Original Compositions Hal Leonard Corporation

This book serves as a follow-up to Ben Monder Compositions, with an emphasis on the compositions found on the 2013 recording, Hydra, as well as some older pieces that didn't make it into the first book. They are scored for solo guitar, guitar trio, guitar and voice duo, and quartet with one or multiple voices. The majority of the works are through-composed and reflect the exploration of various harmonic, technical, and textural elements of the guitar. These pieces will present an array of challenges to the performer, including unusual techniques and alternate tunings.

Guitar Talk Hal Leonard Corporation

From prehistoric bone flutes to pipe organs to digital synthesizers, instruments have been important to musical cultures around the world. Yet, how do instruments affect musical organization? And how might they influence players' bodies and minds? *Music at Hand* explores these questions with a distinctive blend of music theory, psychology, and philosophy. Practicing an instrument, of course, builds bodily habits and skills. But it also develops connections between auditory and motor regions in a player's brain. These multi-sensory links are grounded in particular instrumental interfaces. They reflect the ways that an instrument converts action into sound, and the ways that it coordinates physical and tonal space. Ultimately, these connections can shape listening, improvisation, or composition. This means that pianos, guitars, horns, and bells are not simply tools for making notes. Such technologies, as creative prostheses, also open up possibilities for musical action, perception, and cognition. Throughout the book, author Jonathan De Souza examines diverse musical case studies—from Beethoven to blues harmonica, from Bach to electronic

music-introducing novel methods for the analysis of body-instrument interaction. A companion website supports these analytical discussions with audiovisual examples, including motion-capture videos and performances by the author. Written in lucid prose, *Music at Hand* offers substantive insights for music scholars, while remaining accessible to non-specialist readers. This wide-ranging book will engage music theorists and historians, ethnomusicologists, organologists, composers, and performers-but also psychologists, philosophers, media theorists, and anyone who is curious about how musical experience is embodied and conditioned by technology.

Lionel Loueke's signature is one of limitless rhythmic invention. He has established a unique identity born of the synthesis between West African and Brazilian music within the modern jazz idiom. In his compositions, these influences fuse together, creating evocative African textures spliced with a guitar sound that channels the phrasing of a kora. When combined with his voice, Loueke's unique sound transports the listener even further. This book contains 21 original compositions and 5 solo transcriptions which give the reader insight into the compositional language of guitarist-vocalist Lionel Loueke Harmonic Foundation for Jazz & Popular Music Mel Bay Publications Interviews and features from Downbeat Magazine

Secrets of master guitarists, revealed in conversation. *Guitar Talk* offers interviews with many of the most creative guitarists of our time. This new book presents these conversations, between Joel Harrison and Nels Cline, Pat Metheny, Fred Frith, Bill Frisell, Julian Lage, Elliott Sharp, Michael Gregory Jackson, Ben Monder, Anthony Pirog, Henry Kaiser, Mike and Leni Stern, Vernon Reid, Mary Halvorson, Nguyễn Lê, Rez Abbasi, Ava Mendoza, Liberty Ellman, Brandon Ross, Wayne Krantz, Dave Fiuczynski, Wolfgang Muthspiel, Miles Okazaki, Sheryl Bailey, Rafiq Bhatia, and Ralph Towner—twenty-seven great guitarists in all. An enormous range of approaches and sounds exist in the modern guitar. The instrument can howl, scrape, scratch, scream, sing, pluck, and soothe. What stands out in this book is not so much the instrument itself, rather the wonderful and idiosyncratic personalities of these bold souls, their sometimes wild, often zigzagging, and ultimately profound journeys toward beauty, meaning, and excellence in their work. We find out that jazz icon Bill Frisell won a high school band contest playing R&B tunes, beating out future members of Earth Wind and Fire. We learn which of Nels Cline's compositions he wishes to have played at his funeral. Michael Gregory Jackson recounts painful episodes of racism as

he stretched between the chasm of avant jazz, rock, and blues in the 1980s. Many more revelations, amusements, and philosophies abound.
