You just can't keep a good girl down . . . unless you use the proper methods. Piper McCloud can fly. Just like that. Easy as pie. Sure, she hasn't mastered reverse propulsion and her turns are kind of sloppy, but she's real good at loop-the-loops. Problem is, the good folk of Lowland County are afraid of Piper. And her ma's at her wit's end. So it seems only fitting that she leave her parents' farm to attend a top-secret, maximum-security school for kids with exceptional abilities. School is great at first with a bunch of new friends whose skills range from super-strength to super-genius. (Plus all the homemade apple pie she can eat!) But Piper is special, even among the special. And there are consequences. Consequences too dire to talk about. Too crazy to consider. And too dangerous to ignore. At turns exhilarating and terrifying, Victoria Forester's debut novel has been praised by Stephenie Meyer, author of the Twilight saga, as "the oddest/sweetest mix of Little House on the Prairie and X-Men...Prepare to have your heart warmed." The Girl Who Could Fly is an unforgettable story of defiance and courage about an irrepressible heroine who can, who will, who must . . . fly. This title has Common Core connections. Praise for Victoria Forester and The Girl Who Could Fly: "It's the oddest/sweetest mix of Little House on the Prairie and X-Men. I was smiling the whole time (except for the part where I cried). I gave it to my mom, and I'm reading it to my kids—it's absolutely multigenerational. Prepare to have your heart warmed." Stephenie Meyer, author of the Twilight saga "In this terrific debut novel, readers meet Piper McCloud, the late-in-life daughter of farmers...The story soars, just like Piper, with enough loop-de-loops to keep kids uncertain about what will come next....Best of all are the book's strong, lightly wrapped messages about friendship and authenticity and the difference between doing well and doing good."--Booklist, Starred Review "Forester's disparate settings (down-home farm and futuristic ice-bunker

institute) are unified by the rock-solid point of view and unpretentious diction... any child who has felt different will take strength from Piper's fight to be herself against the tide of family, church, and society."--The Horn Book Review *The Girl Who Could Fly* is a 2009 Bank Street - Best Children's Book of the Year.

*Buzz Boy and Fly Guy (Fly Guy #9)* Scholastic

*Trash Fish* is the story of a boy who gives himself over to his obsession with fish as an escape from the trials of growing up. Time and again, as his life unfolds to reveal his failings and foibles to those around him, he returns to the fish, which cast him a lifeline of their own. Laugh-out-loud funny yet sardonically raw to the bone, Keeler tells a whole whirlpool of a story--the women, the Peace Corps, the teaching jobs, the marriage and children, and, of course, the rod and reel. Eventually, however, his serene fishing life becomes contaminated with real-world influences: a polite society of angling purists insists that he choose between flies and bait, while his alter ego (and nemesis) begins to use fishing as an excuse to cheat on his wife. Ultimately, Keeler's fisherman must acknowledge that he can't escape down the river bend, and that in order to experience true love, he must accept the complexities within himself and within the people on land around him.

Vacant lots. Abandoned houses. Trash--lots of trash. Heidelberg Street was in trouble! Tyree Guyton loved his childhood home--that's where his grandpa Sam taught him to "paint the world." So he wanted to wake people up... to make them see Detroit's crumbling communities. Paintbrush in hand, Tyree cast his artistic spell, transforming everyday junk into magic trash. Soon local

kids and families joined Tyree in rebuilding their neighborhood, discovering the healing power of art along the way. This picture book biography of Tyree Guyton, an urban environmental artist, shows how he transformed his decaying, crime-ridden neighborhood into the Heidelberg Project, an interactive sculpture park. The story spans from Tyree's childhood in 1950s Detroit to his early efforts to heal his community through art in the 1980s. Tyree's awards include Michigan Artist of the Year and International Artist. MAGIC TRASH offers strong themes of working together, the power of art, and the importance of inspiring community--especially kids--to affect action. The Heidelberg Project is internationally recognized for providing arts education to children and adults and for the ongoing development of several houses on Heidelberg Street. Not only does the Heidelberg Project prove that when a community works together it can rebuild itself,

but it also addresses the issues of recycling, environmentalism, and community on a global level.

#### Fly Guy Presents: Dogs Fly Guy

A Pulitzer Prize-winning journalist takes readers on a surprising tour of America's biggest export, our most prodigious product, and our greatest legacy: our trash. The average American produces 102 tons of garbage across a lifetime and \$50 billion in squandered riches are rolled to the curb each year. But our bins are just the starting point for a strange, impressive, mysterious, and costly journey that may also represent the greatest untapped opportunity of the century. In *Garbology*, Edward Humes investigates trash—what's in it; how much we pay for it; how we manage to create so much of it; and how some families, communities, and even nations are finding a way back from waste to discover a new kind of prosperity. Along the way, he

introduces a collection of garbage denizens unlike anyone you've ever met: the trash-tracking detectives of MIT, the bulldozer-driving sanitation workers building Los Angeles' Garbage Mountain landfill, the artists residing in San Francisco's dump, and the family whose annual trash output fills not a dumpster or a trash can, but a single mason jar. *Garbology* reveals not just what we throw away, but who we are and where our society is headed. Waste is the one environmental and economic harm that ordinary working Americans have the power to change—and prosper in the process. *Garbology* is raising awareness of trash consumption and is sparking community-wide action through One City One Book programs around the country. It is becoming an increasingly popular addition to high school and college syllabi and is being adopted by many colleges and universities for First Year Experience programs.
