The Encyclopedia of American Poetry: The

Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems, along with many articles devoted to topics, schools, or periods of American verse in the century. Entries fall into three main categories: poet entries, which provide biographical and cultural contexts for the author's career; entries on individual works, which offer closer explication of the most resonant poems in the 20th-century canon; and topical entries, which offer analyses of a given period of literary production, school, thematically constructed category, or other verse tradition that historically has been in dialogue with the poetry of the United States.

To celebrate the 50th anniversary of Howl and Other Poems, with nearly one million copies in print, City Lights presents the story of editing, publishing and defending Allen Ginsberg's landmark poem within a broader context of obscenity issues and censorship of literary works. This collection begins with an introduction by publisher Lawrence Ferlinghetti, who shares his memories of hearing Howl first read at the 6 Gallery, of his arrest and of the subsequent legal defense of Howl's publication. Never-before-published correspondence of Ginsberg, Ferlinghetti, Kerouac, Gregory Corso, John Hollander, Richard Eberhart and others provides an

in-depth commentary on the poem's ethical intent and its social significance to the author and his contemporaries. A section on the public reaction to the trial includes newspaper reportage, op-ed pieces by Ginsberg and Ferlinghetti and letters to the editor from the public, which provide fascinating background material on the cultural climate of the mid-1950s. A timeline of literary censorship in the United States places this battle for free expression in a historical context. Also included are photographs, transcripts of relevant trial testimony, Judge Clayton Horn's decision and its ramifications and a long essay by Albert Bendich, the ACLU attorney who defended Howl on constitutional grounds. Editor Bill Morgan discusses more recent challenges to Howl in the late 1980s and how the fight against censorship continues today in new guises. [The Conservative Turn](#) Univ of California Press

Steven Gould Axelrod, Camille Roman, and Thomas Travisano continue the standard of excellence set in Volumes I and II of this extraordinary anthology. Volume III provides the most compelling and wide-ranging selection available of American

poetry from 1950 to the present. Its contents are just as diverse and multifaceted as America itself and invite readers to explore the world of poetry in the larger historical context of American culture. Nearly three hundred poems allow readers to explore canonical works by such poets as Elizabeth Bishop, Robert Lowell, and Sylvia Plath, as well as song lyrics from such popular musicians as Bob Dylan and Queen Latifah. Because contemporary American culture transcends the borders of the continental United States, the anthology also includes numerous transnational poets, from Julia de Burgos to Derek Walcott. Whether they are the works of oblique avant-gardists like John Ashbery or direct, populist poets like Allen Ginsberg, all of the selections are accompanied by extensive introductions and footnotes, making the great poetry of the period fully accessible to readers for the first time.

Twentieth Century Scarecrow Press An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it—to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism, recorded sound, noise, silence, the fluid sounds of immersion and dripping, and the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aurality at the center of the history of the arts, he revisits key artistic questions, listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.

In the late 1950s the notion of a "mother poem" emerged during a confessional literary movement that freed poets to use personal, psychosexual material about intimate topics such as parents, childhood, failed marriages, children, infidelity, and mental illness. In *Male Poets and the Agon of the Mother*, Hannah Baker Saltmarsh argues that male poets have contributed to what we think of as the literature of motherhood—that confessional and postconfessional modes have been formative in the way male poets have grappled with the stories of their mothers and how those stories reflect on the writers and their artistic identities. Through careful readings of formative elegies and homages written by male poets of this time, Saltmarsh explores how they engaged with femininity and feminine voices in the 1950s and 60s and sheds light on the inheritance of confessional motifs of gender and language as

demonstrated by postconfessional writers responding to the rich subject matter of motherhood within the contexts of history, myth, and literature. A foreword is provided by Jo Gill, professor of twentieth-century and American literature in the Department of English and associate dean for education at the University of Exeter.

This book focuses on the interplay of gender, race, and their representation in American science fiction, from the nineteenth-century through to the twenty-first, and across a number of forms including literature and film. Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race. Defining SF linguistically and culturally, the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race, but so too can it intervene in those histories, and highlight the ruptures present within them. The volume moves between material history and the linguistic nature of SF fantasies, from the specifics of race and gender at

different points in American history to larger analyses of the socio-cultural functions of such identity categories. SF has already become central to discussions of humanity in the global capitalist age, and is increasingly the focus of feminist and critical race studies; in combining these earlier approaches, this book goes further, to demonstrate why SF must become central to our discussions of identity writ large, of the possibilities and failings of the human—past, present, and future. Focusing on the interplay of whiteness and its various 'others' in relation to competing gender constructs, chapters analyze works by Nathaniel Hawthorne, Mary E. Bradley Lane, Edgar Rice Burroughs, Philip Francis Nowlan, George S. Schuyler and the Wachowskis, Frank Herbert, William Gibson, and Octavia Butler. Academics and students interested in the study of Science Fiction, American literature and culture, and Whiteness Studies, as well as those engaged in critical gender and race studies, will find this volume invaluable. *Golden Dreams* Columbia University Press -- *New York Times Book Review* *Utopia and Dissent* Northwestern

At mid-century, Americans increasingly fell in love with characters like Holden Caulfield in *Catcher in the Rye* and Marlon Brando's Johnny in *The Wild One*, musicians like Elvis Presley and Bob Dylan, and activists like the members of the Student Nonviolent Coordinating Committee. These emotions enabled some middle-class whites to cut free of their own histories and identify with those who, while lacking economic, political, or social privilege, seemed to possess instead vital cultural resources and a depth of feeling not found in "grey flannel" America. In this wide-ranging and vividly written cultural history, Grace Elizabeth Hale sheds light on why so many white middle-class Americans chose to re-imagine themselves as outsiders in the second half of the twentieth century and explains how this unprecedented shift changed American culture and society. Love for outsiders launched the politics of both the New Left and the New Right. From the mid-sixties through the eighties, it flourished in the hippie counterculture, the back-to-the-land movement, the Jesus People movement, and among fundamentalist and

Pentecostal Christians working to position their traditional isolation and separatism as strengths. It changed the very meaning of "authenticity" and "community." Ultimately, the romance of the outsider provided a creative resolution to an intractable mid-century cultural and political conflict—the struggle between the desire for self-determination and autonomy and the desire for a morally meaningful and authentic life.

A narrative tour de force that combines wide-ranging scholarship with captivating prose, Kevin Starr's acclaimed multi-volume *Americans and the California Dream* is an unparalleled work of cultural history. In this volume, Starr covers the crucial postwar period—1950 to 1963—when the California we know today first burst into prominence. Starr brilliantly illuminates the dominant economic, social, and cultural forces in California in these pivotal years. In a powerful blend of telling events, colorful personalities, and insightful analyses, Starr examines such issues as the overnight creation of the postwar California suburb, the rise of Los

Angeles as Super City, the reluctant emergence of San Diego as one of the largest cities in the nation, and the decline of political centrism. He explores the Silent Generation and the emergent Boomer youth cult, the Beats and the Hollywood "Rat Pack," the pervasive influence of Zen Buddhism and other Asian traditions in art and design, the rise of the University of California and the emergence of California itself as a utopia of higher education, the cooling of West Coast jazz, freeway and water projects of heroic magnitude, outdoor life and the beginnings of the environmental movement. More broadly, he shows how California not only became the most populous state in the Union, but in fact evolved into a mega-state en route to becoming the global commonwealth it is today. *Golden Dreams* continues an epic series that has been widely recognized for its signal contribution to the history of American culture in California. It is a book that transcends its stated subject to offer a wealth of insight into the growth of the Sun Belt and the West and indeed the dramatic transformation of America itself in these pivotal years following the Second World War.

Changing Cultural Tastes offers a critical survey of the taste wars fought over the past two centuries between the intellectual establishment and the common people in Germany. It charts the uneasy relationship of high and popular culture in Germany in the modern era. The impact of National Socialism and the strong influence from Great Britain and the United States are assessed in this cultural history of a changing nation and society. The period 1920-1980 is given special prominence, and the work of significant writers and artists such as Josef von Sternberg and Bertolt Brecht, Elfriede Jelinek and Rolf Dieter Brinkmann, Erwin Piscator and Heinrich Böll, is closely analysed. Their work has reflected changing tastes and, crucially, helped to make taste more pluralistic and democratic.

Bodies on the Line offers the first sustained study of the poetry reading in its most formative period: the 1960s. Raphael Allison closely examines a vast archive of

audio recordings of several key postwar American poets to explore the social and literary context of the sixties poetry reading, which is characterized by contrasting differing styles of performance: the humanist style and the skeptical strain. The humanist style, made mainstream by the Beats and their imitators, is characterized by faith in the power of presence, emotional communion, and affect. The skeptical strain emphasizes openness of interpretation and multivalent meaning, a lack of stability or consistency, and ironic detachment. By comparing these two dominant styles of reading, Allison argues that attention to sixties poetry readings reveals poets struggling between the kind of immediacy and presence that readings suggested and a private retreat from such performance-based publicity, one centered on the text itself. Recordings of Robert Frost, Charles Olson, Gwendolyn Brooks, Larry Eigner, and William Carlos Williams—all of whom emphasized voice, breath, and spoken language and who were inveterate professional readers in the sixties—expose this struggle in often surprising ways. In deconstructing

assertions about the role and importance of the poetry reading during this period, Allison reveals just how dramatic, political, and contentious poetry readings could be. By discussing how to "hear" as well as "read" poetry, *Bodies on the Line* offers startling new vantage points from which to understand American poetry since the 1960s as both performance and text. *Bodies on the Line* Libraries Unlimited *Sex, Drugs, and Rock 'n Roll: The American Counterculture of the 1960s* offers a unique examination of the cultural flowering that enveloped the United States during that early postwar decade. Robert C. Cottrell provides an enthralling view of the counterculture, beginning with an examination of American bohemia, the Lyrical Left of the pre-WWII era, and the hipsters. He delves into the Beats, before analyzing the counterculture that emerged on both the East and West coasts, but soon cropped up in the American heartland as well. Cottrell delivers something of a collective biography, through an exploration of the antics of seminal countercultural figures Allen Ginsberg, Jack Kerouac, Timothy Leary, and Ken Kesey. Cottrell also presents

fascinating chapters covering “the magic elixir of sex,” rock ‘n roll, the underground press, Haight-Ashbury, the literature that garnered the attention of many in the counterculture, Monterey Pop, the Summer of Love, the Death of Hippie, the March on the Pentagon, communes, Yippies, Weatherman, Woodstock, the Manson family, the women’s movement, and the decade’s legacies.
