All of Grace is a theological study by Charles Spurgeon who is known as the "Prince of Preachers". Grace is the hallmark of Christianity which is often out of the focus of the Christian church. Spurgeon suggests that the grace is the central glue of faith, redemption, and repentance. He argues that through grace, repentance gets a meaning. A gospel centered study tells about the greatness of Jesus and the Lord's redemptive heart towards his own. Spurgeon deals with the sin that entangles us by showing us Jesus. He reminds us that the Lord knows very well that we can't change our heart, but he can, when we submit to him by faith in Jesus. And with faith comes repentance.

From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

La vida borrada de Amalia Finisterre McGraw Hill Professional Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as "performativity theory," as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

Historia de Roma Macmillan

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

The foundation of our knowledge of God rests upon knowing what he is like. Without understanding God's attributes, we have a skewed perception of him—often one cast in our own image. We need more than just a theoretical knowledge of God in order to worship him as he desires. This classic work of A.W. Pink invites readers to discover the truth about seventeen attributes of God, including his sovereignty, immutability, patience, love, faithfulness, and much more. Pink shows readers a God who is alive, all-powerful, and active in his creation. The perfect introductory text, "The Attributes of God" also has enough depth and meat to satisfy the more experienced reader.

Fatal Freedom is an eloquent defense of every individual's right to choose F a voluntary death. By maintaining statutes that determine that voluntary death is not legal, Thomas Szasz believes that our society is forfeiting one of its basic freedoms and causing the psychiatric medical establishment to treat individuals in a manner that is disturbingly inhumane. Society's penchant for defining behavior it terms objectionable as a disease has created a psychiatric establishment that exerts far too much influence over how and when we choose to die. In a compelling argument that clearly and intelligently addresses one of the most significant ethical issues of our time, Szasz compares suicide to other practices that historically began as sins, became crimes, and now arc seen as mental illnesses.

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."
