Nazi Law to
investigate
the ways in
which Hitler
and the Nazis
used the law
as a weapon,
mainly against

the Jews, to establish and progress their master plan for German society. The book looks at how, after assuming power in 1933, the Nazi Party manipulated the legal system and the constitution in its crusade against Communists, Jews, homosexuals, as well as Jehovah's Witnesses and other religious and racial minorities, resulting in World War II and the Holocaust. It

then goes on to analyse how the law was subsequently used by the opponents of Nazism in the wake of World War Two to punish them in the war crime trials at Nuremberg. This is a valuable edited collection of interest to all scholars and students interested in Nazi Germany and the Holocaust. *Jehovah's Witnesses ABC-CLIO* As we look at the growth of the Christian Church in

today's world, there is reason for both optimism and pessimism. In the developing world there is both an enthusiasm and a real growth while in many parts of the Western world the church seems to be in decline. However there are some religious groups and movements that are experiencing growth. The Authors of this book attempt to study seven of today's movements to

see why some are growing while others are either stagnant or declining. As we plan for the future it is important that we understand the dynamics of growth so as to be able to carry out the Great Commission of the Lord Jesus Christ and that is "To make disciples of all nations".

 God Bless America lifts the veil on strange and unusual religious beliefs and practices in the modern-day United States. Do Satanists really sacrifice babies? Do exorcisms involve swearing and spinning heads? Are the Amish allowed to drive cars and use computers? Taking a close look at snake handling, new age spirituality, Santeria spells, and satanic rituals, this book offers more than mere armchair research, taking you to an exorcism and a polygamist compound—and allowing you to sit among the beards and bonnets in a Mennonite church and to hear L. Ron Hubbard's stories told as sermons during a Scientology service. From the Amish to Voodoo, the beliefs and practices explored in this book may be unorthodox—and often dangerous—but they are always fascinating. While some of them are

dying out, and others are gaining popularity with a modern audience, all offer insight into the future of religion in the United States—and remind that fact is often stranger than fiction.

The Statesman's Yearbook 2017 Penguin
This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to

religion, including nature, ethics, secularization, gender and identity.

Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions.

Beginning with an introduction of

the concept of the “changing world religion map”, the book first focuses on nature, ethics and the environment.

It examines humankind’s eternal search for the sacred, and discusses the emergence of “green” religion as a theme that cuts across many faiths.

Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world.

In its discussion of

the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many “new faces” that

are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as

an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media. *From the Outside*

Looking In Cambridge Scholars Publishing In June 1949 the Soviet state arrested seven farmers from the village of Bila Tserkva. Not wealthy or powerful, the men were unknown outside their community, and few had ever heard of their small, isolated village on the southwestern border of Soviet Ukraine. Nevertheless, the state decided they were dangerous traitors who

threatened to undermine public order, and a regional court sentenced them to twenty-five years of imprisonment for treason. In *To Make a Village Soviet* Emily Baran explores why a powerful state singled out these individuals for removal from society. Bila Tserkva had to become a space in which Soviet laws and institutions reigned supreme, yet Sovietization was an aspiration as

much it was a reality. The arrested men belonged to a small and misunderstood religious minority, the Jehovah's Witnesses, and both Witnesses and their neighbours challenged the government's attempts to fully integrate the village into socialist society. Drawing from the case file and interviews with the families of survivors, Baran argues that what happened in Bila Tserkva demonstrates

the sheer ambition of the state's plans for the Sovietization of borderland communities. A compelling history, *To Make a Village Soviet* looks to Bila Tserkva to explore the power and the limits of state control - and the possibilities created by communities that resist assimilation. *The Statesman's Yearbook 2014* Bloomsbury Publishing Minority religions, not only New Religious

Movements, are explored in this innovative book including the predicament of ancient religions such as Zoroastrianism, 'old new' religions such as Baha'i, and traditional religions that are minorities elsewhere. The book is divided into two parts: the gathering of data on religious minorities ("mapping"), and the ways in which governments and interest groups respond to

them ("monitoring"). The international group examine which new religions exist in particular countries, what their uptake is, and how allegiance can be ascertained. They explore a range of issues faced by minority religions, encompassing official state recognition and registration, unequal treatment in comparison with a dominant religion, how

changes in government can affect how they fare, the extent to which members are free to practise their faith, how they sometimes seek to influence politics, and how they can be affected by harassment and persecution. Bringing together debates concerning the social and political issues facing new religions in Europe and the Middle East, this collection

extends its focus to Middle Eastern minority faiths, enabling exposition of spiritual movements such as the Gülen Movement, Paganism in Israel, and the Zoroastrians in Tehran. To Any Jehovah's Witness or Mormon Upon Troubled Waters Kregel Publications What would happen if I accepted an invitation to Bible Study from Jehovah's Witnesses? What would

attending a Kingdom Hall meeting involve? And if I invited door-knocking Witnesses into my home? This book introduces Jehovah's Witnesses without assuming prior knowledge of the Watch Tower organization. After outlining the Society's origins and history, the book explains their key beliefs and practices by taking the reader through the process of the seeker who

makes initial contact with Witnesses, and progresses to take instruction and become a baptized member. The book then explores what is involved in being a Witness - congregational life, lifestyle, rites of passage, their understanding of the Bible and prophetic expectations. It examines the various processes and consequences of leaving the organization, controversies that have arisen in the

course of its history, and popular criticisms. Discussion is given to the likelihood of reforms within the organization, such as its stance on blood transfusions, the role of women and new methods of meeting and evangelizing in response to the COVID-19 pandemic. Food, Feasts, and Faith: An Encyclopedia of Food Culture in World Religions [2 volumes]
Martinus Nijhoff Publishers
Finding a proper balance between freedom and responsibility is a problem that has faced every serious Christian. For those raised in a highly structured religious environment, balancing

loyalties to a religious organization, family, and personal conscience may raise difficult issues. Raymond Franz's first-hand account of the issues with which he struggled forms the theme of his first book, *Crisis of Conscience. In Search of Christian Freedom*, the sequel to *Crisis of Conscience*, provides even more comprehensive study. The issues and options

discussed herein, although relating particularly to the structure of Jehovah's Witnesses, are not so very different from issues other Christians have faced and continue to face when they seek to reconcile considerations for conscience, loyalty, responsibility and freedom. This work will mover readers — of any religion — to consider seriously how much they value Christian

freedom and to ask how genuine their own freedom is.

The Triumph of Faith

This book, in its 114th year, provides insight into major trends in the North American Jewish communities, examining the recently completed Pew Report (*A Portrait of Jewish American*), gender in American Jewish life, national and Jewish communal affairs and the US and world

Jewish population. It also acts as an important resource with lists of Jewish Institutions, Jewish periodicals and academic resources as well as Jewish honorees, obituaries and major recent events. It should prove useful to social scientists and historians of the American Jewish community, Jewish communal workers and the press, among others. The Finished Mystery Springer

The religious association of Jehovah's Witnesses has existed for about 150 years in Europe. How Jehovah's Witnesses found their way in these countries has depended upon the way this missionary association was treated by the majority of the non-Witness population, the government and established churches. In this respect, the history of Jehovah's Witnesses in

Europe is also a history of the social constitution of these countries and their willingness to accept and integrate religious minorities. Jehovah's Witnesses faced suppression and persecution not only in dictatorships, but also in some democratic states. In other countries, however, they developed in relative freedom. How the different situations in

the various national societies affected the religious association and what challenges Jehovah's Witnesses had to overcome - and still do in part even until our day - is the theme of this history volume.

Springer Nature Working-class stories are not always tales of the underprivileged and dispossessed. Common People is a collection of essays, poems

and memoir written in celebration, not apology: these are narratives rich in barbed humour, reflecting the depth and texture of working-class life, the joy and sorrow, the solidarity and the differences, the everyday wisdom and poetry of the woman at the bus stop, the waiter, the hairdresser. Here, Kit de Waal brings together thirty-three established and emerging writers who invite you to

experience the world through their eyes, their voices loud and clear as they reclaim and redefine what it means to be working class. Features original pieces from Damian Barr, Malorie Blackman, Lisa Blower, Jill Dawson, Louise Doughty, Stuart Maconie, Chris McCrudden, Lisa McInerney, Paul McVeigh, Daljit Nagra, Dave O'Brien, Cathy Rentzenbrink, Anita Sethi, Tony Walsh,

Alex Wheatle and more.

The EU is struggling to cope with the so-called "migration crisis" that has emerged over the past few years. Designing the right policies to address immigration requires a deep understanding of its root causes. Why do Africans decide to leave their home countries? While the dream of a

better life in Europe is likely part of the explanation, one also needs to examine the prevailing living conditions in the large and heterogeneous sub-Saharan region. This Report investigates the actual role of political, economic, demographic and environmental drivers in current migration flows. It offers a comprehensive picture of major migration

motives as well as of key trends. Attention is also devoted to the role of climate change in promoting migration and to intra-continental mobility (two-thirds of sub-Saharan migrant flows start and end within the region). Two country studies on Eritrea and Nigeria are also included to get a closer sense of local developments behind large-scale migration to Europe.

Changing World Religion Map

This is the first major study of the enigmatic religious society. By examining the Jehovah's Witnesses' dramatic recent expansion, Andrew Holden reveals the dependency of their quasi-totalitarian movement on the physical and cultural resources have brought about the privatization of religion, the erosion of

community, and the separation of 'fact' from faith.

Jacqueline Woodson's National Book Award and Newbery Honor winner is a powerful memoir that tells the moving story of her childhood in mesmerizing verse. A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home

in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent

poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including "Brown Girl Dreaming." Praise for Jacqueline Woodson: "Ms. Woodson writes with a sure

understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—The New York Times Book Review
