What distinguishes the study of rhetoric from other pursuits in the liberal arts? From what realms of human existence and expression, of human history, does such study draw its defining character? What, in the end, should be the purposes of rhetorical inquiry? And amid so many competing accounts of discourse, power, and judgment in the contemporary world, how might scholars achieve these purposes through the attitudes and strategies that animate their work? Rethinking Rhetorical Theory, Criticism, and Pedagogy: The Living Art of Michael C. Leff offers answers to these questions by introducing the central insights of one of the most innovative and prolific rhetoricians of the twentieth century, Michael C. Leff. This volume charts Leff 's decades-long development as a scholar, revealing both the variety of topics and the approach that marked his oeuvre, as well as his long-standing critique of the disciplinary assumptions of classical, Hellenistic, renaissance, modern, and postmodern rhetoric. Rethinking Rhetorical Theory, Criticism, and Pedagogy includes a synoptic introduction to the evolution of Leff 's thought from his time as a graduate student in the late 1960s to his death in 2010, as well as specific commentary on twenty-four of his most illuminating essays and lectures.

Bloom was abandoned by her mother at birth, but thanks to her dad she never once felt unloved. When he is killed in a car wreck, leaving her without any close family, she spends a year mourning him. She feels as if her heart has been cut out of her chest and nothing is left but an empty hole that she doesn't think will ever heal. Then one night after work she finds a wounded dog in the woods behind her house and takes him in, not realizing he's more than just some stray dog but a wolf shifter, who happens to be her mate. Pike is getting over the loss of his father by running full force away from his responsibilities. He's getting ready to go back to face his new position as the Alpha of his pack when he catches the scent that can only belong to his mate. When Bloom finds out she may not be the normal human she always thought herself to be, she's forced to search out the woman who abandoned her at birth. ****Warning This Book Contains Graphic Language**** *The Portable Curmudgeon* Gramercy Books This work represents a dramatic call to recognize, celebrate, and conserve the great diversity of foods that give North America the distinctive culinary identity that reflects its multi-cultural heritage. Included are recipes and folk traditions associated with 100 of the continent's rarest food plants and animals.

Reflections on Life Rick Steves

In China today skyscrapers tower over ancient temples, freeways deliver lines of cars and tour buses to imperial palaces, cinema houses compete with old theaters featuring Peking Opera. The disparity evidenced in the contemporary Chinese cityscape can be traced to the early decades of the twentieth century, when government elites sought to transform cities into a new world that would be at once modern and distinctly Chinese. Remaking the Chinese City aims to capture the full diversity of recent Chinese urbanism by examining the modernist transformations of China's cities in the first half of the twentieth century. Collecting in one place some of the most interesting and exciting new work on Chinese urban history, this volume presents thirteen essays discussing ten Chinese cities: the commercial and industrial center of Shanghai; the old capital, Beijing; the southern coastal city of Canton; the interior's Chengdu; the tourist city of Hangzhou; the utopian "New Capital" built in Manchuria during the Japanese occupation; the treaty port of Tianjin; the Nationalists' capital in Nanjing; and temporary wartime capitals of Wuhan and Chongqing. Unlike past treatments of early twentieth-century China, which characterize the period as one of failure and decay, the contributors to this volume describe an exciting world in constant and fundamental change. During this time, the Chinese city was remade to accommodate parks and police, paved roads and public spaces. Rickshaws, trolleys, and buses allowed the growth of new downtowns. Department stores, theaters, newspapers, and modern advertising nourished a new urban identity. Sanitary regulations and traffic laws were enforced, and modern media and transport permitted unprecedented freedoms. Yet despite their fondness for things Western and modern, early urban planners envisioned cities that would lead the Chinese nation and preserve Chinese tradition. The very desire for modernity led to the construction of a visible and accessible national past and the imagining of a distinctive national future. In their investigation of the national capitals of the period, the essays show how cities were reshaped to represent and serve the nation. To promote tourism, traditions were invented and recycled for the pleasure and edification of new middle-class and foreign consumers of culture. Abundantly illustrated with maps and photographs, Remaking the Chinese City presents the best and most current scholarship on modern Chinese cities. Its thoroughness and detailed scholarship will appeal to the specialist, while its clarity and scope will engage the general reader. An anthology of Rilke's strongest poetry and prose for both aficionados and new readers. Here is a mini-anthology of poetry and prose for both aficionados and those readers discovering Rainer Maria Rilke for the first time. John J. L. Mood has assembled a collection of Rilke's strongest work, presenting commentary along with the selections. Mood links into an essay passages from letters that show Rilke's profound understanding of men and women and his ardent spirituality, rooted in the senses. Combining passion and sensitivity, the poems on love presented here are often not only sensual but sexual as well. Others pursue perennial themes in his work—death and life, growth and transformation. The book concludes with Rilke's reflections on wisdom and openness to experience, on grasping what is most difficult and turning what is most alien into that which we can most trust.
