Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Birds of Prey is the fictional story of a notorious serial killer, thought to have been caught by the FBI and executed in West Virginia only to resurface ten years later in Southern California. The discovery by CHP Lieutenant Philip DiMarco of freshly dug graves in the Mojave Desert that bear the murderer's signature puts DiMarco in the middle of a nationwide manhunt by a task force of multiple law enforcement agencies for a militarily trained sociopath. The ensuing trail of murder leads to an intense cat-and-mouse game between the forces of good and evil, which becomes entangled in the politics of Washington, DC. As the task force gets closer to the killer only to be outmaneuvered and the death toll mounts, pressure intensifies from the highest levels of the federal government for his capture or termination. Frustrated with the lack of successful operations, Lieutenant DiMarco realizes the only avenue to success is to behave and think like the killer, which reveals the fine line that separates the hunter from his prey during the pursuit.

NEW YORK TIMES BESTSELLER • The “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

A celebration of the liberating power of consciousness—a triumphant book that lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

Riding Into the Heart of Patagonia Heinemann Educational Publishers

Perhaps no one loves France as much as the English—at least some of the English—and Richard Cobb, the incomparable Oxford historian of the French Revolution, was a passionate admirer of the country, a connoisseur of the low dive and the flophouse, as well as a longtime familiar of the quays of

Paris and the docks of Le Havre and Marseille. Collecting memoirs, portraits of favorite haunts, appreciations of Simenon and Queneau, Rene Clair and Brassai, and including the famous polemic "The Assassination of Paris," Paris and Elsewhere shows us a France unglimped by tourists.

New Inscapes One World

From the time he was a young boy, Marco Veneti had a desire to explore the world. He buys his first wheels, a 1941 Harley, in high school, a purchase that marks the beginning of his lifelong adventures on the seat of a motorcycle. Marco loves the feel of the wind in his face while exploring the countryside, always curious about what lays over the next hill or around the next curve in the road. Now, twenty-five years old, in the middle of a rainstorm in Nowhere, New Mexico, Marco looks back on his life as a vagabond, journeying on a motorcycle that takes its course over majestic mountains and sparse desert scrub. He reminisces about his encounters with people who become a major part of his life; he finds himself involved with rogue police officers who almost kill him; and he meets some rough folks along with many friendly ones—adding another chapter in life's course. A work of fiction, Wanderlust shares one man's love of biking as he experiences all the world offers from the seat of a motorcycle.

Ever since a leather-jacketed Marlon Brando slouched across the screen in *The Wild One*, the jacket's mixture of animal magnetism, brooding menace, and sexual provocation has made it a must-have for hipsters, rebels, and fashionistas. This entertaining book chronicles the leather jacket from its roots among World War I flying aces to its present incarnation in high fashion. Along the way, it shows how every generation and subculture -- including the Hell's Angels, beats, punks, movie stars, counterculturists, and fetishists -- has made the leather jacket its own.

Culture has always relied on art, just as artists have been dependent on culture as a problem field to draw inspiration from and as a store of social, ideological, and political practices to endorse or criticize. This volume addresses this dynamic reality by investigating how literary, cinematic, and artistic practices expose the often invisible structures and discourses which underlie the values, concepts, rites, and myths specific to Anglo-American cultural environments. On the one hand, the chapters (re-)visit classical, as well as contemporary, authors, including Charles Dickens, Emily Dickinson, Janice Galloway and Matthew Kneale, through the lenses of culture, to explore how their works become social commentaries and a cultural

diagnosis. On the other hand, they explore the politics and ideological effects of cultural practices exemplified by such matters as censorship, reading communities, fan fiction and travelogues.

Rockers! celebrates the biker style with panache and wit, showing how a love affair between bikes and speed became the original touchstone of a youth cult which continues to fascinate and endure, with its myths, magic and melancholy. In essence, and although they did not know it, rockers - with their raw edginess, studied cool and search for excitement, sex and violence - were icons. *Rockers!* achieves that rare marriage of immediacy and knowledge, through research and first-hand experience.

The Diving Bell and the Butterfly Vintage

A poignant, hilarious, and inspiring memoir from the first Latino and openly gay inaugural poet, which explores his coming-of-age as the child of Cuban immigrants and his attempts to understand his place in America while grappling with his burgeoning artistic and sexual identities. Richard Blanco's childhood and adolescence were experienced between two imaginary worlds: his parents' nostalgic world of 1950s Cuba and his imagined America, the country he saw on reruns of *The Brady Bunch* and *Leave it to Beaver*—an "exotic" life he yearned for as much as he yearned to see "la patria." Navigating these worlds eventually led Blanco to question his cultural identity through words; in turn, his vision as a writer—as an artist—prompted the courage to accept himself as a gay man. In this moving, contemplative memoir, the 2013 inaugural poet traces his poignant, often hilarious, and quintessentially American coming-of-age and the people who influenced him. A prismatic and lyrical narrative rich with the colors, sounds, smells, and textures of Miami, Richard Blanco's personal narrative is a resonant account of how he discovered his authentic self and ultimately, a deeper understanding of what it means to be American. His is a singular yet universal story that beautifully illuminates the experience of "becoming;" how we are shaped by experiences, memories, and our complex stories: the humor, love, yearning, and tenderness that define a life.
