The stage is set, and the graves are dug — the graves of John Sinclair and his friends, that is! The Black Death has prepared his most elaborate scheme yet, paving the way to the all-deciding battle in the Graveyard at the End of the World. With the help of Suko and Will Mallmann, John must sneak into East Germany, where in a mountain of witches lies the team's last hope: the Book of Nightmares, the key to the Black Death's demise. If only it were so easy to take. With his friends being abducted one by one into an ancient world filled with horrors and nightmares, John had better hurry. The final battle is drawing near, and only one shall face their final slumber, but will it be John Sinclair or the Black Death?

**My Final Breath** Last Gasp

The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and

continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.

On January 22, 1994, two-year old Renee Goode played happily with her sisters and cousin, as the four of them enjoyed an impromptu "slumber party" at the home of her father, Shane Goode. The next day she was dead. The local medical examiner could not determine the cause of little Renee's death. But her mother Annette and grandmother Sharon were convinced she'd been murdered--and that they knew the identity of Renee's killer: her handsome father, Shane Goode, a manipulative, emotionally abusive man who displayed virtually no interest in Renee--until he took out a \$50,000 insurance policy on her life. With the help of a courageous female police investigator and Assistant DA, Sharon launched a case against Shane and had Renee's tiny coffin, lovingly filled with her favorite stuffed animals, exhumed from its final resting place. And her small corpse revealed what her grandmother had suspected all along: cold, calculating Shane Goode had murdered his own daughter to cash in on her death. *To the Last Breath* is the winner of the 1999 Edgar Award for Best Fact Crime.

TIME IS SHORT. THE AIR IS RUNNING OUT. Selected as one of Goodread's Best Ecological Horror novels Scientists have been

warning for decades that we are poisoning the Earth. Now their prophecy is coming true. The oceans have become polluted, destroying a crucial link in the planet's life-support system. Instead of joining in friendship to meet this deadly future, corrupt superpowers are plotting to secure the last remaining clean air for the privileged few. This is the terrifying 21st-century prophecy of what we are doing to our home in space. Once it was just a scary bedtime story. Now it has become horrifyingly real.

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. *When Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the

most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

A society wedding interrupted by deadly violence sends the bride into hiding in this romantic thriller by two New York Times bestselling authors. Rory Abernathy's wedding to Liam Bastian

was supposed to be the event of the season. Instead, it was a bloodbath. Rory fled after stabbing a masked intruder, just before a gunman opened fire on the wedding party. Five years on, Rory still has no idea who was behind the attacks. Fearful she and her daughter remain targets, she's made a new life far from Liam and the wealthy, powerful Bastians. But even in remote Point Roberts, Washington, Rory can't hide from the past. Liam tracks her down, stunned to learn they have a child. Did someone in Rory's family try to kill him for his portion of the Bastian estate? As they gradually overcome distrust in search of the truth, Rory knows one thing for certain: someone is watching her... Time has passed, but the killer's need for vengeance hasn't. And as a nightmare stirs to life again, Rory will find that this time, there's nowhere left to run . . .

*One Final Breath (Dive Team Investigations Book #3)* Sarah Sutton

A Georgetown University physics professor describes the rigidly scheduled and isolated existence he led before embarking on a life-risking effort to climb the world's highest mountains and surf every ocean, goals that pitted him against natural and human dangers while challenging his most passionate beliefs. 100,000 first printing.

### Warbreaker Revell

When investigator Gabriel Chavez had his cover blown by an aggressive reporter, the silver lining was being able to rejoin the dive team. The downside? Dive team captain Anissa Bell--a woman who both fascinates and frustrates him. Anissa grew up as a missionary kid on the Micronesian island of Yap and always planned to return after college. But she remained stateside,

determined to solve the case that haunts her--the murder of her best friend and the disappearance of a three-year-old child. When Anissa's fractured past collides with Gabe's investigation into the tragic shooting death of a teenage boy in Lake Porter, they'll have to put their complicated history with each other aside in order to uncover the identity of a killer. What they'll discover is that revenge has no statute of limitations. Award-winning author Lynn H. Blackburn closes out her nail-biting Dive Team Investigations series with a story that will have you wondering how long you can hold your breath.

*ONE LAST BREATH* is book two in the new FBI mystery series by debut author Sarah Sutton. A popular beach town was torn apart when a teenage girl went missing. Now, one year later, after a storm rips through the area, her body is found—strangled and buried deep under the brush of a local beach. But, as the cops uncover her body, another is found—a more recent victim—and

they quickly realize it's the work of a serial killer. FBI Agent Tara Mills, still recovering from her last case, is pulled into her second. With no leads, the FBI needs Tara's brilliant mind to crack it. But as she delves into the depths of the popular vacation beach town, she soon realizes that no one can be trusted—and that this killer may be far more brilliant than her. Meanwhile, Tara has decided to uncover the truth of her own past. As she battles the darkness surrounding her childhood, more victims go missing, and with her career on the line, she races against time to stop the killer before she loses it all. Book #3 in the series—*ONE LAST UNVEIL*—is also now available for pre-order!

"My first thought was, "That house is insane." Not just a house for the insane, but that the building itself was insane, as if the layout of the walls themselves belied a shattered psyche dwelling within the stone...." (page 177) Near the end of World War II, during the Battle of The Bulge, a US Army unit pursues a renegade SS panzer battalion into the secluded Ardennes forest. There, hidden deep in the snow-covered pines, they find an ancient manor house containing an inhuman evil that defies any sense of reality. Confronted with a supernatural evil inside the manor, and surrounded by enemy troops outside, the soldiers will have to unravel the mysteries of the creature called The Geist and face a nightmarish battle for body and soul if they are to survive. Part war story, part Lovecraftian horror story, *One Last Gasp* will hold you in its haunting grip from its explosive beginning to its mindbending conclusion.

Ron English tells the story of Delusionville, a world where animals

have different social status based on their species. This is Ron English's magnum opus, a subversive rock opera, featuring Ronnie Rabbit, A surreal cast of characters populates this paradise, including buzzards, pigs, sheep, turtles, ducks, wolves, and the "rabbbits" who are caught in the middle of all the insanity that is Delusionville. Ronnie, the main rabbbbit, is the only animal who tries to accept all contradictory belief systems, which has driven him completely insane. A collection of over 100 images set with lyrics. Greetings from Delusionville is a deluxe oversized hardcover coffee table book. "Rabbbits in Delusionville" is a rock opera that is like post-factual Animal Farm meets Aesop's Fables on LSD. Delusionville tells the story of a society that formed as different animals fell down a rabbbbit hole and created a world with their own mythologies, religion, and politics. Every animal group represents an embedded archetype in the social structure that is about to come in question. This is largely a commentary on faux news, stagnation of social mobility, and downright delusional thinking. It is an opera in three acts: Act One - Introduces all of the characters in Delusionville and brings into question the nature of their society and their various places in the social order. Act Two - The animals get riled up about the economic disparity and social injustice in their previously unquestioned world of delusion. Act Three - A very unusual take on revolution.

The Last Gasp takes us to the dark side of human history in the first full chronicle of the gas chamber in the United States. In page-turning detail, award-winning writer Scott Christianson tells a dreadful story that is full of surprising and provocative new findings. First constructed in Nevada in 1924, the gas chamber, a method of killing sealed off and removed from the sight and hearing of witnesses, was originally touted as a "humane" method of execution. Delving into science, war, industry, medicine, law, and politics, Christianson overturns this mythology for good. He exposes the sinister links between corporations looking for profit, the military, and the first uses of the gas chamber after World War I. He explores little-known connections between the gas chamber and the eugenics movement. Perhaps most controversially, he has unearthed new evidence about American and German collaboration in the production and lethal use of hydrogen cyanide and about Hitler's adoption of gas

chamber technology developed in the United States. More than a book about the death penalty, this compelling history ultimately reveals much about America's values and power structures in the twentieth century.
