Game Changer Hmh Books for Young Readers

Now back in print, a beautifully illustrated collection of twelve reimagined fairy tales, including classics like "Beauty and the Beast" and literary tales like Oscar Wilde's "The Happy Prince." Alice and Martin Provensen were one of the most talented husband-and-wife author-illustrator teams of the twentieth century. A long-out-of-print cult classic first published 50 years ago, *The Provensen Book of Fairy Tales* is a treasury of their illustrations accompanied by fairy tales from authors such as A. A. Milne, Hans Christian Andersen, and Oscar Wilde. Here too are clever retellings and newly imagined tales: refined old favorites like Arthur Rackham's "Beauty and the Beast," feminist revisions like Elinor Mordaunt's "The Prince and the Goose Girl," and sensitive stories by literary stylists like Henry Beston's "The Lost Half-Hour" and Katharine Pyle's "The Dreamer." Full of magic, ingenuity, and humor, *The Provensen Book of Fairy Tales* is a witty modern descendant of Grimm's *Fairy Tales* and a classic in its own right, sure to be beloved by a new generation. *Life in a Fishbowl* Univ. of Queensland Press

Inside Out and Back Again meets *One Crazy Summer* and *Brown Girl Dreaming* in this novel-in-verse about fitting in and standing up for what's right. It's 1969, and the Apollo 11 mission is getting ready to

go to the moon. But for half-black, half-Japanese Mimi, moving to a predominantly white Vermont town is enough to make her feel alien. Suddenly, Mimi's appearance is all anyone notices. She struggles to fit in with her classmates, even as she fights for her right to stand out by entering science competitions and joining Shop Class instead of Home Ec. And even though teachers and neighbors balk at her mixed-race family and her refusals to conform, Mimi's dreams of becoming an astronaut never fade—no matter how many times she's told no. This historical middle-grade novel is told in poems from Mimi's perspective over the course of one year in her new town, and shows readers that positive change can start with just one person speaking up. Winner of the 2015-2016 APALA Literature Award in the Children's category! *

"Readers will be moved by the empathetic lyricism of Mimi's maturing voice."--Kirkus Reviews, starred review * "This novel stands out with its thoughtful portrayal of race and its embrace of girls in science and technical fields. The verse, though spare, is powerful and evocative, perfectly capturing Mimi's emotional journey."--School Library Journal, starred review *Orbiting Jupiter* Houghton Mifflin Harcourt In this poignant, perceptive, witty novel, Gary D. Schmidt brings authenticity and emotion to multiple plot strands, weaving in themes of grief, loss, redemption, achievement, and love. Following the death of her closest friend in summer 1968, Meryl Lee Kowalski goes off to St. Elene's Preparatory Academy for Girls, where she struggles to navigate the venerable boarding school's traditions and a social structure heavily weighted toward students from wealthy backgrounds. In a parallel story, Matt Coffin has wound up on the Maine coast near St. Elene's with a pillowcase full of money lifted from the leader of a criminal gang, fearing the gang's relentless, destructive pursuit. Both young people gradually dispel their loneliness, finding a way to be hopeful and also finding each other.

NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender's Game* by Orson Scott Card. "Red Rising ascends above a crowded dystopian field."—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness "I live for the dream that my children will be born free," she says. "That they will be what they like. That they will own the land their father gave them." "I live for you," I say sadly. Eo kisses my cheek. "Then you must live for more." Darrow is a Red, a

member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. The Astonishing Life of Octavian Nothing, Traitor to the Nation, Volume I St. Martin's Press
A Kirkus Reviews Best Book of the Year A Chicago Public Library Best of the Best of the Year "Profoundly moving . . . Will take your breath away." —Kathleen Glasgow, author of *Girl in Pieces* A stunningly gorgeous and deeply hopeful portrayal of living with mental illness and grief, from an exceptional new voice. Biz knows how to float. She has her people, her posse, her mom and the twins. She has Grace. And she has her dad, who tells her about the little kid she was, and who shouldn't be here but is. So Biz doesn't tell anyone anything. Not about her dark, runaway thoughts, not about kissing Grace or noticing Jasper, the new boy. And she doesn't tell anyone about her dad. Because her dad died when she was seven. And Biz knows how to float, right there on the surface—normal okay regular fine. But after what happens on the beach—first in the ocean, and then in the sand—the tethers that hold Biz steady come undone. Dad disappears and, with him, all comfort. It might be easier, better, sweeter to float all the way away? Or maybe stay a little longer, find her father, bring him back to her. Or maybe—maybe maybe maybe—there's a third way Biz just can't see yet. Debut author Helena Fox tells a story about love and grief, about inter-generational mental illness, and how living with it is both a bridge to someone loved and lost and, also, a chasm. She explores the hard and beautiful places loss can take us, and honors those who hold us tightly when the current wants to tug us out to sea. Majestic and untwinkling, Jupiter is the grandest of all planets. It is the largest planet in our solar system and among the brightest objects in the night sky. It shines with a noble, steady luster, and its calming presence has inspired humans for centuries. Jupiter was the "beloved star" of the first serious observers of the planets, the ancient Sumerians and Babylonians, and has inspired poetic utterances from eminent writers such as William Wordsworth and Walt Whitman. It also continues to inspire contemporary astronomers and stargazers, and this beautifully illustrated volume brings our understanding of Jupiter right up to date. The scientific study of Jupiter is at a watershed: NASA's Juno space probe has entered orbit about Jupiter to investigate the planet, while information gleaned from improved telescopes and other robotic explorers in space continues to improve our understanding of the planet's origin, evolution, and composition. Jupiter provides a concise and expert overview of the history of our observations of this largest of planetary spheres, as well as reports on the much-anticipated initial findings from the Juno space probe. Also incorporating other recent research that is not widely available, Jupiter is an accessible and engaging introduction to planetary science that will deepen our knowledge both of this magnificent planet and of our own place in the solar system.
