child lives under a sheet near his neighbour’s house for thirty years; an apartment block leaves its visitors with strange afflictions, from fast-growing beards to an ability to channel the voices of the dead; an old man has two shadows, one docile, the other rebellious; two girls named Yoko are locked in a bitter rivalry to the death. Small but great, you’ll find great delight spending time with the people in this neighbourhood.

Cultural historian Jeff Biggers takes us to the dark amphitheatre ruins of his family’s nearly 200-year-old hillside homestead that has been strip-mined on the edge of the first federally recognized Wilderness Site in southern Illinois. In doing so he not only comes to grips with his own denied backwoods heritage but also chronicles a dark and missing chapter in the American experience; the historical nightmare of coal outside of Appalachia serving as an exposé of a secret legacy of shame and resiliency.

How to break free from the physical world and travel via the energy body • Examines the seven secrets of time from the viewpoint of mystics and scientists, including Helena Blavatsky, C. W. Leadbeater, and Albert Einstein • Explains how transcending the physical body offers new hope for the treatment of illness, emotional problems, and addictions • Offers step-by-step instructions and exercises to develop your time travel abilities via the energy body
Time remains the most misunderstood and mystical dimension of our experience of life. We never seem to have enough time, yet often it seems to drag by too slowly. Enthralled with the possibility of time travel and time machines, we long for the future or regret our past and wish for a way to break out of the linear progression of time. Behind all of this time fascination and obsession is the human urge to manage our destiny and feel in control of our world. Yet the secret to escaping temporal bondage is inside each of us, a soul-given power to visit the past or future and travel through the present at the speed of light. Exploring the 7 secrets of time, Von Braschler reveals how to break free from the physical world and travel through time and space via the energy body. He examines time, timelessness, and time travel from the viewpoint of mystics, shamanic dreamwalkers, and

scientists, including Helena Blavatsky, C. W. Leadbeater, Albert Einstein, and Julian Barbour, as well as Hindu spiritual science. Explaining how transcending the physical body offers new hope for the treatment of illness, emotional problems, and addictions, he offers step-by-step instructions and active, out-of-body exercises to develop your time travel abilities and explore the world of energy and spirit. Emphasizing the spiritual wholeness that comes from energy body work, he shows that by visiting the past and the future we can more fully live in the now.

NEW YORK TIMES BESTSELLER • A thrilling tale of secretaries turned spies, of love and duty, and of sacrifice—inspired by the true story of the CIA plot to infiltrate the hearts and minds of Soviet Russia, not with propaganda, but with the greatest love story of the twentieth century: Doctor Zhivago • A HELLO SUNSHINE x REESE WITHERSPOON BOOK CLUB PICK
At the height of the Cold War, Irina, a young Russian-American secretary, is plucked from the CIA typing pool and given the assignment of a lifetime. Her mission: to help smuggle Doctor Zhivago into the USSR, where it is banned, and enable Boris Pasternak’s magnum opus to make its way into print around the world. Mentoring Irina is the glamorous Sally Forrester: a seasoned spy who has honed her gift for deceit, using her magnetism and charm to pry secrets out of powerful men. Under Sally’s tutelage, Irina learns how to invisibly ferry classified documents—and discovers deeply buried truths about herself. *The Secrets We Kept* combines a legendary literary love story—the decades-long affair between Pasternak and his mistress and muse, Olga Ivinskaya, who inspired Zhivago’s heroine, Lara—with a narrative about two women empowered to lead lives of extraordinary intrigue and risk. Told with soaring emotional intensity and captivating historical detail, this is an unforgettable debut: a celebration of the powerful belief that a work of art can change the world.

In the best tradition of Tessa Hadley, Kazuo Ishiguro, and Ann Patchett—an astonishing, keenly observed period piece about an ordinary British woman in the 1950s whose dutiful life takes a sudden turn into a pitched battle between propriety and unexpected passion. "With wit and dry humor...quietly affecting in unexpected ways. Chambers' language is beautiful, achieving what only the most skilled writers can: big pleasure wrought from small details."--The New York Times
LONGLISTED FOR THE WOMEN'S PRIZE FOR FICTION 1957: Jean Swinney is a feature writer on a local paper in the southeast suburbs of London. Clever but with limited career opportunities and on the brink of forty, Jean lives a dreary existence that includes caring for her demanding widowed mother, who rarely leaves the house. It’s a small life with little joy and no likelihood of escape. That all changes when a young woman, Gretchen Tilbury, contacts the paper to claim that her daughter is the result of a virgin birth. Jean seizes onto the bizarre story and sets out to discover whether Gretchen is a miracle or a fraud. But the more Jean investigates, the more her life becomes strangely (and not unpleasantly) intertwined with that of the Tilburys, including Gretchen’s gentle and thoughtful husband Howard, who mostly believes his wife, and their quirky and charming daughter Margaret, who becomes a sort of surrogate child for Jean. Gretchen, too, becomes a much-needed friend in an otherwise empty social life. Jean cannot bring herself to discard what seems like her one chance at happiness, even as the story that she is researching starts to send dark ripples across all their lives...with unimaginable consequences. Both a mystery and a love story, *Small Pleasures* is a literary tour-de-force in the style of *The Remains of the Day*, about conflict between personal fulfillment and duty; a novel that celebrates the beauty and potential for joy in all things plain and unfashionable.
