The Questions Would Teach Her More Than the Answers
It wasn't long after arriving in Oxford for graduate school that twenty-two-year-old Andrea Lucado - preacher's daughter from Texas - faced not only culture shock, a severe lack of coffee, but also some unexpected hard questions: Who am I? Who is God? Why do I believe what I believe? "So many

nights in Oxford, I felt like the details of my faiths were getting fuzzier. Nights turned restless with the questions and the thoughts. I questioned God's existence and the doubt, it was getting into my bones...." In this engaging memoir, Andrea speaks to all of us who wrestle with faith, doubt, and spiritual identity. Join Andrea as she navigates the Thames River, the Oxford Atheist Society, romance in ancient pubs--and a new perspective on who God is. As Andrea learned, sometimes it takes letting go of old ideas to discover lasting truth.

Finalist for the 2022 Lincoln Prize An award-winning scholar uncovers the guiding principles of Lincoln's antislavery strategies. The long and turning path to the abolition of American slavery has often been attributed to the equivocations and inconsistencies of antislavery leaders, including Lincoln himself. But James Oakes's brilliant history of Lincoln's antislavery strategies reveals a striking consistency and commitment extending over many years. The linchpin of antislavery for Lincoln was the Constitution of the United States. Lincoln adopted the antislavery view that the Constitution made freedom the rule in the United

States, slavery the exception. Where federal power prevailed, so did freedom. Where state power prevailed, that state determined the status of slavery, and the federal government could not interfere. It would take state action to achieve the final abolition of American slavery. With this understanding, Lincoln and his antislavery allies used every tool available to undermine the institution. Wherever the Constitution empowered direct federal action—in the western territories, in the District of Columbia, over the slave trade—they intervened. As a congressman in 1849 Lincoln sponsored a bill to abolish slavery in Washington, DC. He reentered politics in 1854 to oppose what he considered the unconstitutional opening of the territories to slavery by the

Kansas–Nebraska Act. He attempted to persuade states to abolish slavery by supporting gradual abolition with compensation for slaveholders and the colonization of free Blacks abroad. President Lincoln took full advantage of the antislavery options opened by the Civil War. Enslaved people who escaped to Union lines were declared free. The Emancipation Proclamation, a military order of the president, undermined slavery across the South. It led to abolition by six slave states, which then joined the coalition to affect what Lincoln called the "King's cure": state ratification of the constitutional amendment that in 1865 finally abolished slavery. *Crooked Path* W. Life brings most of us to thoughtful crooked paths of wonder. It leads the thoughtful person on a path of many windings. We live our lives forward but often understand them better when we view them in retrospect. This is true of Sam's story. The twists and turns of our journey often feel out of our control. Yet, we are always left with making a choice about how we are going to respond or

react to them. In essence, this is what determines the shape of the crooked path. There probably isn't anyone who manages to have a life with a straight path. The journey is much more complex for most people. We never know what the impact of our journey will be as others cross our path. Parts of the crooked path are our most treasured pieces and others are parts we wish had never happened. All of these pieces come together to form each person's unique crooked path. As people travel their journey, different things become more important than others depending on when and where they are on the path. Childhood issues are much different than end of life issues. All of it goes into forming the crooked path. We must own it all. Probably the most

important piece of the journey over which we have control is our ability to respond to the events on our crooked path. We can't change the event, but we can choose how to respond. This fact can change lives. It changed Sam's.
