Re-Reading Zola and
Worldwide Naturalism
continues the
discussion of Émile
Zola and French
naturalism with
examinations of
unexplored areas of

the founding father's
project and legacy. In
addition to offering
essays on Zola's lesser
known naturalist
contemporaries, the
volume extends the
investigation of the
naturalist literary
current to include
areas of Europe
outside France, as well
as the Americas and
Asia, tracking its
persistence in various

forms through the twentieth century and into the twenty-first. The authors pay particular attention to the ways naturalism was conceived and then received, including in other channels, undergoing transformations in new social conditions and creating other versions of the basic precepts. This work features multidisciplinary and comparative approaches to the study of naturalism, paying tribute to Anna Gural-Migdal—a Professor of French Literature and Film Studies at the University of Alberta, in Canada, who specializes in the visual aspect of Zola's Rougon Macquart novels and the transfer of these strategies to naturalist film. She has

been a leader in the field of Zola and naturalism in her role as president of the AIZEN for almost fifteen of its twenty years of existence. *Nicolas Edme Rétif de la Bretonne, 'Ingénue Saxancour'* Odile Jacob Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy Blaché and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every

French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and

television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard. [Re-Reading Zola and Worldwide Naturalism](#)

This vocabulary builder is intended for intermediate French learners, who wish to rapidly raise their lexical knowledge to the advanced level. French is one of the languages in which the purity of expression is most highly praised (a nice way to describe snobbishness, one might say....), up to the point at which non-native speakers could become exasperated by the multitude of

nuances, specific tropes, and particular syntax structures that seem to flow in at every corner in written and spoken French. The one thing to do...is to have patience, and always look for words and structures within sentences. Learning de-contextualized terms by heart is just hopeless. One needs the medium of sentences and phrases in order to acquire fast and stable knowledge of lexical terms and structures. One also needs to read and if possible, speak in French as much as possible. No manual or course can substitute the beneficial effect of directly reading and speaking in French. But the present vocabulary builder will help. For each term or construction, at least

three sentences or phrases are provided for exemplification and context. After the vocabulary builder, a short story by Guy de Maupassant ('Two friends'/'Deux amis' – published in 1883 and translated in English in 1903 by Albert M.C. McMaster) offers the chance to measure and verify the advancement made, as well as to add some extra vocabulary. The story is presented in a bilingual, juxta-paragraph translation – French sentences or phrases are immediately followed by translation. Readers should try to recognize the terms presented in the preceding vocabulary builder, and also to write down any new terms they might encounter, contextualized in

sentences - thus taking advantage of the juxta-paragraph format. This book closes with another story by Maupassant ('Mademoiselle Fifi' - published in 1882), whose original French text is annotated here with lexical footnotes. Both of Maupassant's stories, and the English translation, are now public domain.

Strindberg on International Stages and Strindberg in Translation is a

collection of scholarly and critical articles looking upon Strindberg from different perspectives. Three articles are case studies about Strindberg performances in different countries: namely, the United States, Italy and Portugal. Three further articles approach the problems of the transformation of the text on the stage. One of these essays is based on Strindberg's texts about drama from an aesthetic point of view; another from the perspective of a Strindberg director; and the third provides an analysis of the postdramatic performances of a Swedish suburban theatre group. This postdramatic aspect is also important in one

of the contributions providing an analysis of Strindberg's Chamber Plays, which is followed by an article where the function of music in particular is reflected upon.

Translation problems are important in all the countries discussed in this volume, especially Portugal, and the fact that Strindberg wrote his plays in different languages during different periods of his life raises important questions such as: if there is no indisputable first text, what is a translation? Where do we draw the line between a translation and an adaptation? How does the idea of translation change over time? One article in this collection revolves around such questions. In the final section of this volume,

readers are introduced to the digital Stockholm University Strindberg Corpus, consisting of seven of Strindberg's autobiographical works with linguistic annotation. The authors in this section describe the novels included in the corpus by keywords, and compare Strindberg's use of emotionally charged words with selected prose of both his contemporaries and present-day authors. These ten articles read together pose the most relevant questions with regard to Strindberg performances and Strindberg translations, and will be of interest to modern Strindberg scholars, Strindberg enthusiasts and Strindberg directors.

London : Sherwood, Gilbert and Piper Set in Paris in the 1780s, Rétif de la Bretonne's *Ingénue Saxancour* is a thinly veiled account of his daughter's disastrous marriage to an abusive husband. From the time of her marriage in January, 1780, until she left her husband in July, 1785, Agnès Rétif suffered continually from severe physical, sexual, and emotional abuse. Published in 1789, Rétif's novel scandalized the public with its graphic descriptions of his son-in-law's sexual perversity and brutal violence. Rétif's novel remains shocking more than two centuries later and continues to raise disturbing questions about power relations within abusive relationships.

Perhaps most disturbing of all are the accusations leveled against Rétif himself concerning his motives for writing and publishing this account: Was he, as some charged, a shameless exhibitionist willing to reveal his family's darkest secrets merely to attract attention and broaden his readership? Was he an unscrupulous opportunist willing to capitalize on his daughter's misfortunes and risk her reputation simply to pay his debts? Or was he, as he himself claimed, trying to warn young women about the dangers of marrying men of dubious backgrounds against their parents' wishes? Rétif was all this and more: a reform-minded

pioneer far in advance of his time with his graphic portrayal of spousal abuse, his call for greater public awareness of this perennial problem, and his crusade for liberal divorce laws that would allow women to escape from abusive relationships and to remarry. This, in fact, is what Agnès Rétif was able to do after passage of the divorce law passed by France's revolutionary government in 1792.

This volume brings together the ideas put forward at an international conference on Metaphor and Translation held at the University of Toulon,

France, in June 2017. The bilingual nature of the contributions here provides an insight into recent linguistic theories from both the English- and French-speaking worlds. This diversified approach is further enhanced by contributors being based in a large number of countries worldwide and working on different language combinations. The kinds of problem areas investigated here include a wide range of themes. They cover aspects ranging from methodological and theoretical issues to specialist areas such as literature, culture and the economy. Whatever the theoretical approach applied, the findings come up with interesting and useful conclusions as to how

metaphor is translated in the types of discourse analysis proposed. As a result, this volume will be of interest to both scholars and students involved in metaphor studies and translation, as well as to professional translators wishing to keep track of recent theories and practical issues in the field.

Après « Coeur subtil et intuitions naturelles », témoignant du chakra du coeur dans la vie quotidienne, Dominique Ramassamy nous présente une théorie inédite et magnifique : Le Yoga du coeur subtil. Loin d'une construction purement intellectuelle, le Yoga

du coeur provient de nombreuses expériences authentiques, au sein des stages et séminaires. Il représente une synthèse s'appuyant sur la psychologie des chakras et la philosophie du Yoga, selon une science spirituelle d'il y a dix mille ans. L'auteur décrit avec simplicité les concepts nouveaux propres au Yoga du coeur : l'ouverture d'un 7ème sens, le règne du Ventral, la force d'âme, le coeur-tendre et ses désillusions, le sens de « je suis amour », l'impasse de l'affectif, le pouvoir des lumières, les idées fausses sur le mental, du bourgeon d'âme au vrai Moi, les mantras du coeur, le langage de l'âme, l'énergie de l'Amour-Compassion,

etc. Émerveillé par la puissance de l'énergie du coeur, l'auteur crée le terme de médit'action, dont il décrit l'effet libérateur sur nos chaînes émotionnelles. Une nuance capitale est soulignée : le coeur est radicalement différent des émotions, bien que ses capacités permettent de clarifier les émotions. De plus, il nous relie à notre âme (la psyché) et ouvre la porte d'un Amour universel, en utilisant des techniques simples et accessibles à tous. Enfin, si le Yoga du coeur nous propose une nouvelle lecture de la vie, sur un plan individuel, il permet également un regard original sur la société et le monde, en proie aux symptômes exacerbés de violence

et déshérence. Le Yoga du coeur n'est pas une religion, souligne l'auteur; il n'y a ni rituel, ni divinités, ni guru; simplement un art de vivre : Réaliser la présence de quelque chose qu'on appelle l'âme, le Moi intérieur, ou autre, c'est retrouver de la force, de la lumière, du soutien, pour faire de la vie non pas un défi permanent contre le stress, mais un moyen d'accomplissement, vers la jouissance radieuse de l'Existence.
