The Last Layover Xcite Book

This is my third book offering helpful hints to make people's lives better. To listen to those who have read my previous books, my words of advice have done just that. I'm grateful and humbled by the warmth and generosity of each of you. I've turned to travel in this volume. Growing up, I traveled the globe with my parents, from Japan, to Germany, to India, to Hawaii. After getting married, my new family continued to travel, from Maine, to Alaska, to Florida from my home in Texas. Many trips were uneventful, and on others, I learned what not to do. This book is full of tips I've gleaned from my travels. If even one of these makes your traveling easier, I've done my job. I hope you find many more useful. Your mode of travel doesn't matter. Airplane or train, car or motorhome, each has its shortcomings. Whether you stay in a luxury hotel or economy lodge for the weekend, you'll find something in my book you won't be able to live without. Each person travels differently. You may have discovered travel tips that I've not included in this book. If you wish to share your travel tips, email me at helpfulhints@dianedunn.org. I would love to post

your hints (with credit to you if you wish). Please visit my website at dianedunn.org to let me know what you think of my latest book. We're in this together, and I hope to hear from you soon!

Sincerely, Diane Dunn

NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

Their reward is a seventy-five hour layover nestled in the secure confines of a plush beachside resort. Instead they are swept into a political coup led by Ramirez, an environmentalist landowner who sees a window of opportunity to topple the de facto military dictator who threatens his pristine estate--if he can coerce the crew to attempt a ruse more dangerous than a leap into a jaguar's den. Meanwhile Ramirez must protect them from Heinrich, his homicidal nephew, who as a boorish passenger was made the laughing stock of the first class cabin. Heinrich seeks to literally feed the crew to the sharks to avenge the insult. When that protection is compromised, with their nemesis lying in wait, they wade into the heart of a dark jungle night to seize their only chance for survival: become the hunters instead of the hunted.

But one of Bea's first assignments is Caleb, the boy who caused her accident, and the last person Bea would ever want to send to the pearly gates. And as much as Bea would love to see Caleb suffer for dooming her to a seemingly endless future of eating bad airport food and listening to other people's problems, she can't help but notice that he's kind of cute, and sort of sweet, and that maybe, despite her best efforts, she's totally falling for him. Zach Rossignol lives in Boston, MA and is a data analyst at a company that specializes in cost-of-living research. As such, he travels on international work-trips all over the world. This book captures those first few years 'on the road' when he started blogging at www.LifeintheLayover.com and the writing was raw, rude, and crude, and frankly, still sort of is today. Join him on this rambling mess of a tale, as he stumbles his way through the back alleys of Beijing, over the Andes mountains of Peru, to helicopter rides over the jungle in Indonesia, to contracting tapeworms somewhere in Central or South America, who knows?! This book covers over 80 cities and 35 countries with notable ones including Saudi Arabia, Venezuela, Kazakhstan, Equatorial Guinea, Laos, Vanuatu and plenty more. When he's not meandering about the globe, Zach enjoys time spent with family, hiking with his beautiful fiancée and dog, drinking craft beer, and playing guitar. He continues to write about his tales from overseas and all else that irks him at www.RossignolRamblings.com where it's "part travelogue, part diary. all nonsense..."
