Election of President and
Vice President Rowman &

Littlefield

On the hundredth anniversary of Ronald Reagan's birth comes the twentieth-anniversary edition of Peggy Noonan's critically acclaimed bestseller *What I Saw at the Revolution*, for which she provides a new Preface that demonstrates this book's timeless relevance. As a special assistant to the president, Noonan worked with Ronald Reagan—and with Vice President George H. W. Bush—on some of their most memorable speeches. Noonan shows

us the world behind the words, and her sharp, vivid portraits of President Reagan and a host of Washington's movers and shakers are rendered in inimitable, witty prose. Her priceless account of what it was like to be a speechwriter among bureaucrats, and a woman in the last bastion of male power, makes this a Washington memoir that breaks the mold—as spirited, sensitive, and thoughtful as Peggy Noonan herself.

A Rhetorical Study of Selected Speeches

Delivered by Vice-president Richard M. Nixon During the Convention and Presidential Campaign of 1956 Routledge

“When money talks, democracy walks. Read this book to learn how We the People can take back our elections from the billionaires.” —Robert B. Reich, former U.S. Secretary of Labor and author of *The System: Who Rigged It, How We Fix It* Special-interest money is destroying our democratic process. And ever since the Citizens

United decision threw out campaign spending limits abridgments of free speech, Americans want to know what they can do about it. Derek Cressman gives us the tools, both intellectual and tactical, to fight back. There's nothing inherently unconstitutional in limiting the amount of speech, Cressman insists. We do it all the time—for example, cities control when and where demonstrations can take place or how long people can speak at council meetings. Moreover, he

argues that while you choose to patronize Fox News, MSNBC, the New York Times, or the Wall Street Journal, political advertising is forced upon you. It's not really free speech at all—it's paid speech. It's not at all what the Founders had in mind when they wrote the First Amendment. Cressman examines how courts have foiled attempts to limit campaign spending, details what a constitutional amendment limiting paid speech should say, and reveals an overlooked political

tool that concerned citizens can use to help gain the amendment's passage. Seven times before in our history we have approved constitutional amendments to overturn wrongheaded rulings by the Supreme Court—and there's no reason we can't do it again. *The Good Fight* Routledge Since he first began writing in the 1950s, Dr. Paul F. Boller Jr. has had a passion for sharing the humorous, intriguing, and little-known or widely misunderstood aspects of

the American presidency. Boller has authored many beloved books on American presidents, the first ladies, presidential anecdotes, quotes, campaign strategies, and common myths. This wide variety of topics has been collected for the first time in *Essays on the Presidents*, along with new essays and forewords. Boller's prose, distinct and inviting, causes the reader to see what is often overlooked in the history of American presidents: their humanity. Boller has

searched for those patriotic narratives we have all heard at some point in our lives—whether from our schoolteachers, coworkers, or various trivia books—and corrects the misconceptions many Americans deem as truth in a lighthearted and truly characteristic voice. From Washington's relationship with the Jews to the electioneering and stump-speaking associated with American presidential campaigns, readers will not only see the significant changes in the

presidential office since its conception, but also Boller's lifetime of research and his expertise in the field of American history. Personality—of the most interesting presidents and of Boller himself—is an important theme throughout this collection. The in-depth retelling of treasured American stories will captivate readers and keep them exploring for more nuggets of truth. Boller tracks the relationship between Americans and the presidents, uncovering

the intricate nature of presidential responsibilities and the remarkable men whose leadership shaped the office into what it is today. Celebrating the commanders-in-chief and the career of the nationally-recognized American historian and TCU Emeritus Professor of political science, *Essays on the Presidents* serves as a unique perspective on American history that fans of both Boller and the presidents will enjoy.

Life of John C. Calhoun
Sheba Blake Publishing

Lyndon Johnson invaded the Dominican Republic. Richard Nixon sponsored a coup attempt in Chile. Ronald Reagan waged covert warfare in Nicaragua. Nearly a dozen times during the Cold War, American presidents turned their attention from standoffs with the Soviet Union to intervene in Latin American affairs. In each instance, it was declared that the security of the United States was at stake-but, as Michael Grow demonstrates, these actions had more to do with flexing presidential

muscle than responding to imminent danger. From Eisenhower's toppling of Arbenz in Guatemala in 1954 to Bush's overthrow of Noriega in Panama in 1989, Grow casts a close eye on eight major cases of U.S. intervention in the Western Hemisphere, offering fresh interpretations of why they occurred and what they signified. The case studies also include the Bay of Pigs fiasco, Reagan's invasion of Grenada in 1983, and JFK's little-known 1963 intervention against the

government of Cheddi Jagan in British Guiana. Grow argues that it was not threats to U.S. national security or endangered economic interests that were decisive in prompting presidents to launch these interventions. Rather, each intervention was part of a symbolic geopolitical chess match in which the White House sought to project an image of overpowering strength to audiences at home and abroad—in order to preserve both national and presidential

credibility. As Grow also reveals, that impulse was routinely reinforced by local Latin American elites—such as Chilean businessmen or opposition Panamanian politicians—who actively promoted intervention in their own self-interest. LBJ's loud lament—“What can we do in Vietnam if we can't clean up the Dominican Republic?”—reflected just how preoccupied our presidents were with proving that the U.S. was no paper tiger and that they themselves were

fearless and forceful leaders. Meticulously argued and provocative, Grow's bold reinterpretation of Cold War history shows that this special preoccupation with credibility was at the very core of our presidents' approach to foreign relations, especially those involving our Latin American neighbors.

[Libertarian Presidential Candidates Crossword Puzzle Book: From John Hospers To Ron Paul To Gary Johnson](#) Rowman & Littlefield

Informal account of the duties and problems surrounding the Vice-Presidency of the United States, including biographical notes on the men who have held the office.

An Analysis of Discrepancies in Newspaper Accounts of Selected Speeches of Richard M. Nixon During the 1960 Presidential Campaign New York, Holt, Rinehart
Biographical sketches of the vice-presidents and their wives.
Bulletin of the New York

Public Library Random House Trade Paperbacks
Former vice president Walter Mondale makes a passionate, timely argument for American liberalism in this revealing and momentous political memoir. For more than five decades in public life, Walter Mondale has played a leading role in America's movement for social change—in civil rights, environmentalism, consumer protection, and women's rights—and helped to forge the modern Democratic Party. In The Good Fight,

Mondale traces his evolution from a young Minnesota attorney general, whose mentor was Senator Hubert H. Humphrey, into a U.S. senator himself. He was instrumental in pushing President Johnson's Great Society legislation through Congress and battled for housing equality, against poverty and discrimination, and for more oversight of the FBI and CIA. Mondale's years as a senator spanned the national turmoil of the Nixon administration; its

ultimate self-destruction in the Watergate scandal would change the course of his own political fortunes. Chosen as running mate for Jimmy Carter's successful 1976 campaign, Mondale served as vice president for four years. With an office in the White House, he invented the modern vice presidency; his inside look at the Carter administration will fascinate students of American history as he recalls how he and Carter confronted the energy crisis, the Iran hostage

crisis, the Soviet invasion of Afghanistan, and other crucial events, many of which reverberate to the present day. Carter's loss to Ronald Reagan in the 1980 election set the stage for Mondale's own campaign against Reagan in 1984, when he ran with Geraldine Ferraro, the first woman on a major party ticket; this progressive decision would forever change the dynamic of presidential elections. With the 1992 election of President Clinton, Mondale was named ambassador to

Japan. His intriguing memoir ends with his frank assessment of the Bush-Cheney administration and the first two years of the presidency of Barack Obama. Just as indispensably, he charts the evolution of Democratic liberalism from John F. Kennedy to Clinton to Obama while spelling out the principles required to restore the United States as a model of progressive government. The Good Fight is replete with Mondale's accounts of the

many American political heavyweights he encountered as either an ally or as an opponent, including JFK, Johnson, Humphrey, Nixon, Senator Edward M. Kennedy, the Reverend Jesse Jackson, Senator Gary Hart, Reagan, Clinton, and many others. Eloquent and engaging, *The Good Fight* illuminates Mondale's philosophies on opportunity, governmental accountability, decency in politics, and constitutional democracy, while chronicling the evolution

of a man and the country in which he is lucky enough to live.

Freedom of Communications: The joint appearances of Senator John F. Kennedy and Vice President Richard M. Nixon and other 1960 campaign presentations

Texas A&M University Press
Dealing with the vice presidency since 1953, this book recommends Walter Mondale's vice presidency as a model for future occupants of the office. The author

considers the selection, campaign roles, and electoral impact of vice-presidential candidates. Originally published in 1982. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton

Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *Essays on the Presidents* Metuchen, N.J. : Scarecrow Press
 Selection from the speeches, reports, and other publications of John C. Calhoun, preceded by a short biography. *When Money Talks* Lyons Press
 A readable analysis of 25 momentous presidential speeches that provides

context and understanding of events and history, illustrated with facsimiles of supporting documents, notes, and drafts that together formed the final speech. The book examines the pivotal, often familiar, and potent speeches and addresses of dozens of U.S. presidents to reveal the varied and often conflicting points of view that shaped the final famous words. We see in many examples, the actual edited final speech, showing how remarkable

and forceful language was crafted, sometimes last minute, into the enduring words made famous by their timing, including: George Washington, Thomas Jefferson, James Monroe, Abraham Lincoln, Theodore Roosevelt, Harry S. Truman, Dwight Eisenhower, John F. Kennedy, and more. *The Warm Bucket Brigade* Lulu.com
 Considers. S.J. Res. 1 and related Senate Joint Resolutions, to revise procedure for President and Vice President election in both general

and primary elections. S.J. Res. 14 and related Senate Joint Resolutions, to revise voter residence, age and economic qualification standards. *Presidential Campaign Activities of 1972, Senate Resolution 60: Phase II. Campaign practices. 3 v* Simon and Schuster

Electing Madam Vice President presents the presidential bids of the six women who ran for the Democratic nomination for President of the United States in 2020 and the historic, groundbreaking vice-presidential

candidacy of Kamala Harris. When Vice President Kamala Harris and her family moved into Number One Observatory Circle, the official Vice Presidential residence of the United States, she claimed a title no other women in the United States ever had: Vice President. She is closer to the United States presidency than any woman in history. Yet, she has repeated often that she is standing on the shoulders of women who have come before her to try to break down

barriers, including the United States Presidency. Often left off the history pages, and out of many Americans' minds, are the bids of women who run for president. The 2020 Democratic primary included the most women ever to run in one election. This book demonstrates the progress women candidates have made as they have moved from symbolic to viable candidates and shines a light on the diminishing obstacles that face women candidates while

taking readers on a journey through the victorious progress of a woman United States Vice President.

Our Vice-presidents and Second Ladies

iUniverse
Political Campaign Communication, Ninth Edition uses a speech-communication perspective to examine how elective politics contributes to our knowledge and understanding of the electoral process. This book explains how principles and practices

central to election campaigns affect America's electoral history.

The Life and Political Opinions of Martin Van Buren, Vice President of the United States

Rowman & Littlefield
Presidential campaigns and elections provide the drama and substance of America's democratic process. As democracy in action, they punctuate our nation's history in precise intervals, capturing the issues, the ideas, and the mood of the nation every four years.

Every/campaign follows a similar format: candidates jockey for selection, nominations are made, candidates and party leaders hit the trail, and voters render their decision on Election Day. Yet despite this familiar process, every campaign is unique, featuring colorful personalities and unexpected events. This fully illustrated reference is packed with facts and information on every campaign from the election of 1788-89 through the hotly contested election of

2000. Each entry traces in detail the background and results of the election, provides biographical information on every presidential and vice-presidential candidate, and offers state-by-state tallies of every election. The set also features hundreds of rarely seen documents associated with the campaigns. Political speeches University Press of Kansas Cambodia underwent a triple transition in the 1990s: from war to peace, from communism to electoral democracy, and

from command economy to free market. This book addresses the political economy of these transitions, examining how the much publicised international intervention to bring peace and democracy to Cambodia was subverted by the poverty of the Cambodian economy and by the state's manipulation of the move to the free market. This analysis of the material basis of obstacles to Cambodia's democratisation suggests that the long-established theoretical link between

economy and democracy stands, even in the face of new strategies of international democracy promotion. *The Life and Speeches of Hon. Charles Warren Fairbanks* Thomas Nelson Now in its sixth edition, *Political Campaign Communication* provides a realistic understanding of the strategic and tactical communication choices candidates and their staffs must make as they wage an election campaign. Trent and Friedenbergs classic text has been updated

throughout to reflect recent election campaigns, including 2004 and 2006 as well as the early stages of 2008. A new chapter focuses on the use of the Internet. Political Campaign Communication continues to be a classroom favorite—a thoroughly researched, insightful, and reader-friendly text. President's Speech Chronicle Books
 What Do You Know about America's Vice Presidents? (The official quiz that you, the reader, should take right now to

determine if you need this book) How many vice presidents went on to become president? How many sitting presidents died or were forced from office? How many vice presidents shot men while in office? Who was the better shot? Who was the first vice president to assume power when a president died? Why did he return official letters without reading them? What vice president was almost torn limb from limb in Venezuela? Which former VP was tried for treason for trying to start

his own empire in the Southwest? How many vice presidents were assassinated? In the next presidential election, should you worry about the candidates for vice president? (Bonus challenge: For extra points, name the men that the vice presidents shot!) See answers below. No cheating! The vice presidency isn't worth "a bucket of warm spit" That's the prudish version of what John Nance Garner had to say about the office--several years after serving as VP under

FDR. Was he right? The vice presidency is one of America's most historically complicated, intriguing, and underappreciated public offices. And Jeremy Lott's sweeping, hilarious, and insightful history introduces readers to the unusual and sometimes shadowy cast of characters that have occupied it: Aaron Burr, the only VP tried for treason John Tyler, president without a party Andrew Johnson, defiant drunkard Thomas Marshall, who should have

been president Richard Nixon, underdog and daredevil Gerald Ford, icon of the 1970s Al Gore, the most frustrated man in America And, of course, the real Dick Cheney With crisp prose, Lott focuses on their bitter rivalries and rank ambitions, their glorious victories and tragic setbacks. At the end of hundreds of historical vignettes, interviews, and pilgrimages to obscure places, Lott concludes that the vice presidency is an invaluable political institution that tends to

frustrate the ambitions of America's most ambitious politicians--an ungainly launch pad for future political success and a drunk tank for those who would imbibe too deeply of power. Answers to Quiz! Fourteen of the forty-three presidents were vice president It's happened eight times so far Aaron Burr and Dick Cheney Aaron Burr John Tyler Because he insisted on being called "president," not "vice president" or "acting president" Richard Nixon Aaron Burr (him again!)

None, though an assassin was hired to kill Andrew Johnson See answers one and two and then ask yourself, "Does America feel lucky?" Answers to bonus challenge: Alexander Hamilton and Harry Whittington Score: 0-4 You are a novice who should probably buy this book 5-8 You are a history buff who should love this book 9-12 You are a smart cookie who should appear on Jeopardy--and buy this book for show prep
