With an accessible approach, the third European edition of Principles of Economics provides students with the tools to analyze current economic issues. The book is underpinned by a focus on seven Core Principles, which help students to make the link between economic theory and practice. The 'economic naturalist' approach, supported by exercises, problems and examples, encourages students to employ economics principles to understand and explain the world around them. Developed from the well-regarded US textbook by Frank and Bernanke, it presents an intuitive approach to economics and is suitable for all students taking a Principles of Economics

course.

The first Canadian edition of ECON Macro is an innovative, hybrid-learning package that was created by the continuous feedback of our "student-tested, faculty-approved" process, unique to our 4ltr Press series. ECON Macro delivers comprehensive content in a visually appealing, succinct print component paired with a high-value online offering - MindTap - that includes an integrated eReader and a set of interactive digital tools that appeal to a wide range of learning styles and needs, all at a value-based price. This winning combination is proven to increase engagement and lead to better outcomes. The hallmark of this solution is the student-friendly approach taken by award-winning instructor and author Will McEachern. McEachern uses familiar examples and illustrations drawn from students' daily lives to vividly demonstrate that when students show up for class the first day, they each come with at least 17 years of first-hand experience in making economic choices and dealing with economic institutions and events, connecting these life experiences to key macroeconomic concepts.

The major goals of this revision have been to streamline the text and to present more student oriented examples. We are also providing a new design with enhanced four colour graphics. Much fine tuning and trimming has gone into almost every chapter resulting in a more approachable textbook for your students. Several chapters that are rarely used will now appear on the book's website. The 9th edition will be much better integrated with the book's website where students can get additional information and/or current events associated with many major topics in the text. Also, the website will have "Want to see the Math Notes" for those instructors that choose a more sophisticated math treatment of the major topics in both Micro and Macro. Another commitment to Instructor Support will be the annual updating of time sensitive PowerPoint slides.
