The wife of the town drummer gave birth to a child with red hair that everyone called 'the drummer's redhead'. Except for his mother, who called him 'golden treasure'. His father dreamed of a brilliant future for him and hoped he would become famous, but when war broke out, the drummer's redhead had to fight... Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The

Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

"Bedaux brings the discussion of meaning in northern painting back to the basics: the description of real objects, the evocation of everyday associations, the employment of standard visual metaphors, symbols and allegories. With the first publication of an eighteenth-century iconographical program drawn up by the Hague painter Mattheus Verheyden, he demonstrates the continued importance of allegory, that stepchild of iconography." -- Cover page 4.

Dutch archaeology has experienced profound changes in recent years. This has led to an increasing use of archaeological predictive modelling, a technique that uses information about the location of known early human settlements to predict where additional settlements may have been located. Case Studies in Archaeological Predictive Modelling is the product of a decade of work by Philip Verhagen as a specialist in geographical information systems at RAAP Archeologisch Adviesbureau BV, one of the leading organizations in the field; the case studies presented here provide an overview of the field and point to potential future areas of research.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a

This book analyses the European Union's (EU) approach to peacebuilding in its Common Security and Defence Policy (CSDP) missions, and explores how this approach impacts the EU's role in international conflict management. Peacebuilding carried out through CSDP instruments has become central to the self-conception of the EU as an actor in international conflict management. EU missions and operations have, for the most part, been deployed to promote peacebuilding efforts in post-conflict situations, in particular through capacity-building, reforms and rebuilding of state structures. This book focuses explicitly on the peacebuilding dimension of the CSDP

while exploring why and how the EU has adopted peacebuilding in its CSDP actions as a norm and a practice. It analyses how peacebuilding in EU missions is conceptualised, designed, governed and implemented. The book examines the extent to which EU missions and operations reflect a normative and practical commitment of the EU to peacebuilding – that is to say, the extent to which CSDP instruments have been shaped by international peacebuilding norms and EU foreign policy. Drawing on empirical insights from decision- and policymaking processes in Brussels as well as from missions in Mali and in Bosnia and Herzegovina, this book offers critical perspectives on the EU's role as an international peacebuilding actor. This book will be of much interest to students of European security, EU policy, peace and conflict studies, security studies and international relations.

Top 10 Best Book of the Year An

Economist Best Book of the Year The life of

Urbain Martien—artist, soldier, survivor of

World War I—lies contained in two

notebooks he left behind when he died in

1981. In War and Turpentine, his

grandson, a writer, retells his

grandfather's story, the notebooks

providing a key to the locked chambers of

Urbain's memory. With vivid detail, the

grandson recounts a whole life: Urbain as

the child of a lowly church painter,

retouching his father's work; dodging death

in a foundry; fighting in the war that

altered the course of history; marrying the

sister of the woman he truly loved; being

haunted by an ever-present reminder of

the artist he had hoped to be and the

soldier he was forced to become.

Wrestling with this tale, the grandson

straddles past and present, searching for a

way to understand his own part in both. As

artfully rendered as a Renaissance fresco,

War and Turpentine paints an

extraordinary portrait of one man's life

and reveals how that life echoed down

through the generations. (With black-and-white illustrations throughout)
