Gerald Posner uncovers
the real story of the
Sacklers, the family that
became one of America's
wealthiest from the
success of OxyContin,
their blockbuster narcotic
painkiller at the centure of
the opioid crisis. The
unexpected twists and

commonly diagnosed as
hysteria—and the
curiously hysterical
response to it commonly
exhibited by medical men.
It is a novel of powerful

The Friend and What Are You Going Through “Where are the hysterics, those magnificent women of former times?” wrote Jacques Lacan. Long history’s ghosts, marginalized and dispossessed due to their gender and class, they are reimagined by Maud Casey as complex, flesh-and-blood people with stories to tell. These linked, evocative prose portraits, accompanied by period photographs and medical documents both authentic and invented, poignantly restore the humanity to the nineteenth-century female psychiatric patients confined in Paris’s Salpêtrière hospital and reduced to specimens for study by the celebrated neurologist Jean-Martin Charcot and his male colleagues. Maud Casey is the author of five books of fiction, including *The Man Who Walked Away*, and a work of nonfiction, *The Art of Mystery: The Search for Questions*. A Guggenheim Fellow and recipient of the St. Francis College Literary Prize, she teaches at the University of Maryland. *American Illustrated Magazine* Harper Collins At the age of thirty-nine, Christian theologian Todd

Billings was diagnosed with a rare form of incurable cancer. In the wake of that diagnosis, he began grappling with the hard theological questions we face in the midst of crisis: Why me? Why now? Where is God in all of this? This eloquently written book shares Billings's journey, struggle, and reflections on providence, lament, and life in Christ in light of his illness, moving beyond pat answers toward hope in God's promises. Theologically robust yet eminently practical, it engages the open questions, areas of mystery, and times of disorientation in the Christian life. Billings offers concrete examples through autobiography, cultural commentary, and stories from others, showing how our human stories of joy and grief can be incorporated into the larger biblical story of God's saving work in Christ. Sharon Simon’s memoir "MOM At LAST" is the story of one women’s fierce determination to become a Mom. It is a journey full of setbacks and emotionally devastating pitfalls but ultimately leads to her to true love and pure joy. "Mom At Last" will inspire those on that sometimes difficult journey to motherhood.

The Canadian Magazine of Politics, Science, Art and Literature Brazos Press How living with a chronic, stigmatizing, and contagious disease transforms women's lives. *70 Greatest Love Stories in Fiction (Historical Novels Edition)* e-artnow A bold and persuasive polemic on the corporatization of healthcare by a pediatrician and pioneering advocate for integrative medicine. In *Incurable Me*, a maverick physician brings transparency to some of medicine’s most closely guarded secrets. As he establishes a link between commerce and medical research, K. P. Stoller also explains how to treat some of the most worrisome diseases and conditions afflicting humans today—including Lyme disease, brain

trauma, dementia, and autism. Dr. Stoller maintains that the best evidence in medical research is not incorporated into clinical practice unless the medical cartel has the potential to make large amounts of money promoting it. Stoller takes his provocative argument a step further, maintaining that if specific research conflicts with a powerful entity's financial interests, the likely result will be an effort to suppress or distort the results. Stoller cites numerous examples, including corporate influence on GMO labeling and public health. Stoller also explores how "revolving-door-employment" between the Centers for Disease Control and large pharmaceutical companies can affect research results—and ultimately our health. Written in straightforward, accessible language, *Incurable Me* is a must-read for anyone interested in the state of modern medicine.

WANTED: self-motivated humans willing to trade the "safety" of the 9 - 5 for the freedom to create their own livelihood.

Uncertain income. Intermittent failure and self-doubt guaranteed. Deep sense of satisfaction and a well-lived life in event of success. Sure, building a life that's not built on the traditional constructs of "work" might sound sketchy as hell to some. But this kind of work - self-employment, building businesses, starting movements - it isn't for people who aren't up for that kind of challenge. If you are, this book is for you. I wrote it based on a decade of entrepreneurship to help you work through the self-doubt, the indecisiveness, the comparisonitis, and all of the other things we need to wrangle in order to ship work that matters. I'll help you uncover your unique fingerprint, and use that as the driver to bring your ideas and business(es) to life. And if you already have a business that's humming along, this book will provide the reboot you need to take yourself to the next level as an entrepreneur. Let me be clear this is not the book where I tell you how to get 500 followers overnight, nor how to jam people into your funnel to get X number of sales this month. Rather, I will teach

you how to find the answers you need and more importantly, how to ask the right questions. We'll also explore how to make decisions about what's right for you and your business when bombarded by 5,000,000 quick-success Internet carrots being dangled in front of your face. You don't have to reinvent the wheel. You won't be starting from nothing. The resources are there for you. This is possible. Welcome to the table. Let's get to work.

There are many words to describe Michael J. Fox: Actor. Husband. Father. Activist. But readers of *Always Looking Up* will soon add another to the list: Optimist. Michael writes about the hard-won perspective that helped him see challenges as opportunities. Instead of building walls around himself, he developed a personal policy of engagement and discovery: an emotional, psychological, intellectual, and spiritual outlook that has served him throughout his struggle with Parkinson's disease. Michael's exit from a very demanding, very public arena offered him the time-and the inspiration-

to open up new doors leading to unexpected places. One door even led him to the center of his own family, the greatest destination of all. The last ten years, which is really the stuff of this book, began with such a loss: my retirement from Spin City. I found myself struggling with a strange new dynamic: the shifting of public and private personas. I had been Mike the actor, then Mike the actor with PD. Now was I just Mike with PD Parkinson's had consumed my career and, in a sense, had become my career. But where did all of this leave Me? I had to build a new life when I was already pretty happy with the old one... Always Looking Up is a memoir of this last decade, told through the critical themes of Michael's life: work, politics, faith, and family. The book is a journey of self-discovery and reinvention, and a testament to the consolations that protect him from the ravages of Parkinson's. With the humor and wit that captivated fans of his first book, Lucky Man, Michael describes how he became a happier, more satisfied person by recognizing the gifts of everyday life.

An amazing true story of

how one man went against the traditional medical treatment for incurable arthritis and found himself on an incredible journey into the world of natural health. Along the way he had the good fortune to meet four amazing natural health care professionals each of whom specialized in their own programs towards arthritis. They helped guide and teach him how to use these programs so that his body could rise up and defeat this devastating disease, naturally. Also, through his own hard work and research, he learned many other complimentary programs that are a basic guide to living a healthier lifestyle. In this personal story, his journey will be explained step-by-step showing you how his body went from the stages of rapidly deteriorating joints, to abandoning his medication and switching to a natural program, and finally to defeating his arthritis and becoming symptom free for over 10 years. In *Stop Arthritis*, his entire program will be revealed to you so that you can, not just cope with arthritis, but defeat it! Some of the topics that will be revealed are:

Just when it seems Steve Sommers's life can't possibly get more complicated, the woman who broke his heart years ago comes back to town. His best friend is in a coma, and his fiancée has called off their wedding, so Steve already has his hands full. But one look at Penelope brings old feelings crashing in, and he's determined to get back what they once had. Seeing Steve again proves to Penelope what she's always believed—the passion they once shared still smoulders between them—but so does the reason she had to leave in the first place. Penelope's certain that no man can love her given the challenges her future holds...but Steve won't give up without a fight. The chance to share the love of a lifetime is worth any cost. Each book in the *Circle of Friends* series is a standalone story that can be enjoyed out of order. Series Order: Book #1 Tyler Book #2 Steve

From Revlon spokesmodel to film actress to one of *People* magazine's "50 Most Beautiful People," Karen Duffy was living the life most of us only dream of. Then her whirlwind life of celebrity parties came

to an abrupt, grinding halt when she was stricken with a serious illness in one of its rarest forms: sarcoidosis of the central nervous system. Duffy soon realized that the only way for her to survive was not to take the disease too seriously. Instead of hiding from life, she chose to run toward it. She learned to embrace the chaos of a life-

threatening disease with a wit and humor that helped her to find the love of her life at a time when things seemed darkest. *Model Patient* is a gripping, inspiring, and hilarious memoir that recounts the singular triumphs and tragedies of coping with a chronic, life-threatening disease.
