SANTOS WILLIAMS

The Coming of the Book Currency

An instant New York Times Bestseller! "Consider this another vaccine against disaster. Fortunately, this dose won't cause a temporary fever—and it happens to be a rippingly good read." —Wired "This crisply written and well-paced book reads like an all-caps warning for a world shackled to the machines we carry in our pockets and place on our laps . . ." —The Washington Post From two former military officers and award-winning authors, a chillingly authentic geopolitical thriller that imagines a naval clash between the US and China in the South China Sea in 2034—and the path from there to a nightmarish global conflagration. On March 12, 2034, US Navy Commodore Sarah Hunt is on the bridge of her flagship, the guided missile destroyer USS John Paul Jones, conducting a routine freedom of navigation patrol in the South China Sea when her ship detects an unflagged trawler in clear distress, smoke billowing from its bridge. On that same day, US Marine aviator Major Chris "Wedge" Mitchell is flying an F35E Lightning over the Strait of Hormuz, testing a new stealth technology as he flirts with Iranian airspace. By the end of that day, Wedge will be an Iranian prisoner, and Sarah Hunt's destroyer will lie at the bottom of the sea, sunk by the Chinese Navy. Iran and China have clearly coordinated their moves, which involve the use of powerful new forms of cyber weaponry that render US ships and planes defenseless. In a single day, America's faith in its military's strategic pre-eminence is in tatters. A new, terrifying era is at hand. So begins a disturbingly plausible work of speculative fiction, co-authored by an award-winning novelist and decorated Marine veteran and the former commander of NATO, a legendary admiral who has spent much of his career strategically outmaneuvering America's most tenacious adversaries. Written with a powerful blend of geopolitical sophistication and human empathy, 2034 takes us inside the minds of a global cast of characters--Americans, Chinese, Iranians, Russians, Indians--as a series of arrogant miscalculations on all sides leads the world into an intensifying international storm. In the end, China and the United States will have paid a staggering cost, one that forever alters the global balance of power. Everything in 2034 is an imaginative extrapolation from present-day facts on the ground combined with the authors' years working at the highest and most classified levels of national security. Sometimes it takes a brilliant work of fiction to illuminate the most dire of

warnings: 2034 is all too close at hand, and this cautionary tale presents the reader a dark yet possible future that we must do all we can to avoid.

2034 Independently Published

Twilight in the Desert reveals a Saudi oil and production industry that could soon approach a serious, irreversible decline. In this exhaustively researched book, veteran oil industry analyst Matthew Simmons draws on his three-plus decades of insider experience and more than 200 independently produced reports about Saudi petroleum resources and production operations. He uncovers a story about Saudi Arabia's troubled oil industry, not to mention its political and societal instability, which differs sharply from the globally accepted Saudi version. It's a story that is provocative and disturbing, based on undeniable facts, but until now never told in its entirety. Twilight in the Desert answers all readers' questions about Saudi oil and production industries with keen examination instead of unsubstantiated posturing, and takes its place as one of the most important books of this still-young century.

What Does the Bible Really Teach?. OUP USA

Religious wars, global terrorism, pandemics, and genocide have all helped to usher in the Anxiety Age. Who better to lead the way out than popular psychic Sylvia Browne? In *End of Days*, Browne tackles the most daunting of subjects with her trademark clarity, wisdom, and serenity, answering such difficult questions as: What's coming in the next fifty years? What do the great prophecies of Nostradamus and the Book of Revelation mean? If the world is really going to end, what will unfold in our final hours? For anyone who's ever wondered where we're headed, and what—if anything—we can do to prevent a catastrophe of biblical proportions, *End of Days* is a riveting and insightful must-read.

New World A-Coming Norman Spinrad

From the imagination of legendary animator and two-time Oscar nominee Don Hertzfeldt comes a hilarious fever-dream vision of the apocalypse, now available in wide release for the first time since the rare original edition sold out. Created during sleepless nights while he worked on his animated films, *The End of the World* was illustrated entirely on Post-It notes over the course of several years, slowly taking shape from all the deleted scenes, bad dreams, and abandoned ideas that were too strange to make it to the big screen, including essential early material that was later developed into the animated classic *World of Tomorrow*. Hertzfeldt's visually striking work transcends its unusual

nature and taps into the deeply human, universal themes of mortality, identity, memory, loss, and parenthood . . . with the occasional monstrous biting eel descending from the sky.

The Fourth Industrial Revolution The Church of Jesus Christ of Latter-day Saints

Outlines a provocative approach to diplomacy that addresses the needs of today's globalized world, covering issues ranging from economic imbalance and environmental stress with recommendations for specific actions to unify the resources of governments, corporations and civic groups.

No One's World Verso

The stunning story of Russia's slide back into a dictatorship-and how the West is now paying the price for allowing it to happen. The ascension of Vladimir Putin-a former lieutenant colonel of the KGB-to the presidency of Russia in 1999 was a strong signal that the country was headed away from democracy. Yet in the intervening years-as America and the world's other leading powers have continued to appease him-Putin has grown not only into a dictator but an international threat. With his vast resources and nuclear arsenal, Putin is at the center of a worldwide assault on political liberty and the modern world order. For Garry Kasparov, none of this is news. He has been a vocal critic of Putin for over a decade, even leading the pro-democracy opposition to him in the farcical 2008 presidential election. Yet years of seeing his Cassandra-like prophecies about Putin's intentions fulfilled have left Kasparov with a darker truth: Putin's Russia, like ISIS or Al Qaeda, defines itself in opposition to the free countries of the world. As Putin has grown ever more powerful, the threat he poses has grown from local to regional and finally to global. In this urgent book, Kasparov shows that the collapse of the Soviet Union was not an endpoint-only a change of seasons, as the Cold War melted into a new spring. But now, after years of complacency and poor judgment, winter is once again upon us. Argued with the force of Kasparov's world-class intelligence, conviction, and hopes for his home country, *Winter Is Coming* reveals Putin for what he is: an existential danger hiding in plain sight.

Secrets of a Supernatural World University of Chicago Press

Why is the book of Revelation so difficult to understand? It is full of symbolism, ferocious animals and horses of varying colors, humanity being destroyed, and a woman riding a beast. It's supposed to be a book of revealing. The author spent forty-three years studying the Bible and found "keys of understanding." The keys are found throughout the Bible. They unlock the book of Revelation for us today. Most prophecies are for the end time we are now approaching. We need to understand them. No one wants to read a book concerning all bad news about World War III and the great tribulation. But there is good news following the bad. Can you imagine a world at peace? All armies are disbanded, all weapons melted down into farm implements. You will read the good news about the return of the Prince Of Peace, Jesus Christ's coming as King of Kings.

Winter Is Coming Random House Incorporated

The climate change is coming. To prepare for it, we need to admit that we can't prevent it.

Is the End of the World Near? Nation Books

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Second Coming of Christ Penguin

Derrick is sure that doomsday is coming, and he's prepping to survive--whether his friends believe him or not--in this middle grade novel for readers of Gary Schmidt, Gordon Korman, and Jack Gantos. Ever since his mother was killed in the line of duty in Iraq, Derrick has been absolutely certain that the apocalypse is coming. And he's prepared: he's got plenty of canned goods, he's fully outfitted with HAZMAT suits, and he's building himself a sturdy fallout shelter. When his neighbor Misty insists on helping with the shelter, Derrick doesn't think it's such a good idea. Misty's just had a kidney transplant, and her reaction to her brush with death is the opposite of Derrick's: where Derrick wants to hide, Misty wants to see and do everything. But as confident as Misty is, Derrick's doomsday fears just keep getting worse. And Derrick's promised apocalypse day begins with a very strange disaster, Derrick and Misty have to figure out a way to survive--especially when the end of the world as they know it looks nothing like they expected.

New World Coming: Supporting research & analysis Simon and Schuster

China fragments, a new Cold War with Russia, Mexico challenges U.S., the new great powers Turkey, Poland and Japan. *The Next 100 Years* is a fascinating, eye-opening and often shocking look at what lies ahead for the U.S. and the world from one of our most incisive futurists. In his provocative book, George Friedman turns his eye on the future—offering a lucid, highly readable forecast of the changes we can expect around the world during the twenty-first century. He explains where and why future wars will erupt (and how they will be fought), which nations will gain and lose economic and political power, and how new technologies and cultural trends will alter the way we live in the new century. *The Next 100 Years* draws on a fascinating exploration of history and geopolitical patterns dating back hundreds of years. Friedman shows that we are now, for the first time in half a millennium, at the dawn of a new era—with changes in store, including: • The U.S.-Jihadist war will conclude—replaced by a second full-blown cold war with Russia. • China will undergo a major extended internal crisis, and Mexico will emerge as an important world power. • A new global war will unfold toward the middle of the century between the United States and an unexpected coalition from Eastern Europe, Eurasia, and the Far East; but armies will be much smaller and wars will be less deadly. • Technology will focus on space—both for major military uses and for a dramatic new energy resource that will have radical environmental implications. • The United States will experience a Golden Age in the second half of the century. Written with the keen insight and thoughtful analysis that has made George Friedman a renowned expert in geopolitics and forecasting, *The Next 100 Years* presents a fascinating picture of what lies ahead.

Jesus is Coming Penguin

A Study Guide and a Teacher's Manual *Gospel Principles* was written both as a personal study guide and as a teacher's manual. As you study it, seeking the Spirit of the Lord, you can grow in your understanding and testimony of God the Father, Jesus Christ and His Atonement, and the Restoration of the gospel. You can find answers to life's questions, gain an assurance of your purpose and self-worth, and face personal and family challenges with faith.

New World Coming Penguin

Argues that as China, India, Brazil and other emerging powers rise, the founding ideals of the West will not continue to spread, and that in the near future, Europe and the United States will need to fashion a new consensus with these powers on issues of legitimacy, sovereignty and governance.

The World Is Flat [Further Updated and Expanded; Release 3.0] Torrey House Press

This is a new release of the original 1943 edition.

The Coming Messiah Image

At one time or another, just about everyone has talked about the end of the world. But what does this phrase really mean? Does it mean the end of the human race? The end of planet Earth? The end of our Sun and solar system? And if the world were to actually end, how and when would it happen?

People have been asking these questions for thousands of years. Many religious prophets have predicted the end of the world. Science-fiction writers have created lots of end-of-the-world stories. Scientists, too, talk about natural events that could destroy human life or planet Earth. Some end-of-the-world events are dramatic. Imagine an asteroid slamming into Earth, creating a massive explosion. Other scenarios don't involve a single, catastrophic event. For example, global warming is changing the planet and threatening people, plants, and animals. It might not bring about the end of the world, but it might change life as we know it. In this book, we'll look at these scenarios and many more-everything from Mayan prophecy to nuclear disaster to the end of the universe. We'll find out which scenarios to ignore and which ones to really worry about.

The Coming WORLD RELIGION and the MYSTERY BABYLON Twenty-First Century Books

The Coming Messiah: Hope for a Hurting World provides a glimpse of history and how the world arrived at this point in time by maintaining a focus on the nation of Israel. God's redemptive story is woven throughout its pages, providing encouragement and hope for those who may feel they have no hope. We see war and strife on every side, distress among nations, famine and disease, and a time when evil is called good and good is called evil. Yet even in the midst of extreme difficulty and persecution, you can find peace, you can have hope-hope that can only be found in the person of Jesus Christ. *The Coming Messiah: Hope for a Hurting World* tells how you can have that hope, hope that surpasses all understanding. Difficult times are sure to come, yet God has provided a way of escape through his dear Son, Jesus Christ.

New World a Coming NYU Press

The Phase I report on the emerging global security environment for the first quarter of the 21st century.

Revelations Penguin

Are the end times near? Is the Rapture really just around the corner? Could Jerry Falwell and Pat Robertson possibly be right? About 1 billion people among us believe, yes, absolutely. And that means one thing: investment opportunities! For those who are not as expertly versed in the Book of Revelation, Ellis Weiner and Barbara Davilman, authors of the bestselling Yiddish with Dick and Jane, helpfully offer both illumination and advice: What exactly is the Rapture, anyway? How is it different from the Tribulation? Who are the Antichrist, the Four Horsemen, and the 144,000 male virgins, and what do they want? And, most important, how can I make money during the 7 years of societal breakdown before Armageddon? Taking the familiar form of a how-to investment guide, *How to Profit From the Coming Rapture* instructs those readers who will certainly be left behind (Jews, Catholics, Muslims, Buddhists, Hindus, less ardent Protestants, and many more) on how to exploit the inevitable demise of the world in order to make a tidy profit. Sure, the rivers and seas will run with blood, locusts will swarm, mountains will move all over the place, and famine will strike. But for the five billion of us left behind, the post-Rapture world will be a time of even more unique investment opportunities.

The Next 100 Years Createspace Independent Pub

Examines the politics of globalization as practiced by President George W. Bush, looks at the challenges to be faced in a post-Bush era, and argues for a populist "democratic globalism" as a vision of global order.

Revelation John Wiley & Sons

Many Christians think of end times prophecy as a gigantic, intimidating puzzle -- difficult to piece together and impossible to figure out. But every puzzle can be solved if you approach it the right way. Paul Benware compares prophecy to a picture puzzle. Putting the edge pieces together first builds the 'framework' that makes it easier to fit the other pieces in their place. According to Benware, the framework for eschatology is the biblical covenants. He begins his comprehensive survey by explaining the major covenants. Then he discusses several different interpretations of end times prophecy. Benware digs into the details of the Rapture, the Great Tribulation, the judgements and resurrections, and the millennial kingdom. But he also adds a unique, personal element to the study, answering questions as: -Why study bible prophecy? -What difference does it make if I'm premillennial or amillennial? If what the Bible says about the future puzzles you, *Understanding End Times Prophecy* will help you put together the pieces and see the big picture.
