Tantra Chinmaya Mission

Tantra—often associated with Kundalini Yoga—is a fundamental dimension of Hinduism, emphasizing the cultivation of "divine power" (shakti) as a path to

infinite bliss. Tantra has been widely misunderstood in the West, however, where its practices are often confused with eroticism and licentious morality. Tantra: The Path of Ecstasy dispels many common misconceptions, providing an accessible introduction to the history, philosophy, and practice of this extraordinary spiritual tradition. The Tantric teachings are geared toward the attainment of enlightenment as well as spiritual power and are present not only in Hinduism but also Jainism and Vajrayana Buddhism. In this book, Georg Feuerstein offers readers a clear understanding of authentic Tantra, as well as appropriate guidance for spiritual practice and the attainment of higher consciousness.

CALIPHS AND KINGS: SPAIN, 796-1031

The last twenty-five years have seen a renaissance of research and writing on

Spanish history. Caliphs and Kings offers a formidable synthesis of existing knowledge as well as an investigation into new historical thinking, perspectives, and methods. The nearly three-hundred-year rule of the Umayyad dynasty in Spain (756-1031) has been hailed by many as an era of unprecedented harmony and mutual tolerance between the three great religious faiths in the Iberian Peninsula – Christianity, Judaism, and Islam – the like of which has never been seen since. And yet, as this book demonstrates, historical reality defies the myth. Though the middle of the tenth century saw a flowering of artistic culture and sophistication in the Umayyad court and in the city of Córdoba, this period was all too shortlived and localized. Eventually,

twenty years of civil war caused the implosion of the Umayyad regime. It is through the forces that divided – not united – the disparate elements in Spanish society that we may best glean its nature and its lessons. Caliphs and Kings is devoted to better understanding those circumstances, as historian Roger Collins takes a fresh look at certainties, both old and new, to strip ninth- and tenth-century Spain of its mythic narrative, revealing the more complex truth beneath.

Mantreswar was the greatest astrologer of the 12th century from the South of India. He compiled in Sanskrit the principles of Predictive Astrology propagated by Maharshi Parashar, Jaimini and various other great

astrologers in his famous work Phaldeepika. This is one of the best books on Predictive Astrology. It includes the essence of Parashar, Jaimini and many more masters. Four hundred and fifty Yogas of Bhavartha Ratnakar of Shri Ramanuja have been added to befit the title Phaldeepika; Bhavartha Bodhini. The 28 chapters in the book cover various topics: the characteristics, house divisions, strength of planets, career, various yogas, raja yogas, marriage, children, longevity, periodic influence of planets, the effect of transits and ashtakvargas. The 11th chapter exclusively deals with the nativity of women; the 22nd chapter gives the interpretations and calculation of the Kalachakra dashas. This English edition also includes many horoscopes, tables

and a glossary of Sanskrit and Hindi words. The language is easy to understand and even beginners after studying this book for a few months will be able to arrive at the right interpretations and timing of events.

The relationship between travel and translation might seem obvious at first, but to study it in earnest is to discover that it is at once intriguing and elusive. Of course, travelers translate in order to make sense of their new surroundings; sometimes they must translate in order to put food on the table. The relationship between these two human compulsions, however, goes much deeper than this. What gets translated, it seems, is not merely the written or the spoken word, but the very identity of the traveler.

These seventeen essays—which treat not only such well-known figures as Martin Luther, Erasmus, Shakespeare, and Milton, but also such lesser known figures as Konrad Gr̄unemberg, Leo Africanus, and Garcilaso de la Vega—constitute the first survey of how this relationship manifests itself in the early modern period. As such, it should be of interest both to scholars who are studying theories of translation and to those who are studying “hodoeporics”, or travel and the literature of travel.

The term arthrogyposis describes a range of congenital contractures that lead to childhood deformities. It encompasses a number of syndromes and sporadic deformities that are rare individually but collectively are not uncommon. Yet, the existing medical literature on arthrogyposis is sparse and often confusing. The aim of this book is to provide individuals affected with arthrogyposis, their families, and health care professionals with a helpful guide to better understand the condition and its therapy. With this goal in mind, the editors have taken great care to ensure that the presentation of complex clinical

information is at once scientifically accurate, patient oriented, and accessible to readers without a medical background. The book is authored primarily by members of the medical staff of the Arthrogyposis Clinic at Children's Hospital and Medical Center in Seattle, Washington, one of the leading teams in the management of the condition, and will be an invaluable resource for both health care professionals and families of affected individuals.

In any horoscope, the 1st, 5th & 9th houses are considered to be the most auspicious ones. It is believed that the soul enters the world through 5th house of Poorva Janam Karma to the ascendant in the form of human body and exit through the 9th house after completing the Karma assigned for the present birth through 10th house. These three houses together constitute the spiritual or Dharma Trikone, which primarily aims at transforming the native to a higher stage

of evolution through their Divine faculties and creativity. Their lords irrespective of their natural traits, are favourable to a native leading to greater happiness. The ascendant is always the most beneficial house and its lord the most helpful planet, which guides and assists the native in all walks of life. The houses constituting Dharma Trikone reveal many special features of the native's destiny through his sojourn during the present incarnation. As per classics, there are four goals of human life, Dharma, Artha, Kaam & Moksha. Classics have extolled Dharma & Moksha and looked down Artha & Kaam. But Materialistic world of today has just the opposite view. Corresponding to the four goals are the four Trikones in any chart. All the four trikones have their Apex in a

Kendra house, which indicates the involvement of the native in immediate / everyday life. There is no denying the prominence of Dharma Trikone, but to ignore the other three will be a Himalayan blunder. In fact all the four Trikones are dependent on Artha Trikone for sustenance and all the progress, we see around us, originates and get accomplished in Kaam Trikone.

The Heart of the Yogini Motilal Banarsidass Publ.

The period from Thomas Aquinas to Duns Scotus is one of the richest in the history of Christian theology. The *Metaphysics of the Incarnation* aims to provide a thorough examination of the doctrine in this era, making explicit its philosophical and theological foundations. Medieval theologians

believed that there were good reasons for supposing that Christ's human nature was an individual. In the light of this, Part 1 discusses how the various thinkers held that an individual nature could be united to a divine person. Part 2 shows how one divine person could be incarnate without any other. Part 3 deals with questions of Christological predication, and Part 4 shows how an individual nature is to be distinguished from a person. The work begins with a full account of the metaphysics presupposed in the medieval accounts, and concludes with observations relating medieval accounts to modern Christology.

The Ultimate Medicine is not for those who like their spirituality watered down, but for serious students searching for awareness. Sri Nisargadatta Maharaj (1897-1981) lived and taught in a small apartment in the slums of Bombay. A realized master of the Tantric Nath lineage, he supported himself and his family by selling cheap goods in a small booth on the streets outside his tenement for many years. His life exemplified the concept of absolute

nonduality of being. In this volume, Maharaj shares the highest truth of nonduality in his own unique way. His teaching style is abrupt, provocative, and immensely profound, cutting to the core and wasting little effort on inessentials. His terse but potent sayings are known for their ability to trigger shifts in consciousness, just by hearing or reading them. "The point is that man freed from his fetters is morality personified. Such a man therefore does not need any moralistic injunctions in order to live righteously. Free a man from his bondage and thereafter everything else will take care of itself. On the other hand, man in his unredeemed state cannot possibly live morally, no matter what moral teaching he is given. It is an intrinsic impossibility,

for his very foundation is immorality. That is, he lives a lie, a basic contradiction: functioning in all his relationships as the separate entity he believes himself to be, whereas in reality no such separation exists. His every action therefore does violence to other 'selves' and other 'creatures,' which are only manifestations of the unitary consciousness. So Society had to invent some restraints in order to protect itself from its own worst excesses and thereby maintain some kind of status quo. The resulting arbitrary rules, which vary with place and time and therefore are purely relative, it calls 'morality,' and by upholding this man-invented 'idea' as the highest good—oftentimes sanctioned by religious 'revelation' and scriptures—society has provided man

with one more excuse to disregard the quest for liberation or relegate it to a

fairly low priority in his scheme of things."
