LAYLAH SKINNER

National Geographic Readers: Squeak!

Lerner Publishing Group

Are these strange animals the stuff of nightmares or aliens from outer space?

Turns out, they're real undersea animals!

Find out how deep-sea creatures use bizarre and fascinating adaptations to survive in their harsh environments in this Level 3 Reader. Journey through the

depths of the ocean into the dark Midnight Zone and discover the mysterious animals that live there. Learn about how their bodies make their own light or adapt to living in low-light areas, how they hunt, what they eat, and how they keep themselves safe from predators. National Geographic Readers' combination of expert-vetted text, along with brilliant images and a fun approach to reading has proved to be a winning formula with kids, parents, and educators. Level 3 text provides accessible, yet wide-ranging information for fluent readers. Each reader

includes text written by an experienced, skilled children's books author, a photo glossary, and interactive features in which kids get to reinforce what they've learned in the book.

Ocean Counting National Geographic Children's Books

From the moment the driver climbs inside the car, the sights and sounds of an exciting day at the races roars to life in this straightforward presentation.

At the Beach National Geographic Children's Books

Jump in the Pool in the Little Blossom

Stories series uses curriculum based fiction to get children comfortable with reading--and excited about playing in the pool. This book uses a combination of sight words and short-vowel words in repetition to build recognition and confidence. Original illustrations help guide readers through the text. Text and format is created by Cecilia Minden, PhD, a literacy consultant and former director of the Language and Literacy program at Harvard Graduate School of Education. Includes phonics and teachers' guide.
