Author Cones breaks financing options down into six main areas: gifts and grants, investor financing, domestic government

subsidies and tax incentive programs, lender financing, international finance options, and studio or industry financing. Beginning with the forms of financing most likely to be accessible to independent feature film producers, Cones proceeds to other forms that become increasingly available as the producer's career matures. He provides specific, concise information regarding the many possible strategies and lists the distinct pros and cons of each strategy. Cones also counters much of the bad advice being provided by pseudoprofessional film finance consultants and points out scams that may separate unwary film

producers from their money. Although the book focuses on financing feature films, much of its information is relevant to the financing of other kinds of projects, such as short films, documentaries, videos, and multimedia and theatrical endeavors.-- From publisher description.

Compared to domestic transactions, the risks associated with

international sales are greatly multiplied. It is a rare international sales agreement to rely on minor variations of standard terms, as is so often the case in domestic agreements. Foreign laws, export/import and currency exchange controls, treaties, transit issues, inspection of goods, insurance, tariffs – all these and more – must be taken into account in contract negotiations. This is the third edition of an enormously useful book that guides practitioners through the process of drawing up sound agreements for the international sale of goods. Organized according to the framework of an annotated agreement, with detailed commentary on each

provision, it incorporates hundreds of sample clauses designed to cover every contingency, including such factors as the following (and a great deal more): • definitions; • price adjustments; • labelling; • transportation modes; • confidentiality; • INCOTERMS; • documentation; • delivery dates; • limitation of liability; • arbitration; and • corruption. Although the clauses are drawn without reference to any particular country, relevant considerations are covered in the commentary to each clause. Appendices reprint the texts of the United Nations Convention on Contracts for the International Sale of Goods (CISG), the

UNIDROIT Principles, and the Principles of European Contract Law. For lawyers charged with drafting an international sales contract, this book is invaluable. Clause by clause, it clearly details the drafting process, commenting expertly on every issue likely to arise. It would be hard to find a more useful guide.
