MADDOX HOWARD

The British Isles

Forgotten Books
Thoroughly revised,

restructured and updated,
A History of British
Publishing covers six
centuries of publishing in
Britain from before the

invention of the printing press, to the electronic era of today. John Feather places Britain and her industries in an international marketplace and examines just how 'British', British publishing really is. Considering not only the publishing industry itself, but also the areas affecting, and affected by it, Feather traces the history of publishing books in Britain and examines: education politics technology law religion custom class finance, production and distribution the onslaught

of global corporations. Specifically designed for publishing and book history courses, this is the only book to give an overall history of British publishing, and will be an invaluable resource for all students of this fascinating subject.

The British in India

Oxford University Press, USA

A Brief History of Great Britain narrates the history of Great Britain from the earliest times to the 21st century, covering the entire island England, Wales, and Scotland as

well as associated archipelagos such as the Channel Islands, the Orkneys, and Ireland as they have influenced British history. The central story of this volume is the development of the British kingdom, including its rise and decline on the world stage. The book is built around a clear chronological political narrative while incorporating treatment of social, economic, and religious issues. Coverage includes: Early Settlements, Celts, and Romans Anglo-Saxons,

Scots, and Vikings
Scotland, England, and
Wales Britain in the Late
Middle Ages The Making
of Protestant Britain
Industry and Conquest
Britain in the Age of
Empire An Age of Crisis
The Age of Consensus A
House Divided.
*The History of British
Women's Writing,
1880-1920* Cambridge
University Press
CHOICE Outstanding
Academic Title 2017 A
History of the British Isles
is a balanced and
integrated political, social,
cultural and religious

history of the British Isles
in all its complexity,
exploring the constantly
evolving dialogue and
relationship between the
past and the present. A
wide range of topics and
questions are addressed
for each period and
territory discussed,
including England's Wars
of the Roses of the 15th
century and their
influence on court politics
during the 16th century;
Ireland's Rebellion of
1798, the Potato Famine
of the 1840s and the
Easter Rising of 1916; the
two World Wars and the

Great Depression; British
cultural and social change
during the 1960s; and the
history and future of the
British Isles in the present
day. Kenneth Campbell
integrates the histories of
England, Ireland,
Scotland, and Wales by
exploring common
themes and drawing on
comparative examples,
while also demonstrating
how those histories are
different, making this a
genuinely integrated text.
Campbell's approach
allows readers to
appreciate the history of
the British Isles not just

for its own sake, but for the purposes of understanding our current political divisions, our world and ourselves.

A Companion to the History of the Book

John Wiley & Sons

The Cambridge History of Black and Asian British Writing provides a comprehensive historical overview of the diverse literary traditions impacting on this field's evolution, from the eighteenth century to the present. Drawing on the expertise of over forty international experts, this

book gathers innovative scholarship to look forward to new readings and perspectives, while also focusing on undervalued writers, texts, and research areas. Creating new pathways to engage with the naming of a field that has often been contested, readings of literary texts are interwoven throughout with key political, social, and material contexts. In making visible the diverse influences constituting past and contemporary British literary culture, this Cambridge History

makes a unique contribution to British, Commonwealth, postcolonial, transnational, diasporic, and global literary studies, serving both as one of the first major reference works to cover four centuries of black and Asian British literary history and as a compass for future scholarship. [De-Illustrating the History of the British Empire](#)

The history of the book from 1400 to 1557: the transition from manuscripts to printed

books.

A Brief History of British Kings & Queens University of Toronto Press

An immersive portrait of the lives of the British in India, from the seventeenth century to Independence Who of the British went to India, and why? We know about Kipling and Forster, Orwell and Scott, but what of the youthful forestry official, the enterprising boxwallah, the fervid missionary? What motivated them to travel halfway around the globe, what lives did they lead

when they got there, and what did they think about it all? Full of spirited, illuminating anecdotes drawn from long-forgotten memoirs, correspondence, and government documents, *The British in India* weaves a rich tapestry of the everyday experiences of the Britons who found themselves in “the jewel in the crown” of the British Empire. David Gilmour captures the substance and texture of their work, home, and social lives, and illustrates how these transformed

across the several centuries of British presence and rule in the subcontinent, from the East India Company’s first trading station in 1615 to the twilight of the Raj and Partition and Independence in 1947. He takes us through remote hill stations, bustling coastal ports, opulent palaces, regimented cantonments, and dense jungles, revealing the country as seen through British eyes, and wittily reveling in all the particular concerns and contradictions that were a

consequence of that limited perspective. The British in India is a breathtaking accomplishment, a vivid and balanced history written with brio, elegance, and erudition. Empire John Wiley & Sons
 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose “As a stimulating overview of the multidimensional present state of the field, the Companion has no peer.” Choice “If you want

to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. “ Adrian Johns, Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws

on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-

based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book. Provides the ultimate British history experience and the hardback format with over 100 illustrations make it the perfect gift for amateur historians

A Short History of British Expansion Pen and Sword

The story of the British Army has many sides to it, being a tale of heroic

successes and tragic failures, of dogged determination and drunken disorder. It involves many of the most vital preoccupations in the history of the island - the struggle against Continental domination by a single power, the battle for Empire - and a cast pf remarkable characters - Marlborough, Wellington and Montgomery among them. Yet the British, relying on their navy, have always neglected their army; from the time of Alfred the Great to the reign of Charles II wars

were fought with hired forces disbanded as soon as conflict ended. Even after the struggles with Louis XIV impelled the formation of a regular army, impecunious governments neglected the armed forces except in times of national emergency. In this wide-ranging account, Major Haswell sketches the medieval background before concentrating on the three hundred years of the regular army, leading up to its role in our own time. He presents an informed and probing

picture of the organization of the army, the development of weaponry and strategy - and the everyday life of the British soldier through the centuries. John Lewis-Stempel has brought Major Haswell's classic work right up to date by expanding the section on the dissolution of empire to include a full account of Northern Ireland and the Falklands War. He has added a new chapter to cover the Gulf War, Bosnia, Afghanistan and Iraq; also the increasing role of special forces and

the amalgamation of regiments.

The Cambridge Urban History of Britain:

Bloomsbury Publishing

Here is the whole of recorded British royal history, from the legendary King Alfred the Great onwards, including the monarchies of England, Scotland, Wales and the United Kingdom for over a thousand years. Fascinating portraits are expertly woven into a history of division and eventual union of the British Isles - even royals we think most familiar are

revealed in a new and sometimes surprising light. This revised and shortened edition of *The Mammoth Book of British Kings & Queens* includes biographies of the royals of recorded British history, plus an overview of the semi-legendary figures of pre-history and the Dark Ages - an accessible source for students and general readers.

A History of the British Isles Bloomsbury Publishing

Modern Irish history was determined by the rise, expansion, and decline of

the British Empire. And British imperial history, from the age of Atlantic expansion to the age of decolonization, was moulded in part by Irish experience. But the nature of Ireland's position in the Empire has always been a matter of contentious dispute. Was Ireland a sister kingdom and equal partner in a larger British state? Or was it, because of its proximity and strategic importance, the Empire's most subjugated colony? Contemporaries disagreed strongly on these

questions, and historians continue to do so. Questions of this sort can only be answered historically: Ireland's relationship with Britain and the Empire developed and changed over time, as did the Empire itself. This book offers the first comprehensive history of the subject from the early modern era through the contemporary period. The contributors seek to specify the nature of Ireland's entanglement with empire over time: from the conquest and colonization of the

sixteenth and seventeenth centuries, through the consolidation of Ascendancy rule in the eighteenth, the Act of Union in the period 1801-1921, the emergence of an Irish Free State and Republic, and eventual withdrawal from the British Commonwealth in 1948. They also consider the participation of Irish people in the Empire overseas, as soldiers, administrators, merchants, migrants, and missionaries; the influence of Irish social,

administrative, and constitutional precedents in other colonies; and the impact of Irish nationalism and independence on the Empire at large. The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins, expansion, and decline of the British Empire. This book offers the first comprehensive history of Ireland and the British Empire from the early modern era through the contemporary period. The contributors examine each phase of Ireland's

entanglement with the Empire, from conquest and colonisation to independence, along with the extensive participation of Irish people in the Empire overseas, and the impact of Irish politics and nationalism on other British colonies. The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins, expansion, and decline of the British Empire. SERIES DESCRIPTION The purpose of the five volumes of the

Oxford History of the British Empire was to provide a comprehensive study of the Empire from its beginning to end, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British Empire as a theme in world history. The volumes in the Companion Series carry forward this purpose by exploring themes that were not possible to cover adequately in the main series, and to provide fresh interpretations of significant topics.

An Empire of Regions

Verso Books

This book sets out to narrate the contributions to and influence on the history of Chile that British visitors and immigrants have had, not as bystanders but as key players, starting in 1554 with the English Queen 'Bloody Mary' becoming Queen of Chile, and ending with the decline of British influence following the Second World War. *Crown & Sceptre* John Wiley & Sons
Examines the history of British worldwide

expansion from the Glorious Revolution of 1689 to the end of the Napoleonic Wars, a crucial phase in the creation of the modern British Empire.

A Brief History of Black British Art Infobase Publishing

From its modest to its recent disappearance, the British Empire was an extraordinary and paradoxical entity. North America, Africa, South and Southeast Asia and Australasia and innumerable small islands and territories have been

fundamentally shaped - economically, socially and politically - by a nation whose imperial drive came from a bewildering mixture of rapacity and moral zeal, of high-mindedness and viciousness, of strategic cunning and feckless neglect. Martin Kitchen has written a fascinating, crisp, informative account of the rise and fall of the British Empire, concentrating on the 19th and 20th centuries but giving the background of the 'First British Empire', which was lost with the

creating of the United States of America. His book is of particular value in relating the importance of the Empire to Britain's success as the only genuinely world power in the Victorian era and to Britain's ability to win the two great wars of the 20th century.

The British Empire
Palgrave Macmillan
The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on

historical topics published in a single calendar year. It is available before the end of the following year. The volume is divided into sections, to cover all periods of British and Irish history from Roman Britain to the end of the twentieth century, and is arranged alphabetically. It also includes sections on imperial and commonwealth history. Over two hundred journals are searched annually, and the editor's aim is to list all relevant books and articles published in the UK. Each section is edited

by a specialist in the field; the whole is edited by Austin Gee for the Royal Historical Society. The book's contents are indexed by author, by place, by personal name, and by subject. The subject keywords enable scholars to trace publications in which they are interested, beyond the information conveyed in the title. The Annual Bibliography is the most complete and up-to-date bibliography of its type, and an indispensable tool for historians.

The Oxford History of

the British Army Oxford University Press on Demand

A new edition of a classic book, thoroughly updated to take into account social, political and cultural changes within Britain.

The British Empire and Commonwealth Profile Books

An Empire of Regions is a refreshing interpretation of British American history that demonstrates how the thirteen British mainland colonies grew to function as self-governing entities in distinct regional

clusters. In lucid prose, Eric Nellis invites readers to explore the circumstances leading to the colonies' collective defense of their individual interests, and to reevaluate the founding principles of the United States. There is considerable discussion of social conditions and of the British background to the colonies' development. Extensive treatment of slavery, the slave trade, and native populations is provided, while detailed maps illustrate colony

boundaries, settlement growth, and the impact of the Proclamation Line.

This absorbing and compelling narrative will captivate both newcomers to and enthusiasts of American history.

British Concentration

Camps Tate Publishing

The industrial revolution stands out as a key event not simply in British history, but in world history, ushering in as it did a new era of sustained economic prosperity. But what exactly was the

'industrial revolution'?

And why did it occur in Britain when it did? Ever since the expression was coined in the 19th century, historians have been debating these questions, and there now exists a large and complex historiography concerned with English industrialisation. This short history of the British Industrial Revolution, aimed at undergraduates, sets out to answer these questions. It will

synthesise the latest research on British industrialisation into an exciting and interesting account of the industrial revolution. Deploying clear argument, lively language, and a fresh set of organising themes, this short history revisits one of the most central events in British history in a novel and accessible way. This is an ideal text for undergraduate students studying the Industrial Revolution or 19th Century Britain.
