Dictionary of Magic

Feral House

A comprehensive handbook of more than 1,000 magical words, phrases, symbols, and secret alphabets • Explains the origins, derivatives, and practical usage of each word, phrase, and spell as well as how they can be combined for custom spells • Based on the magical traditions of Europe, Greece, and

Egypt and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany • Includes an in-depth exploration of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes From Abracadabra to the now famous spells of the Harry Potter series, magic words are no longer confined to the practices of pagans, alchemists, witches, and occultists. They have become part of the

popular imagination of the Western world. Passed down from ancient Babylon, Egypt, and Greece, these words and the rituals surrounding them have survived through the millennia because they work. And as scholar Claude Lecouteux reveals, often the more impenetrable they seem, the more effective they are. Analyzing more than 7,000 spells from the magical traditions of Europe as well as the magical papyri of the Greeks and recently

discovered one-of-a-kind grimoires from Scandinavia, France, and Germany, Lecouteux has compiled a comprehensive dictionary of ancient magic words, phrases, and spells along with an in-depth exploration--the first in English--of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes. Drawing upon thousands of medieval accounts and famous manuscripts such as the Heptameron of Peter

Abano, the author examines the origins of each word or spell, offering detailed instructions on their successful use, whether for protection, love, wealth, or healing. He charts their evolution and derivations through the centuries, showing, for example, how spells that were once intended to put out fires evolved to protect people from witchcraft. He reveals the inherent versatility of magic words and how each sorcerer or witch had a set of stock phrases

they would combine to build a custom spell for the magical need at hand. Presenting a wealth of material on magical words, signs, and charms, both common and obscure, Lecouteux also explores the magical words and spells of ancient Scandinavia, the Hispano-Arabic magic of Spain before the Reconquista, the traditions passed down from ancient Egypt, and those that have stayed in use until the present day. *Writing First with Readings* Allied Publishers

For years now, we Silver Elves have been using a sign language we've created to go along with our magic and our spells. ELFIN SPIRIT TALK: Elven Sign Language for Magic and Spell Casting shares with you, dear Kindred, this magic of hand movements. You can see

our love of using hand gestures in our oracles and magic reflected, in part, in our book *Elven Geomancy* where whatever result you get as an oracle also has a series of hand movements combined with mudras. These mudras will either greatly increase the power of the oracle and its prediction if you like what you receive and want that outcome to occur, or decrease its potency if the reply from the oracle was contrary to what you wanted. This being done as a way,

therefore, of warding off disaster or undesired consequences and moving the energy in another more positive and desired direction. We have carried this practice over into our daily spell casting and in doing so have created a number of spells for ours'elves that we do every day with hand signs similar to American Sign Language in certain ways, only specifically for magical use. After all, magic uses the language of symbols for communicating with spirits. And thus you will

find in Elfin Spirit Talk that we have created word signs in the fashion of sign language for the deaf and hearing impaired. PART ONE of Elfin Spirit Talk has 100 elven spells of magic created in both English and Arvyndase and they cover most situations in life about which you might wish to perform magic, including ten spells in each of ten categories: Protection, Prosperity, Good Fortune, Longevity and Healing, Happiness, Power, Knowledge, Love and Relationship, Wisdom

and Spirituality, and Creativity. Once you have found just the right spell in one of these categories that you need for your particular individual situation, you may then go to Part Two of the book and look up each word in the spell to find the Silver Elf Magical Sign Language to go with it. PART TWO is set up in alphabetical order like a dictionary, so it is English to Silver Elf Magical Sign Language. We include in this section the directions for using the elf sign language to go with the magic spell

that you have selected from the first section of this book. You will be looking up each word in your magic spell in this alphabetical dictionary of elf sign language. Once you have studied the signs that go with each word of the spell, you will be ready to use them as you cast your spell in your magic.
